To help you solve your Heating Problems

As a relief from the shortage of anthracite coal, householders are being urged to consider other fuels. Kerosene. There is a plentiful supply. It is economical. It is convenient to use. A combination of Atlantic Raylight Oil—the high quality kerosene—and one or more Perfection Oil Heaters will give you heat that is clean, sootless, odorless; heat that can be easily transferred from room to room without waste.

One gallon Atlantic Raylight Oil will keep this Perfection Oil Heater going ten hours. There is no better oil heater made!
