May Christie's Hat Is Off to the American Flapper

This is the first of a series of articles by this clever, charming English authoress on her impressions of American womanhood and customs. Miss Christic was a member of the staff of the Evening Public Ledger several years ago, and is well known to Philadelphia

It's a Wise Wife Who Doesn't Say LOVE NOTS Anything More About It Just Then By KAY KEAN If Men But Knew!

When one woman meets another and tells of her engagement the first impul-

sive remark is:

"Oh! Let's see your diamond!"
Never—"Who is the man?"
When a woman is newly married she invites her friends to—
"Come around and see my apartment!" Never—"Come around and meet my husband!"
When two women are talking of the marriage of a third:

"Has he any money?" Never—"Has he any brains?"
When a girl writes to her chum to say that she is engaged to an "Adonis" the question is: "Where did you meet him?" Never—"Is he as good as he looks?"

She Goes Ahead and Does What Was in Her Mind and Tells

Ifer Husband About It Afterward

THERE might be something to the elation a wife feels over giving her husband a piece of her mind, or map-ing at him, or getting the last word on him, if she had any luck with it.

They had been talking, she and her dull, siekening grouch which lasts for dull, siekening grouch which last

him?" Never—"Is he as good as he looks?"

When the newly widowed writes to tell of her bereavement the news is greeted by the thought—"Well: I wonder how long before she will try it again." Never—"Poor man! I wonder what killed him!"

And so she slipped the apple into the dish, without saying anything.

She may not have the very doubte.

wonder how long before she will try it again: Never—"Poor man! I wonder what killed him?"

And so she slipped the apple into the dish, without saying anything.

And yet—men are conceited!

Can You Tell?

By R. J. and A. W. Bodmer

What Happens When Hair Turns Gray
To understand the answer to this question we must learn what gives the hair its natural color. Every hair consists of a shaft, which we can see, and the root, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is so for a shaft, which we cannot see. The last poor is shaft a but real.

And so she slipped the apple into the dish, without saying anything.

A few nights later, after dinner, he clever retort, or subside at her final word, but she gets the result which she is after. and the word, but she gets the result which she is after. and the view of seeing him wince at her clever retort, or subside at her final word, but she gets the result which she is after. and the word, but she gets the result which she is after. and the view ord, but she gets the result which she is after. and the view ord, but she gets the result which she is after. and the view ord, but she gets the result which she is after. and the view ord, but she gets the result word, but she hair its natural color. Every hair consists of a shaft, which we can see, and the root, which we cannot see. The outside covering the shaft has overlapping scales which can be seen under the dining room to eat the apple. She strolled after him.

But she didn't say anything. a microscope. The next layer is a fibrous layer which also contains cororing matter. In addition some bairs, fibrous layer which also contains corfibrous layer which also contains corbe discovered its horrible secret.

It was one of those "unreal-looking." artificial things!

But his wife didn't say anything:

But his wife didn't say anything:

It's a pretty wise plan outside of dulla. The coloring of the hair is generally due to the kind and amount of pigment found in the fibrous layer. Hair without the medulla is light. If there erally due to the kind and amount of pigment found in the fibrous layer. Hair without the medulla is light. If there are also air bubbles in the fibrous layer the hair is lighter. If the medulla is present the hair is darker. The medulla may also contain air bubbles.

Oh, the dismal failures of wives who but when these are not present the hair thing all the time!

That's the reason she's successful. She doesn't say anything. Oh, the dismal failures of wives who but when these are not present the hair thing all the time! but when these are not present the hair thing all the time!

The folly of the v

to age, however. In many cases hair turns gray early in life, through heredity, or through great or sudden worry or fright. In all these cases, however, the cause is the same—the failure of the pigment production and the in-crease of air bubbles. Many instances are known in which

the hair has turned completely white in a single night. Records are also frequent in which the change takes place in an hour or less. In some in-stances all the hairs on the body are to the in medium length bow and ends in the middle of the back.

Those of organdic are finished in the same way at the waist line, and one sees them cut in a great variety of shapes. Straight or rounding at the cerners, heart shape, in three fittle gores—these set together with Valencian models and the gores—cut in points or rounding at the lower edge; in fact, one can hardly make a his take in cutting any desired way.

This may have a fifte way know what happens when a lair loss it may be set to may be set of it may be should have the same effect as old age, asing the cross stitch, and one or several colors.

If one wishes, lace and organdic straps may be set on to go over each should have the same effect as old age, asing the cross stitch, and one or several colors.

If one wishes, lace and organdic taked to it a tiny bundle of muscles straps may be set on to go over each shoulder fished to it a tiny bundle of muscles which cause the bair to "stand on end" at times of great fright.

Tomorrow—When Was the First cent Made? affected in a similar manner, and while

The folly of the verbal come-back! As a The fallacy of the struggle for the wants. As a general rule she gets what she As age approaches the hair becomes gray. This occurs because the system has lost its power to replenish the coloring matter and the number of air bubbles in the hair is increased. This loss of coloring matter is not continea to age, however. In many cases hair to age, however, in many cases hair to age, however, in many cases hair to age, however, in many cases hair the follow.

The folly of the verbal come-back! The full actions of the struggle for the wants.

What troubles can be laid at their don't mind her getting it, even when you haven't approved of the idea in the first place.

Yes, it's true, we do like to be fooled. Yes, it's true, we do like to be fooled. To no avail, too.

IT WASN'T until he reached out and picked up that beautiful apple that he discovered its horrible secret.

It was one of those "unreal-looking," artificial things!

It was other includes the picked up that beautiful apple that have to show me!" turned around slightly to suit a lady's wishes.

But it's so much more subtle than the other method of getting her own
