PADRICK GETS LIFE TERM FOR MURDER

Preacher Who Killed Two Not to Be Tried for Wife Slaying

JURY RECOMMENDS MERCY

It was in the case of the late Rev. J. J. Padrick, a prominent preacher, that the jury recommended mercy for the man who had been charged with the murder of his wife. The jury found Padrick guilty of the crime, but recommended that he be sentenced to life imprisonment. The judge, however, sentenced Padrick to the electric chair. The jury's recommendation was based on the fact that Padrick had a long record of good character and was a well-known member of the community.

Padrick was charged with the murder of his wife, Mrs. J. J. Padrick, on the morning of the 15th of the month. The charge was based on the fact that Padrick was found with a bloody knife in his hand and a pool of blood on the floor of the house. Padrick's defense attorneys argued that Padrick was innocent and that the jury should recommend mercy.

"THE RIGHT WAY" Making Teeth and Grinding Glasses

Most artificial teeth today are made in big commercial laboratories. The makers are experts in this branch of dentistry. You would not think of going to them for dental surgery, or treatment. Theirs is the mechanical, not the medical part of the science.

Oculist and optician hold relatively the same position. The oculist (eye physician) is qualified by medical training to examine the eyes, diagnose their condition, prescribe treatment and glasses. The optician's part is to make and fit the glasses prescribed.

Your eyes are infinitely more precious than your teeth. Surely you will follow the same logical path—a doctor first, then the optician.

YOUR FAMILY DOCTOR OR A "GUILD OPTICIAN" WILL RECOMMEND AN OCUList
