# There are people who don't know what direct advertising is

In Cincinnati, October 25 to 27, inclusive, the Direct Mail Advertising Association will hold a convention which 2500 advertising managers and printers are expected to attend. The formation of this Association and the sessions of its worth-while conventions are a logical outgrowth of the increasing appreciation of the value of direct advertising and of the part that good printing plays in making sales.

"Direct advertising" is a short way of saying "Direct-by-mail advertising."

It means any kind of advertising that is mailed to the persons who are to see it.

Direct advertising includes: Letters, folders, catalogs, circulars, booklets, broadsides, postcards, announcements—any printed or written advertising that is mailed to its readers.

Direct advertising works unseen except by those who are particularly expected to see it.

Yet the growth and development of this phase of advertising has been swift and fast. More than one-third of all advertising that is done, is done directly by mail from the advertiser to his individual prospects.

# You Wouldn't Pay '800 to '1000 for Such Things

Yet That is Exactly What You May Do, if You Don't Know the Facts

Everthing that goes into or on a motor car cost money. The buyer must pay for it.

So when you consider the two types of closed cars that sell under \$2000 think of what you are buying.

If you use a closed car to impress by its luxurious appearance, then get the most you can for your money in the way of dome lights, vanity cases, clocks and such fittings.

But if you have first regard for car performance, look to the chassis. All reliability and low cost of operation being there.

### What Hudson Gives

The Hudson Coach is mounted on the famous Super-Six chassis. More than 120,000 owners know its reliability. And now with the new improved Super-Six motor, there is found a smoothness and motoring charm that thrills.

The \$1625 you pay for the Hudson Coach goes for qualities that are essential to genuine utility. Closed bodies mounted on cars comparable to the Super-Six in performance and enduring reliability cost \$800 to \$1000 more than the Hudson Coach

Confirm this by comparing open car prices.

The difference between open and closed car prices, for the most part, represents what you pay for fancy body fittings.

### The Coach Endures

The Hudson Coach provides every closed car comfort. It is sturdy, long lasting, and good to look at. You will be proud of it.

But your greatest gratification will come from the performance of the car. In the Super-Six no one ever need give way when real motor performance is concerned.
