A WORD TO THE PUBLIC. — Whereas the Spring Creek Woolen Manufactory, during the present season, has been patronized to the full extent of its producing abilities, and in anticipation of a its producing abilities, and in anticipation of a still greater patronage the coming season, the proprietors have been induced to add more new machinery of the very latest improvements. This machinery will facilitate our operations very much and at the same time will improve the real value of out cloths at least ten per cent, while our prices shall remain as heretofore; it being our ambition to build up a reputation for this establishment, that will add all things thereto. From the facts here n set forth we confidently believe that wool growers and all other good people can now deal with us very much to their own advantage.—While there are many things alike in business of deal with us very much to their own auvanesses.

While there are many things alike in business of
this kind, there is also much that is different. A
word to the wise is sufficient. Give us a call and
satisfy yourselves that this is the place the people get the worth of their money.
