## PAPER MAKERS TO THE NATIONS

ENGLISH houses are [or were] very proud of a royal warrant-"Purveyors to His Majesty the King." The Crane Mills have a higher title. They are paper makers to the nations, not by warrant, but by making a bond paper so good that it simply had to be used in engraving government bonds, for various foreign states. Right here in the United States is made paper for the oldest nation in the world, for China, which, among other things, invented paper centuries before Columbus. The bond paper of eighteen nations is Crane's.
