### Premier's Speech Stirs Kemalists

Constantinople, Oct. 17. — (By P.)—Prime Minister Lloyd leorge's Manchester speech on the Near East, of which a summary reached Constantinople last night, has created a furore among the Kemalist followers here. The entire summary was telegraphed immediately to Angora.

"This speech," said the Kemalists' representative, "completely shatters the confidence which we were reposing in Great Britain after her assurances to us at Mudania.

The phrase in which, as received here, the Kemalists were compared with "warlike animals," particularly displeased the Nationalist del-

The Grundy leaders say that "Big Tom" did not treat them right in the last session when he turned in with Ed Vare in support of the Sproul-Crow forces against the Oliver Grundy legislative alliance.

However, Weglein, having in mind

his candidacy for Mayor next year, is working to bring about harmony between Tom Cunningham and Judge Brown. These two split off from each other in the last county office election, and the entente cordinic between them thas not been as cordial as it might be.
Thus a new combination may revolve around Judge Brown, Weglein, Hall, Cunningham, Campbell, Carey, Collector of Internal Revenue Caughn and Councilman McKinley.

Combination Faces Handicaps Any combination may be broken up at once, it was conceded, if some big issue arises on which leaders will have to take sides, or if big money enters the game. And, furthermore, a handi-cap to any combination, it was admit-ted, is the so-called vindictiveness of the Trainers, who might want to avenge old insults from the Vare leaders. While the leaders were milling about n discussion and conferences Council-man Buchholz, sage of Council, after looking over the antics and general mise

There was a feeling, however, that he would be consulted, on many questions, out of sentiment, if for no other reason. and of course there are other reasons, such as that Mr. Vare also is wealthy. Stotesbury's Purse Mentioned It may be, it was suggested in some quarters, that E. T. Stotesbury, who has been known to take an intimate in-terest in local politics, may be one of the men or the man to try to control the Organization by means of the power

of the purse.
This suggestion was advanced largely because of the financier's opposition to a great Sesqui-Centennial. With con-trol of the local organization, he could trol of the local organization, he could halt Council in voting funds for the fair.

Mr. Pinchot, once in the chair in Harrisburg, it was said, cannot fail to have a profound influence on the question of Philadelphia's political leaders. He will be influential, both because of his control of patronage and of his relations. State Department looking to the re-
