THIRD PARTY TALK FAILS TO STIRG. O. P.

Borah's Prediction of Republican Revolt Causes No Surprise in Washington

FARMERS DECIDING FACTOR

By CLINTON W. GILBERT

By CLINTON W. GH.BERT
Washington. Nov. 3.— Senator
Borah's talk of a third party enuses no
supprise in Washington. Newspaper
correspondents and speakers who have
been out through the country in the
campaign all bring back the story that
the same question is asked everywhere:
"What are the prospects of a new
party?"
The discussion was started by the
speeches of Frank A. Mussey and Dr.
Nicholas Marray Butley, in New York.
a short time ago, desinging that there
must be a realignment of the pattles

on the question of redealism versus conservatiom.

At the present time that is no sign of any such break-up in the present national grouping. Senator Berah who talks more about political resolutions than any one else in politics, has no program upon which a taird party could be based. He differs from the Republicans, but only in detail. He raises the talk of party revolt merely to frighten the Republican baders. He is not himself of the temperature which

of it. Even in 1912 Borah slayed regular.

Next Tuesday's election may have a powerful influence toward making a third party possible. A defeat of the Republicans in Ohio, the election of a Democratic Governor in New York would weaken the hold of the present administration upon the so-called western Progressives. And in the course of the next two years a breach may develop between the Conservative Eastern Republicans and the next two years a breach may develop between the Conservative Eastern Republicans and the next two years a breach may are fine of the fortheating Near Loss conference. It was stated authority tively that the hopen question variance discussed. redical of the farm blos members.

Farmer Biggest Factor

But the biggest factor is the eco-mic struction on the farms. The pres-ent prosperity is not reaching the agri-cultural rection. High freight rate-have so changed the economic situa-ties of the farmers that well-informed-men like Secretary Wallace see to prospect of improved conditions in the West. The Eastern farm now has the advantage over the western farm by reason of its shorter haul to mar-tet. That is to say, competition among the farm land has been enerm-ously stimulated, while the cost of labor, transportation and materials on the farms has been greatly increases The consequent respessions of the

Western farm has been refle ted in this campaign in Iowa, Nebraska, North Dakota, Minnesota and Wisconsin es-pecially. If it continues during the next two years, and at the same time, the control of the Republican party here in Congress weakens as rapidly as it has in the last two years, a considerable political upheavet may be possible in 1924.

There are a good many contingencies in all this. If the elector weaken-the present Administration. If the depression on the forms - but the ing sections of the country meets with setback in the next two years. Then is no certainty anywhere, but conservative judges of the present situation would probably give odds tast all of these its will be realized.

We are all very far away from the farms here in Washington and know little about what is being thought on them. A case in point is Mr. Boran himself. Six weeks ago he was whipering about a third party. He got out into the West to campaign. He comes in contact with the sentiment on the fact. the farms. He sees at fitrst hand how the politicians of his parts in Islaho where six weeks ago he was saying that he preferred the work within his party, today he is declaring openly that a new party is almost inevitable.

Taxation and Railconi Issues

The issues that are becoming in-portant are execution and railroad rates. That is what men like Brookhart, France, La Follette and Howell are talking about. And it is upon these questions that a division will take place if one does occur. The Western farmers went to be favored in railroad rates. They desire to shift the burden of taxetion upon what they call wealth that is to sar, weath not invested in

agriculture.

Now there is nothing very budget in all thisfi No fundamental after the accommic policy is in eight. It is hard to believe that a meyement my more permanent than the Populist decrement or the progressive movement with constrom it. But a transporary uphencial may result which will change conother of the character of one or the

FREIGHT WRECK ON P. R. R.

FIERY CROSS STIRS TOWN Williamsport, Pa., Nov. 3.—An engine and nine leaded freight cars were derailed when a freight train was wrecked on the Pennsylvania Rullroad west of this city yesterday and a second freight crashed into the wreckinge a few injurtes later. The crews of both trains escaped.

Rochester, N. Y., Nov. 3.—Olean, south of here last night was speculating about a large cross of fire seen at the top of Homer Hill. A loud explosion attracted attention to the spot, and it was followed by the bursting into figure of the cross, which burned twenty minutes.

WHY PAYMUCH \$400 for any Player-Piano, if you can buy a new, high-grade and guaranteed instrument for less, on easy weekly or monthly payments, with several dozen music rolls. a bench and cabinet thrown in? A well-made Player-Piano, if carefully handled, will last from 25 to 35 years and he a constant source of pleasure and entertainment to its owners. The Cunningham Player: Piano is manufactured with the celebrated REO-STYLE patents owned and controlled exclusively by us, in our modern, wellequipped factory. So perfect in construction is this instrument that a child can play with all the expression of the master composer himself. Every Player-Piano we manufacture has a double valve action and metal tubing. Do not let anybody talk you into buying an instrument with a single valve action, as it has not the power or endurance—if it had, why should we spend twice as much money in developing a double valve action? The very fact that for over a quarter of a century we have been offering \$10,000.00 for a better piano than the MATCHLESS CUNNINGHAM should be sufficient proof of its quality! All our instruments are priced from 20 to 30 per cent, lower than any dealer anywhere (whether large or small) can afford to sell. Terms arranged to suit the CASH, OPEN BOOK ACCOUNT OR EASY PAYMENTS IT PAYS All Makes of TO Talking Machines at THINK! Reduced Prices.
