OLD-TIME PENNSY ENGINES WERE MARVELS OF SPEED

A. B. Ryan, Hale and Hearty at 72, Recalls When He Covered Philadelphia-Jersey City Run in 76 Minutes, Under Urge of Late T. D. Cuyler

A. B. Ryan, who piloted the first train to the site of the Centennial Depot of the Pennsylvania Railroad, created in the Fairmount Park fair grounds at the opening of the great exposition, of 1876, has a unique record as a railroad engineer.

Mr. Ryan, who has been on the Pennsylvania's home soil for four years, is now seventy-two years old and lives at 7209 Spruce street.

The locomotive which Mr. Ryan took on his trial trip into the fair grounds was of the old type with funnel shaped smokestacks, and with limited capabilities as to speed.

But Ryan, during the height of his career as a railroad engineer knew how to get speed out of an engine. He was selected by the late Thomas De Witt Cuyler, at one time during a strike in Jersey City, to run a special train from Philadelphia to Jersey City in as fast time as possible. The result was one of the most notable of Mr. Ryan's achievements.

The trip, a distance of eighty-nine miles, was made in seventy-six minutes. And Ryan had only a sixteen-year-old boy for a "fireman" at that.

A. B. RYAN
Engineer who piloted first train into Centennial fair grounds, says modern flitters have nothing on old-time locomotives for speed

Began as a Water Boy
Beginning as a water boy, at the age of fifteen, on the Camden and Amboy branch, Mr. Ryan won his way to the top, being promoted to engineer in 1870, after eleven years in the ranks. His retirement from active duty came in 1915, when he was sixty-eight years old, and after fifty-three years of service.

Mr. Ryan spent most of his railroad career on the New York Division of the Pennsylvania, as an engineer.

He looks upon the trial trip into the Centennial grounds in 1876, as one of the "special honors" of his railroad career, although he thought little of it at the time.

"And on that trip to Jersey City with a 'special' carrying only railroad officials," said Ryan, "was certainly the most important thing I did in my life. It was the first time I had charge of an engine about a week at the fair's opening."

Had Joy for Fireman
"We went easy on the curves, but we made pretty good time at that. I had only a boy for a fireman and he kept running me in the fire and urging me to 'let 'er out.' But I tell you, that boy kept the steam gauge right on the top all the way to Jersey City. No fireman could have done better."

"When we pulled into the station at Jersey City, after a seventy-six minute run, the kid was 60 miles. Mr. Cuyler shook hands with me and congratulated me on the trip."

"During the Centennial in 1876, trains were coming into the fair grounds from all the cities of the East. I saw several almost every hour from New York. I had charge of an engine about a week at the fair's opening."

NOKOL
Self-Operating Oil Heaters for Homes

Assures Heating Comfort

NoKol automatically gives a heating service that no janitor could approach if he gave his whole time to your furnace. It maintains an even heat, thermostatically controlled at precisely the temperature you wish, regardless of winter weather.

INVITE GIRL SCOUTS TO MEET 'BROWNIE'

Phila. Council to Hear Miss Vivian Rhys Davids, of London, Tonight

EMERGENCY AID SUPPER

The Council of the Girl Scouts of Philadelphia has sent out invitations for tonight at the home of Mrs. Thomas Robins, 1719 Locust street, to meet Miss Vivian Rhys Davids, of London, who will speak on "Brownies." The speaker girls were so anxious to join the Scouts that the "Brownies" were formed for girls too young to understand the Girl Scout program.

Miss Rhys Davids is an Eagle Owl of the English Brownies; there are only four Eagle owls in England. They are called "Brownie Leaders." They are the "Brown Owls," as "Brownie" captives are called.

Among those who have accepted the invitation to hear Miss Rhys Davids are Miss Olivia Gazzam, Miss Joy Drew Bar, Miss Sarah Duane, Miss Elizabeth Mockridge, Mrs. Newbold Taylor, Miss Mary Lovings, Miss Elizabeth O'Neill, Miss Ava Robinson, Miss Ellen Mary Cassatt, Miss Hope Allen, Miss William A. B. Paul, Mrs. Walter C. Janney and Mrs. J. Hampton Moore.

