WOOD RESIGNATION SEEN AS NOT FINAL

Penn Alumni Regard His Action as Courtesy to Make Other Appointment if Need Be

MAY GRANT NEW LEAVE

Alumni of the University of Pennsylvania refuse to accept General Leonard Wood's resignation as the new head of that institution as final, and it is probable the trustees will ask him to reconsider it, at the same time extending his leave of absence.

His recent eulogium of resignation, based upon the delicate legislative situation in the Philippine Islands, where he is Governor General, surprised and somewhat unsettled the alumni, who are anxious to have General Wood, above all others, become head of Penn.

Though none of the members of the Board of Trustees have committed themselves to their course of action, several have indicated that they do not think the resignation changed the situation and believe it was sent them as a matter of courtesy, to leave them free to act. They had not expected General Wood before March 1, and apparently every one is willing to give him any additional time necessary to complete his work in the islands.

Horace Mather Lippincott, secretary of the General Alumni Society and editor of the Alumni Register, said: "There has been no change in the information originally given to us when John W. Ziegler returned from the Philippines after seeing General Wood."

"At that time it was stated quite clearly that the general could not return until after the adjournment of the Legislature, probably some time in the spring. His leave of absence expires January 1."

"In my opinion he has merely given the trustees the opportunity to act free of any obligation to him. It was probably, in his opinion, the only thing to do in the circumstances. Most of us expect that the trustees will ask him to reconsider his resignation, and will grant a renewal of the leave of absence."

Mr. Ziegler pointed out that in both cables to this country General Wood indicated his intention of leaving the islands after the Legislature adjourned, so that he had not made any change in his plans.

"In my opinion," he said, "General Wood recognized that the situation here was difficult, and he merely opened the way for any action the trustees might care to take."

Inquiry among members of the board and leaders of the alumni fails to reveal that any substitute for the post has been suggested.

"There is no idea of such a thing," said Mr. Lippincott. Mr. Ziegler also said he had not heard any such suggestions.

"There has been no opportunity for the alumni to form an opinion along that line," he said. "It is hardly likely that the matter would be considered until it was known definitely that General Wood was not coming back, and that is not the present impression."

TWO HUSBANDS LEAD WIFE TO TRY SUICIDE

Men Quarrel Over the Right to Claim Woman

Duluth, Dec. 11.—While two men, each claiming to be her husband, were disputing as to which had the right to her as a wife, Mrs. A. M. Johnson, twenty-eight, yesterday afternoon left her home and made her way to a hospital and shot herself. Physicians at the hospital hold little hope for recovery.

A. M. Johnson, of Duluth, and Charles Panglier, of Chisholm, were the two men engaged in the controversy over the woman, the police say. Panglier claimed he married her three years ago. Mrs. Johnson is said to have divided her time between the two men since last June, when she married Johnson. Panglier said he discovered some letters and a photograph of Johnson and followed him to Duluth.
