Mrs. Wilson Makes Vegetable Salads

Spicy Dressings Change Taste of Ones You Know Already and Add Zest to Those She Tells Of

By MRS. M. A. WILSON
Copyright, 1922, by Mrs. M. A. Wilson. All rights reserved

THE child's savings bank, the soup pot and the salad bowl should be the receptacles of the economies to the household. The shiftless housewife thinks it too much trouble to utilize small leftovers, yet if properly combined with good salad dressing and attractively arranged these will often help to piece out an indifferent meal.

Plan to utilize all left-over vegetables from the day before in the form of small salads served with the meat course, or in vegetable cocktail or as an appetizer at the beginning of a meal.

I have here two new salad dressings which are well worth trying.

Lady Morris Salad Dressing

Place in saucepan,
One-half cup of water,
Three-quarters cup of vinegar,
Two level tablespoons of cornstarch,
Stir to dissolve the starch and bring to boiling point, cook for three minutes, then add the yolk of one egg.
One teaspoon of salt,
One-half teaspoon of white pepper,
One-half teaspoon of paprika,
One-half teaspoon of mustard,
One tablespoon of sugar.
Beat hard to blend and then add
Three-quarters cup of mayonnaise,
One tablespoon of grated onion,
Two tablespoons of finely minced parsley,
One-quarter cup of finely chopped capers.
Blend well, and chill, and add
Three-quarters cup of sour cream, whipped stiff.
This dressing is splendid on vegetable salads, for cold slaw, and plain lettuce, on cucumbers, and sliced tomatoes.

Spanish Mayonnaise

Place in soup plate the yolk of one hard-boiled egg rubbed through a fine sieve,
Yolk of one raw egg,
One-half teaspoon of mustard,
One-quarter teaspoon of paprika,
Two teaspoons of lemon juice.
Blend and whip in one cup of good salad oil, very slowly, adding, as the dressing thickens up, the entire juice of one large lemon; now add
One-quarter clove of garlic, minced fine,
One onion, grated,
Tiny pinch of allspice,
One-half teaspoon of white pepper,
Two teaspoons of sugar,
Three tablespoons of finely minced olives,
Four tablespoons of finely minced pimentoes,
Six tablespoons of finely minced capers.
Mix well and use on plain lettuce, meat and fish salads.
This dressing is delicious when one cup of sour cream whipped stiff is added.

Watteau Asparagus Salad

Place chilled asparagus on chilled crisp heart leaves of lettuce, and sprinkle the asparagus with
Finely minced onion,
Finely minced green pepper,
Finely minced capers.
Now lay over the asparagus thin slices of hard-boiled egg and serve with the Spanish mayonnaise.

Lima Bean Salad

Wash one cup of dried lima beans and soak overnight in plenty of cold water; in morning cook until tender, drain, chill.
Place the lima beans in mixing bowl and add
One-half cup of finely chopped parsley,
Two green peppers, chopped fine,
One-quarter cup of finely chopped onions,
One-half cup of capers,
One-quarter pound of finely minced bacon,
Nicely browned, toss to blend, and turn in nests of lettuce and serve with the Lady Morris salad dressing.

Dutch Salad

Left-over cold cooked Brussels sprouts may be used for this salad. Place in mixing bowl
One cup of cold cooked Brussels sprouts,
One green pepper, minced fine,
Two medium-size onions, minced fine,
One-quarter cup of finely minced parsley,
One-half cup of capers,
One-quarter head of lettuce, shredded fine.
Blend and season, and add one cup of the Spanish salad dressing, thinned with three tablespoons of vinegar. Serve in crisp nests of lettuce.

Belgian Potato Salad

Peel and cut in thin slices seven medium-size potatoes, place in the salad bowl and add
One-quarter cup of finely chopped onions,
One cup of celery, cut in tiny pieces,
Four tablespoons of finely chopped parsley,
One green pepper, chopped fine,
One-half cup of capers,
One-quarter pound of salt pork, cut in small dice and nicely browned in skillet.
Toss to blend and then add
One cup of Spanish salad dressing,
Four tablespoons of cider vinegar,
And toss well to blend. Serve in crisp nests of lettuce.

Vegetable Salad

Place in salad bowl
One-quarter head of lettuce, chopped fine,
One-half cup of canned green peas,
Two carrots, cut in dice and cooked until tender,
Two turnips, cut in dice and cooked until tender,
Three onions, minced fine,
One-half cup of capers,
One green pepper, minced fine,
One-half pound of salt pork, minced fine.
And brown nicely in the skillet. Toss to blend and serve with the Spanish salad dressing.
All the above salads are new and have just come to me from across the sea, my friend telling me that since the boys left from over there folks are just wild about salads, and the above are the most popular.

Court Clerk Operated Upon

Enoch L. Johnson, of Atlantic City, clerk of the New Jersey Supreme Court and the Republican organization of Atlantic County, was operated upon yesterday at the Presbyterian Hospital. It was announced at the hospital that the operation, which was performed by Dr. B. A. Thomas, assisted by Dr. Edward Porteous, of Atlantic City, Mr. Johnson's personal physician, had been successful and that Mr. Johnson was resting easily.

Can You Tell?

By R. J. and A. W. Bodmer

Where Macaroni Comes From?

Macaroni, which looks so much like the stalk of some growing plant, is not really a plant at all. It comes from a plant, however, and from one that originally grew only in Italy. Macaroni is made from wheat.

It originated in Italy, because it was there that the wheat of this peculiar nature was found, but it has now been successfully introduced into other countries, and is grown in large quantities in the United States. This wheat contains a large percentage of gluten, that part of the grain of wheat which contains nitrogeneous elements. These elements, darker in color than the remainder of the wheat grain, are valuable in muscle building. Macaroni is an important food of highly nutritious value, and very healthful. For a great many years, during which it was exported exclusively from Italy, it was made by a laborious hand process, but today it is manufactured in many countries on a large scale.

There is no difference in the dough mixtures of macaroni, spaghetti, vermicelli and other macaroni wheat products. Vermicelli is made in fine threads, spaghetti is somewhat larger than vermicelli and is made in thin, solid sticks, or in the form of small hollow pipes. Macaroni is made in the form of a hollow tube, and is the largest product in size. The other product, not so well known, is called pasta, and is made in the form of lozenges, stars, discs, etc., which are cut out of the thin sheet of dough in a way similar to the stamping out of small cakes. Uncooked macaroni has the following composition: water ten and three tenths per cent, protein, thirteen and four-tenths per cent; fat, nine-tenths per cent; carbohydrates seventy-four and four-tenths per cent. The food value is six hundred and sixty-five calories per pound.

READING CLOCK AGAIN

Familiar Timepiece to Be Restored to Front of Terminal

The old Reading Terminal clock, put out of commission Friday, September 22, by a truck, is going to come back.

Railroad officials say they will have the timepiece, with a service record of thirty years, in operation as soon as the imported opal glass used for the dial can be obtained and a duplicate of the pedestal made.

The clock was erected in 1892 at Broad and Chestnut streets at a cost of $900. There it remained until 1897, when it was moved to the curb in front of the Reading Terminal, near the present entrance to the subway.
