One of the conditions which tend to swell the Pinchot vote and depress the vote for the United States Senators is the fact that the newly formed Pro-gressive Party ticket, the mainspring of which is Congressman-at-Large Wil-lism J. Of course, it goes without saying that Senators Pepper and Reed will be elected even though they have the joint opposition of the Democrats and of the Burke party, while Pinchot is confronted only by the Democratic ticket. Therefore, those who vote
