The undersigned proposes to publi-h by orde a large and accurate Popographical May of Centre county, from thorough and careful surveys, by H. F. Walling, Civil Engineer.

Every road has been carefully surveyed by course and distance, and the location noted of all the public roads, Dwellings, Chur hes, Post Offices, Hotels, Stores, School Houses, Factories, Mills. Shops, Mountains, Ponds Streams &c.—The names of Property Holders generally—carefully including those who order the work—will be engraved upon the Map, showing the exact location of each.

Extra Maps of the Principal Villages will be

Extra Mans of the Principal Villages will be engraved upon the margin of the Map; also a Table of Distances, showing the number of miles from ach Post office to every other throughout the county, together with the latest statistical information. An ornamental border will surround the Man.

formation. An ornamental border will surround the Map

The Map will be engraved by the m st skillful Artists in the country, handsomely colored and monnted, and will be detivered to those who order for Five dollars per copy.

We are now actively engaged in forwarding the work, and shall endeavor to give every property holder an opportunity of ordering a copy, and also of examining the work before its final completion; in order to make it entirely satisfactory as to accuracy, &c.

pletion; in order to make it entirely satisfactory as to accuracy, &c.

The map will contain all the information usually found in Town maps, for each of the towrs in the county, and it is obvious that the most liberal patronage is needed to sustain us in producing a work of so great magnitude and expeuse. As it is evidently of such practical utility and into est to business men and citizens generally, presenting so minute and distinct a representation of the county, that even the child may recally equire a correct idea of each town, village, &c, and their true directions, distances from each other, we confidently solicit and expect the hearty co-operation of the intelligent and enterprising citizens of Course county.

We the undersigned, having examined the recent surveys and drafts of Centre county, also Topographical Maps of other counties, pulished by Mr. S. D. We hope the citizens of this county will interest themselves sufficiently in this enterprise, so that the Publisher may engrave upon the margin of the map, extra plans of the villages in the county upon an enlarged scale.
Considering the expense of such a survey of the whole county, and being entirely a local work we think it is offered to the citizens on very reasonable terms.

DR MOTT'S CHALYBEATE RATIVE PILLS & IRON

An apperient and Stomachic preparation of IRON purified of Oxygen and Carbon by cornustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and porscribed in their practice.

The experience of thousands daily proves that no preparatien of Iron can be compared with it. Impurities of the blood, depression of vital energiance and otherwise sighty complexion indigy, pale and otherwise sickly complexion indi-cate its necessity in almost every conseivable

cate its necessity in almost every consoivable case.

Innextous in all maindies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emanciation, Dyspepsia, Constipation, Diarrhaa, Dysente. y Incipient consumption, Cerofulous Tuberculosis, Salt likeum, Mismenstruation, Whites, Chicorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fexers, Pimples on the Face, &c.

In cases of General Debility, whother the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic empirials, one trial of this restorative has proved successful to an extent which a description nor written attests ion would render credible. Invalids so long bed-ridden as to have become fergotten in their own neighborh ods, have suddenly re appeared in the husy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated satints of apparent a massmos, sanguineous exhaustion, critical changes, and that constitued in a convous and dyspeptic aversion to air and ex-reize for which the physician has no pame.

In Negrous experiences of all kinds, and for physician has no name.

hysician has no name.

In Nervous appearance of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must neces saily be salutary, for, at like the old exides, it is vigorously tonic, without being exerting and overheating; and gently, teculerly apprient, even in the most obstincte exess of costiveness without ever being a gastric purgative, or inflating a disagreeable

a gastric purgative, or infleating a disagreeable sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific acction, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causas, a single box of these Chalybeate Pills has often sat ficed for the most habitual cases, including thattendent Costineness.

In unchecked Diarrheca, even when advanced to Dysratrry, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the iceal pains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicate Incipient Consumption, this remody has alleved the alarm of friends and physicians, in several very gratifying and interesting instances.

instances.

In Scropulous Tuberculous, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of icdine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative the cases peculiarly affecting them.

This machine is far superior to anything of the kind ever introduced into this county. It is simple of construction, and therefore durable. It saves labor, as any ordinary women can do a days washing, on this machine in less than three hours. No family should be without it. A FEW THINGS THAT PERPLEX US.

"Vanity Fair" says that the present epidemie of sore threats is owing to Leap Year giving us such a Forward Spring. We would ask whether a Backward Fall is not as equally injurious to the health?

If a "Cutter" that brings in a revenue like "Powers," the celebrated pantaloon cutter, at Mr. Charles Stokes' Ciothing Store could not be properly called a revenue cutter?

Would it not be proper for a gentleman whe had purchased a coat at the "One Price" Clothing Store of Mr. Charles Stokes, to speak of it as his one price-less coat.