The Leaders' Association of the Girl Scouts of Philadelphia are meeting Miss Rhys Davids at supper at 6:30 o'clock at the Emergency Aid. Among those who have accepted are the Misses Ellen Mary Cassatt, Gwen Martin, Jane Gordon Cox, Lillian Beck, Anna Gribbs, Marie Louise Hepburn, Ellen White Harrison, Mrs. Thomas Robins, Miss Ruth Israel, Miss Eleanor Peil, Miss Emily Taggart, Miss Elizabeth Strain, Mrs. J. Hampton Moore, Mrs. Boris Smith, Mrs. W. V. Horn, Mrs. John V. Martin, Mrs. James C. Newlin, Mrs. Henry P. Perkins. About one hundred guests are expected.

Stop for 10 Days
Stop brushing teeth in ineffective ways
See what new beauty this new way brings

Nearly all the world over, leading dentists are advising people to brush teeth in a new way. Millions of people now do it every day.

You see the results wherever you look. Teeth now gleam which once were dim. Women have new charm, new beauty. They show teeth when they smile.

This is to urge all other people to try this method now. Your druggist will present you with a ten-day tube. Cease your old methods for a few days and see what this new way does.

Why teeth look dingy
Your teeth are coated with a viscous film. You feel it with your tongue. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it. So that film, if left, soon forms the basis of thin dingy coats. Tartar is based on film.

No ordinary tooth paste can effectively combat it. So millions of teeth brushed daily were clouded more or less.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Film forms a breeding place for germs. They, with tartar, are the chief cause of pyorrhea.

All these troubles were constantly increasing. Very few escaped. The tooth brush, used in old ways, left much film intact.

The war on film
Dental science then began a war on film. After long research, two effective film combatants were discovered. Able authorities amply proved their efficiency. Then they were announced, and since then leading dentists everywhere have been urging their adoption.

One acts to curdle film, one to remove it. And this is done in scientific ways, not by harmful scouring.

A new-type tooth paste was created, based on modern research. It brings other new results now considered essential. It avoids several old mistakes. In this tooth paste are embodied these two great film combatants. The name of the tooth paste is Pepsodent.

Two other new effects
Pepsodent brings two other effects which research proves essential. It multiplies the starch digester in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay.

It was found that tooth pastes based on soap and chalk brought just opposite effects. That is one reason why they proved so ineffective. They reduced the tooth-protecting agents which Pepsodent increases many fold.

These results mean a new dental era. They mean that your children need not suffer what you suffered from your teeth. They mean that film-coats can be combated.

A few-day test will prove this to you. Make that test in fairness to yourself.

Some Fifty Nations
Use this new way now

Careful people of some fifty nations now use Pepsodent, largely by dental advice. To millions of women it has brought new charm, new beauty. To men of many races it has brought teeth they love to show. To children it has brought protections which your childhood did not know.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

What you see and feel will very soon convince you. You will be delighted and amazed. Cut out this coupon so you won't forget, for this test is important.

Pepsodent
PAT. OFF.

Little Benny's Note Book
By Lee Pope

One of man's gold fishes was acting kind of funny today and after supper he said to pop, Willyum, I dont know was the matter with Walter but he's certainly not feeling well, has hawking him like himself at all.

Walter, Walter who, O yours tawnt about one of those confounded gold fish, pop sed.

Willyum, dont you call him names, suppose the little fello died, then how would you feel? ma sed.

Better, I mean terrible, wy, wats rong with him, I dont know, I dont notice either of them looking pale, pop sed.

Its this one, dont you notice how slow he moves and how he scrappes along the bottom of the aquar'ry? ma sed.

Maybe he's jest trying to scratch himself, perhaps one of his scales is loose and itches him a little, pop sed.

Willyum, I know a sick fish when I see one, ma sed. Benny, did you do anything to this fish? she sed.

Mam? I sed, I didnt do anything to him, that I didnt do to the other one, I sed.

Well wat did you do to them, tell me immediately, ma sed, and I sed, Aw, it wasent anything, I jest tried to teach them a little trick, it wasent nothing. Wat do you mean, wat trick? ma sed.

I was jest trying to teach them to breathe, sed, and ma sed, Dont tawk nonsense, they can breathe.

Not out of watter they cant, I sed.

O that so, well see if you can breathe while your having your face slapped, ma sed. And she gave me 2 fearee cracks and made me go rite up to bed, the oyr consolation being that I didnt haft to finish my lesson.
