# GREAT CONTEMPORARY BIOGRAPHY A Life of Lloyd George That Is Not a Campaign Document

Perhaps in fifty years some other biographer will be insisting that the very qualities which were the cause of his weakness in his earlier career were the qualities without which he could not have risen to the occasion when war came. Mr. Raymond suggests it. but he

cannot find it in him to admire those qualities. He advances the novel theory that the vagaries of the man's political record arose from the conditions of his life. He was born poot and for years had to struggle to sup-port himself and his family. Mr. Raymond says that the peor man is never able to take a long look ahead

Some men cannot face reality. To escape it they will make supreme sacrifices. Others build up unconsciously in their minds a defense against the truth they cannot bear. The modern psychologist calls this the protective mechanism of fear. Recollection snaps. THE BREAKING POINT is the story of the erection of just such a barrier of forgetfulness and its results upon a group of people who are involved in a tragedy not of their own making. This new novel combines the charm of THE AMAZING INTERLUDE with the mystery and drama of THE BAT. It is a thrilling story that will hold you from the first page to the last.
