DIE AS POLICE FIGHT MEXICO MOB

Storming Municipal Building Is Met by Fusillade of Bullets MAIN PLAZA IS SHAMBLES

By Associated Press Mexico City, Dec. 1.—Federal troops stormed a badly battered municipal building today while the city counted the casualties of a pitched battle between the police and a mob which attempted to storm the building last night. The death list as a result of the fighting stood at seventeen early today, while eighteen persons are known to have been seriously injured and thirty-three slightly hurt. It was thought that a closer check might reveal further casualties.

The list of those less seriously injured was augmented early this morning when a group of manifestos at the municipal demonstration before the residence of Alonzo Romero, president of the City Council, clashed with mounted police, who fired several rounds. Eight injured persons were taken into the Romero home for treatment.

The city, after a night of wild excitement, found its main plaza before the municipal building a shambles of broken glass, timbers and stone—evidence of the anger of the mob which forced its way into the building half an hour after the police rifles had taken their toll.

The trouble, which lasted for more than six hours, started when a crowd marched to the City Hall to protest against the Aldermen who are held responsible for conditions leading to the water famine. The demonstration was followed by the labor unions that organized an "ice strike" protest at several hundred persons paraded the downtown streets before proceeding to the hall to voice their adverse sentiments against the city government.

These protesters were re-enforced along the route and when the Municipal Building was reached the crowd numbered more than 2000 persons. Mob Hurts Stones Telling invests against the Aldermen, the mob gave emphasis to its words by hurling stones and other missiles. When one leader suggested that the hall be entered, the demonstrators made a concerted rush forward.

The mob, however, did not check its course. When it became apparent that the mob would enter the building despite the police, the latter aimed their rifles point blank and fired with deadly effect. Stunned by the bullets the demonstrators retired, carrying with them their dead and injured.

But in half an hour they returned and several of their number breaking windows, entered the hall and began to set fire to its contents. Valuable documents, some of which dated back several centuries, were tossed into the streets and the city records were given to the winds.

By this time the Federal troops had arrived, but the intruders were not deterred before the building had been fired in many places and the furniture wrecked. A line of hose, which the fire department was able to bring into play, despite the water shortage, was successful in holding back the crowds outside.

Cordon of Soldiers Several sporadic attempts to continue the demonstration were made in the succeeding hours, but when the demonstrators returned to the attack they found a cordon of several hundred soldiers about the building and contented themselves with jeering and booing officials in general, including some of the members of the Federal Government.

Thus baffled in their attempts to re-enter the hall several small groups of citizens unchained through the streets committing minor depredations. They looted on all the newspaper offices and boot and sold before the residences of the city officials.

The Chamber of Deputies adjourned when it received news of the preliminary encounter in the main plaza and a heavy guard was thrown around the building. The residences of all public officials were under the protection of Federal troops throughout the night.

It was said today that the city election, scheduled for next Sunday, would be postponed in view of last night's occurrence, and the suggestion was made in many quarters that the Federal Government take over the city administration temporarily.
