committee memberships affecting Pennwivania Representatives.

It is also probable that the committee assignments of Senators Pepper and
Reed may be rearranged after March.
Each hopes to get on at least one of
the major committees of the Senate and
there is a fair prospect that their ambitions will be gratified, at least in
part.

Senators May Be Advanced

They have no hope of winning chairmanships, however, except through the operation of the seniority system, under which only legislative veterans that no sitions of power.

Senator Pepper, who is now a member of the Naval Affairs and Banking and Currency Committees, would prefer service on Foreign Relations or the Judiciary Committee, for which ho is better equipped by training, taste and temperament. There will be three vacancies on the Foreign Relations Committee, due to the retirement of Senators

and Currency Committees, would prefer service on Foreign Relations or the Judiciary Committee, for which he is better equipped by training, taste and temperament. There will be three vacancies on the Foreign Relations Committee, due to the retirement of Senators McCumber, New and Kellogg. All Remains of the Judiciary Committee were re-elected, though some of the may be shifted about in the rearrangement of committee assignments the next Congress, leaving vacancies there also. That Senator Pepper will offered a piace on one or the other appears almost assured.

Senator Reed's preference is for the same committees, although he would like to retain his present membership on the Military Affairs Committee. He may also seek a place on the Finance mittee which the late Senator Pen rose dominated as chairman in the clossing years of his life. With three vacancies in sight on the Foreign Relations Committee, and three on the finance in sight on the Foreign Relations Committee, and three on the finance in sight on the Foreign Relations Committee, and three on the finance committee, and three on the fin Henresentative Guy E. Campbell, of Allegheny County, would like a place of ther on appropriations or ways and means. Representative Henry W. Watson, of Langhorne, at present is the only Pennsylvanian on the latter committee, which initiates all tarificand revenue legislation.

Representative Clyde Kelly, of Allegheny County, is a candidate for assignment to the Rules Committee, of which he was formerly a member. It was said today that Representative John M. Morin, of Pittsburgh, had been offered a place on this committee, which exercises autocratic control over certain classes of legislation in the House. He is now one of the active members of the Military Affairs Committee, and three on the Finance of Senators Recules is significant to the committee of the ment of Republicans Benjamin K.

Watchman Burned to Ashes in Allentown Flames-\$350,000

Inter.

The fire disclosed the presence in Allentown of the Ku Kluz Klan and revealed that they had occupied one of the several lodge rooms in the building as bendquarters. Partially burned robes of the klansmen were found among the ruins of the building.

How long should a battery last?

Under the same conditions and with the same care. is there a difference in the length of service you will get from different makes of batteries?

There is. And you have a right to expect longer life from an Exide. Motorists who have used several kinds of batteries will tell you the Exide has unique lasting power. We receive numerous letters telling us of Exides in service many years and still doing their unflinching duty.

It was not a paper "guarantee" that gave Exide its title of the long-life battery. This reputation has been earned by actual performance ever since cars used batteries-and the first successful battery to go in a car was the Exide.

The difference in life of an Exide makes it a real economy for you, just as its dependable power makes it a real satisfaction. The nearest Exide Service Station will gladly show you how rugged strength has been built into the Exide made for your car.

The Instrument of the Immortals

Steinway Grands are made in five sizes, beginning with Miniature Grand, in mahogany case (5ft.7in), at \$1375. Steinway grand-toned uprights are made in three sizes, beginning with Style V (4 ft. 1 in.), in mahogany case, at \$875.

Any new Steinway will be sold on time: one tenth cash, balance in two years by monthly payments. Serviceable used pianos will be accepted in trade

Steinway pianos are sold in Philadelphia only by N. Stetson & Co. at 1111 Chestnut Street

The Ever-New Steinway

However long a Steinway p'ano may have been in use, always it has fresh wonders of tone beauty to reveal, much as a fine diamond blazes anew in every different phase of light its facets encounter. Steinway tone quality never grows old, or dull, or indifferent. A new Steinway is unapproached in all the artistic endeavor of any other musical instrument maker. A little later it will seem even more beautiful--and this beauty will continue, year to year, and reach the fullness of its owner's appreciation long after other instruments have fallen into disuse, or grown unmusical and distasteful.

This fine quality of the Steinway piano is the result of scientific design minutely developed through highly skilled mechanical work. directed by long experience. Many times the best procurable materials have been assembled by other makers, calipered to precise dimensions, yet with no approach to the real Steinway tone. The secret of this Steinway quality remains inaccessible to all other makers. You may come here, at IIII Chestnut St., and read it in the Steinway Miniature Grand written as broadly and freely as it is found in the big Steinway grands - and in the little Steinway uprights you may enjoy the same poetry of tone, luxury of touch. appealing beauty of case design and finish ever new, although unchanging.
