To "L. R."

Several Words to the Wiee To "Willy," by courtesy of Cynthia. You know, Willy, they say a word to the wise is sufficient, but it depends upon the kind of word to my method of thinking; therefore I'll give you several. If you take a girl out, give her a good time, act cordial and decent, come back and then don't ask for a kiss or act "mushy"; you will have made her like you and respect you 100 per cent more. Would you like any chap to treat your sister (if you have one) as Sparrow treats his girls? Remember that and don't be a Sparrow the second. I suppose you wonder if I've ever been asked for a kiss? Of course I have! Yes, siree! A look or a word sliences them and then I know that I have either made a good friend or lost a false one. A For, unlike in England, every man here is a potential millionaire. Our hide-bound class distinction, where most a good friend or lost a false one. A girl that throws kisses around as if they were autumn leaves will never make a good friend. My ideas are not puritanical. I have them because I have and know many girl friends. Still and withal I am A. FLAPPER.

Writes to "Willy" Dear Cynthia—I hope I will not be taking up too much of your valued space, but I just feel as though I must show some of the boys who write to you that there really are good girls in this

"Willy," I have never written to this wonderful column, but your letter gave me a good start. You certainly do sound reasonable. I don't blame you for thinking as you do after reading "sparrow-minded. Take it from me, a good girl will enjoy your company twice, as much if you will only bid her good night after leaving, and not think of her her sweetheart. You don't want to marry a girl to whom a kiss is a mere trifle. Some day you will find the right girl, and you will see to for yourself that her kisses are valued and not scattered. A sensible person will at least think of her health. If nothing else, and not kiss every Tom. Dick and Harry, so that's a good way to tell the girl who is sensible.

"Willy," answer and give me an idea whether this letter changed your mind or not.

which they played.

How they had time to play is a mystery, for the writer says that among other things their duties consisted of gathering wild blackberries, huckleberries, raspberries, plums, grapes, hick-ory nuts, walnuts, beechnuts, butternuts and edible roots, of tracking and bringing home the cows strayed in the deep forest, of chopping wood and of fishing.

fishing.

They certainly didn't have much time to spend loafing about at the corner store—even if there had been a corner for them to loaf about.

Somehow, though, they managed to get in some play; boysenlways do.

And they played some picturesque, rough games, many of them adapted from the customs and habits of their Indian neighbors.

About the only modern game which was known at that time also was lhcrosse,

crosse,

The Indians played this, too, and allowed the girls to play with them when they were just playing for fun.

But, and this is the significant feature, the girls were permitted to pick up the ball and run with it, a privilege which was forbidden to the boys.

On the other hand, however, the boys were allowed to catch and shake the girls to make them drop the ball!
