

SPROUL INDORSES FULL G. O. P. TICKET

Issues Statement to Voters of State, Officially Backing Pinchot

PAYS CANDIDATE TRIBUTE

Governor Sproul has issued a statement to the "voters of Pennsylvania" in which he indorses the gubernatorial candidacy of Gifford Pinchot and puts his official O. K. on the whole Republican State ticket to be voted for at the election next Tuesday.

The Governor pays high tribute to Mr. Pinchot's character and his ambitions and urges that he be given support at the polls.

The Governor's statement follows: "While the usual reports of lack of interest in the State campaign are current, my information is that the situation is improving each day, and the Republican ticket headed by Gifford Pinchot for Governor and our two splendid United States Senators, will have the normal majority."

"The above is an excellent one, and the candidates for Congress and the Legislature throughout the various districts are unusually strong and progressive, and all will contribute to the support of the Republican men and women of Pennsylvania. The registration figures in the cities and enrollment in the counties show the Republican proportion of the total eligible vote has been maintained and in many places increased."

"Mr. Pinchot has won many friends and united his party by the thoroughness of his campaign and his unflinching co-operation with and support of his colleagues on the ticket, and the regularly nominated local Republican candidates throughout the State."

"In the face of a virulent and reactionary opposition, which would undo or destroy all that has been accomplished in the way of progressive, constructive and humanitarian legislation in a generation, Mr. Pinchot has conducted himself with foresight and dignity, and has refused to be stampeded by the mendacious, vituperative and despicable attacks by his opponents into any statements or actions unworthy of a candidate for the great office of Governor or of a gentleman."

"I regard Mr. Pinchot so highly that I invited him to undertake a most important work for Pennsylvania. He proved himself an administrator and organizer of the highest order."

"My regard and respect for him have increased by the efforts he has made to inform himself upon the public questions affecting the State Government, the courageous energy and fine judgment he has shown in dealing with the issues of the times and by the poise and good manners that have characterized his conduct of the canvass."

"Every good citizen must be in accord with Mr. Pinchot's platform pledges and must sympathize with his efforts to assure legislative support for his program."

"There may be room for natural differences as to methods and details in accomplishing the things he has in mind, but we must all agree upon the essential worthiness of his plans and pledge him our aid in carrying them out."

Something of Vital Importance to Purchasers of Baby Grands

In these days when almost every one wants a Baby Grand, it is very important to see that you get a real grand piano. So many Baby Grands are only grinds in shape and grinds in appearance!

So many are woefully lacking in real grand tone and grand touch and grand quality!

The new Estey Baby Grand is 5 feet 2 inches in length. Not enough longer than a great many baby grands of 5-foot length to make any difference in the space it occupies in your room, but enough to make a great deal of difference in its length of string and sounding board area—thereby adding immeasurably to its tonal qualities.

The new Estey Baby Grand is a real grand—beautiful of tone—even of touch—exquisite of finish. It may well be a source of pride and joy to the most finished pianist. And any one contemplating the purchase of a Baby Grand will find it to be very much to their advantage to examine this splendid instrument before they fully make up their minds as to just which make of piano to decide upon.

ESTEY—best-known musical name in the world. More than half a million pianos and organs have been made and are in use in every country on the globe. SUCH A RECORD INSPIRES CONFIDENCE.
