FREE SPEECH DOWNTOWN

There are some fads and some follies—usually the worst—that spread as quickly as influenza.

RED CROSS ROLL CALL

The Red Cross roll call now under way is particularly timely in view of the obligation for service in the home field as well as in stricken regions of the Old World.

RIFTS IN ISLAM

REPORTS of Turkish national advocacy of Mustafa Kemal for Caliph strikingly indicate a condition of anarchy in the Moslem world that is the complete antithesis of the picture of solidarity drawn by sensationalists who have viewed what is essentially termed the awakening of Islam as a menace to Christian civilization.

WINGS OF THE NATION

FOREIGN Governments—even those that profess loudly to be stone broke—continue to lavish money for the continuing development of military and commercial aviation.

latter is the concern of other countries, partly or wholly Mohammedan, such as Persia, Afghanistan, Egypt, India, Arabia, and Dutch East India colonies, which are virtually certain to dispute its validity.

RADICALISM IN AMERICA IS A DRESSED-UP BUGABOO

So-Called Extremists Elected to Congress Are for the Most Part Harmless Advocates of Changes in Petty Detail

Legal Aid for the Poor Man

LEGAL aid for the person who cannot afford to engage a competent lawyer is one of the most significant developments of modern American life, according to John S. Bradway, secretary of the National Alliance of Legal Aid Societies and assistant secretary of the National Commission of Legal Aid.

AN EXPERT'S OPPORTUNITY

DR. ROYAL S. COPELAND, Senator-elect from New York, who is confounding the expectations of his constituents by his ignorance of many parts of the political game, has no hesitation in asserting that he will work in Washington for repeal or drastic revision of the silly Immigration Law.

WINGS OF THE NATION

It is the effect of these demands upon the fortunes of the two political parties that is disturbing the political leaders at the present time rather than their effect on American institutions.

enormous risks and record spectacular achievements of skill and endurance in desperate effort to rescue the Congress of the United States that the airplane has arrived and ought to be taken seriously.

All Federal appropriations for flying in this country have been cut to the bone at recent sessions. The air mail, which is in reality a great school of training and observation for American pilots, was considered a failure in the home because it didn't show a profit.

There Can Really Be No Difference of Opinion as to What to Do With Helium if Common Sense Holds Consultation With Expertness and Knowledge

WHEN I wrote last Friday of coal-mine conditions in Uniontown, Fayette County, Pa., I referred to the company as the Berwind-White Company. It was not the Berwind-White Company, its mines being forty miles away.

LEGAL AID REALLY MEANS

LEGAL aid is made up of three things. First, it engages in ordinary legal work, prosecuting and defending cases and advising clients.
