LEGION DELEGATES **GREET GOMPERS**

Federation Head Tells Convention of Labor's Rights and Duties

WELCOME TO LANDIS

New Orleans, Oct. 17.—The American Legion, in national convention today heard Samuel Gompers. head of the American Federation of

Labor, tell of labor's aims and aspira-

tions, its right and duties. Mr. Gompers and Kenesaw M. Landis, commissioner of baseball, received a noisy welcome from the "buddies" when they entered the convention hall. The session was slow in getting under way, after a merry night.

Numerous delegations marched to the hall over the ancient cobblestones that have been doing duty as paving almost since the day of Andrew Jackson. Mist hung over the river and the gray hulks of destroyers of the navy flotilla loomed

big through the rising vapors.

Presentation of the national colors to the delegates opened the session.

Hanford MacNider then presented

John Barton Payne, national head of
the American Red Cross, and declared
that the Red Cross had done a great

that the Red Cross had done a great deal to carry out the Legion's policy in regard to the disabled.

Mr. Payne said the Red Cross was "not a cult," but "the heart throb of the Nation, without creed or color."

Commissioner John J. Tigert, of the Federal Bureau of Education, then extended greatings to the Legion. He increased the result of the result dersed the rehabilitation and hospitalization program of the Legion. The men who came back from France, Mr. Tigert said, were disillusioned when they
found that "some men had transmuted
into gold the blood they shed on behalf

Tell Them Your Story

How teeth discovered-how some decayed Teach them the new way to better protection

Nearly every mother knows that, under old ways of brushing, teeth still discolored, still decayed. Tooth troubles were constantly increasing, until 49 in 50 suffered in some way. Very few children escaped.

Now there's a better method. Millions of people now employ it, largely by dental advice. To careful people of some fifty nations it is bringing a new dental era.

Tell them about it-let them test it. They will quickly see and feel the effects. And it will aid them, all life long, to better avoid troubles which you suf-

Film—the great enemy

Modern research proves that most tooth troubles are caused by film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not effectively combat it, so old-way brushing left much of it intact.

Film absorbs stains, making the teeth look dingy. It forms cloudy coats. Tartar is based on film. It holds food substance which ferments and forms

world over. All druggists supply the large tubes.

acids. It holds the acids in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Thus, all one's life, most people's teeth were dimmed and threatened by

Two combatants now

Dental science, after long research, has found two ways to fight film. One acts to curdle film, one to remove it. without any harmful scouring. Able authorities, by careful tests,

have proved these ways effective. Now leading dentists the world over are advising their daily use. A new-type tooth paste has been created, to comply with modern require-

ments. It protects the teeth in five new ways, now known to be essential. Those two great film combatants are embodied in it. The name of that tooth paste is Pepsodent.

Two great mistakes

Modern research also proves that tooth pastes based on soap and chalk brought undesired effects. They re-

One Tube Free

For anyone to test

The way to prove what Pepsodent does is to send the coupon for a 10-Day Tube. The delightful results, quick and apparent, will convince anyone who cares.

If you don't know them, send the coupon now.

duced the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

They reduced the alkalinity of the saliva. That is there to neutralize the acids which cause decay. Pepsodent corrects those mistakes.

It multiplies the starch digestant, multiplies the alkalinity. Thus every use gives manifold power to Nature's great tooth-protecting forces in the mouth.

That is why Pepsodent is so fast bringing a new era in dental hygiene.

Those Pretty Teeth Seen everywhere today

Millions now use Pepsodent. Wherever you look you see the results in glistening teeth. And people smile to show them. Look about you. You can see that

some great change has come. And those prettier teeth mean cleaner, safer teeth, multiplied protection.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the filmcoats disappear.

If you want prettier teeth, you will know the way to get them. If you want safer teeth for you and yours, you will know that this way brings them. Cut out the coupon so you won't forget.

The New-Day Dentifrice

A new-type tooth paste, based on modern research. Acts in five ways now considered essential. Advised by leading dentists the
