Americanize Your Credits

Credit Insurance, as issued by the American Company, is a broad service which brings to manufacturers and wholesalers the following vital benefits:

1-It reduces the credit waste.

2-It affords an accurate basis for costs.

3-It affords superior collection facilities.

4-It increases efficiency.

5-It promotes prosperity by stabilizing business.

6-It distributes the burden of loss and affords an independent reserve fund over and above the capital employed.

The American Credit-Indemnity Company has successfully rendered such service for the past thirty years. In that time we have not only paid over eleven million dollars to our policyholders, but have prevented countless losses as well.

Let our local representatives tell you about our Policies, as well as help you with your particular credit problems.
