Local Department.

BELLEFONTE, MAR. 21, 1861.

Secession.

Secession appears to be the order of the day. Since the secession of the Southern States we have daily accounts of secession on smaller scales. We have seen notices to the effect that cities desired to secede and become seperate "Governments," and notices of counties desiring to secede from States, and townships from counties, and in fact we saw one letter published by an individual in which he filed his intention to secede from the Government and make his plantation a separate institution. But the latest act of this kind, of which we have any knowledge, is in progress in our county at the present time. The townships on the other side of the mountain having made known their desires to become a separate county, in the shape of a petition to the Pennsylvania Legislature. The *Berichter* of the 15th inst., has the following on the subject:

New County.

"Below we print a petition which has been put in cirulation for a new county. It may be well to state in connection, the reasons which are given for this movement. There seems to be a general complaint among the honest farmers of this side of the county, of a long continued system of impositions which have been practiced by a set of managers on the other side, and particularly in Bellefonte, by which the taxpayers of the county have always been subjected to onorous taxation, and that this evil is fearfully on the increase. A Court House was built but a few years ago, upon which thousands of dollars, it is charged, have been squandered, and every year, as will be seen by the published official statements, the taxpayers are called upon to pay enormous bills for repairs at this new building! Looking over the Statement just published for the last year, we find a total for repairs and other extras of $953,13½ among which

D. K. Tate, for repairing Court House roof,		$6,87
Jno. Yeager,	" "	226,73
W. S. Wolf, for Tinning	" "	148,96
Shingles, for	" "	36,80

A pretty little bill of repairs to foot on a building which has just lately been completed! We think the contractor should be held responsible for all repairs made inside of ten years after the completion of the building.—The county is groaning under a heavy debt, on account of the new Court House, and yet they cry for an expensive jail. No man on this side believes that should this work be commenced, it will be completed under $80,000. Then after this, the people are very apprehensive of having a poor-house saddled upon them, which, with buildings and farm, would cost at least $100,000, so that they look forward to be oppressed in a few years, with a debt of $200,000, should they be so unfortunate as to remain part and parcel of Centre county. This idea is enough to make every tax-payer on this side, see the advantages of speedy "secession." There is a unanimity of feeling in favor of a new county, in all the districts mentioned in the petition; and the people feel confident that we can erect all the necessary buildings, for less money than the above estimated cost of the new jail.

A name for the new county has not yet been determined upon, and every one is free to make suggestions—we would propose either *Penn* or *Jackson*.

To the Honorable, the Senate and House of Representatives of the Commonwealth of Pennsylvania, in general Assembly met:—

The Petition of the undersigned citizens of Centre county, State of Pennsylvania, respectfully represents: That your petitioners petition for the erection of a New County, to be called and to contain the following territory, to wit: All the territory within boundaries of the Townships of Haines, Miles, Penn, Gregg, Potter, Harris and Ferguson, in Centre county, and lying South and West of Nittany Mountain, subject nevertheless to the provisions of Article XII of the last amendments of the Constitution, requiring a vote of the people thereon. Your peutioners believe that the population of the above named townships comprise about one half of the whole population of Centre county, and residing in those rich and fertile districts, comprising, Brush, Penns, and George's Vallies and the Spruce Creek Settlements, and are justly entitled to be formed and erected in a New County, having more than 400 square miles of territory within its boundaries, and would from a compact County, and when so formed and erected, your petitioners will be relieved from burthensome and onorous taxation, now imposed upon them, and take their stands as one of the confederated counties of the State. And your petitioners will ever pray, &c."

Coal Oil for the Hair.

It is said, with what truth we do not know, that in addition to the other virtues belonging to the coal oil now being pumped in such extraordinary abundance in western Pennsylvania, another virtue has been discovered by a distinguished chemist to be possessed by this mineral oil, which will, in the estimation of many, quite throw the others in the shade. In a word, the oils, just as they are pumped from the bosom of the earth, are said to be a certain cure for baldness; wherever hair has ever grown hair may be made to grow again by its application; where it is getting thin, the oil will strengthen it; where it is turning gray, the oil will renew its youth and bring it back to its fading color. Wigs, toupees and scrathes are forever rendered null, void and of no effect whatever. Nature, in her bounty, has superseded forever all necessity for the artificial and flimsy disguises. The oil is said to renew the hair on simple vegetable principles, by re-invigorating the bulbs beneath the scalp and renewing the energy. Should this discovery prove to be all that is claimed for it, what changes will be wrought in the condition of the human family—long years of venerableness will be taken away, and miracles of youthful vigor will be wro't in its appearance.

Martin Stone, Auctioneer.

During the Spring season many persons in this vicinity intend selling out at Public Sale, and to them it is highly important to secure the services of a competent and experienced Auctioneer. We beg leave to recommend Mr. Martin Stone as the most suitable person to act in this capacity. On the Auctioneer, depends, to a great extent, the price at which an article will be disposed of, and we have the word of those who have tried Mr. Stone, that he will sacrifice no article of goods. He is always ready and always punctual. He may be found, generally, at his cheap store on Allegheny Street.

Our National Airs.

The effect which our good old National Airs have upon the true American citizen, is truly wonderful. It matters not in what clime he may be found, whether upon the snow-clad summits of the Alps, or among his own green mountain tops; whether upon the sterile and sandy deserts of the Old World, or upon the fertile praries of his Native land, the inspiring notes of "Hail Columbia" or "The Star Spangled Banner" stirs up all the patriotism in his soul, and makes him feel proud of his Country, her Liberty and her Institutions. No matter under what circumstances he may be placed, whether favorable or otherwise, the stirring notes of "Yankee Doodle" stirs up his nature, electrifies his frame and puts him in good condition to meet either friend or foe. Under the influence of the music of their national airs Americans have fought to the mouth of the cannon and the point of the bayonet. To these tunes our fathers marched forth to meet and battle with the foes of freedom, when every foot left a track of blood; and to these tunes we their sons will march until death shall stay our footsteps. They were sung by our ancestors long after their struggles for Liberty had ended, and as well might you attempt to move the everlasting hills as to attempt to take their sacred notes from the mouths of their children. So long as our government has a place among the nations of the earth, so long as the American Eagle hovers over our land, so long will the mountain echoes of America resound with the notes of our National airs.

At the present time when our nation is rent in twain, when brother is raising his hand against brother, and traitors are loudly clamoring, these tunes have an untold influence. The bitterest feelings have been smoothered and the loudest quarrelings silenced by the timely discoursing of one of these tunes. And when upon certain occasions these airs were 'hissed' by traitors and fools, the highest degree of excitement prevailed. There are, in the Union a few men, and thank God they are few, who would, if they had the power, banish this music from our midst; but their words and writings meet with the just indignation of freemen. An editor in Motile tries his spite on "Yankee Doodle" by calling it a "musical abomination" and saying that he never heard it but with indignation. He says "It was ever a cold bath to every throb of patriotism, ever made our flesh creep and our soul sink into the souls of our boots—not on account of its name, but because it is a mean, sneaking, be-littling, contemptible tune." Mark that man *Traitor!* Benedict Arnold would have blushed at such language. We doubt very much whether an emotion of patriotism ever throbbed in that heart, and we believe that the habitation of his soul *is* in close proximity with the soles of his boots. Let such men write against it and let Southern traitors hiss it when they wish; but Yankee boys will continue to whistle Yankee Doodle, and if they wage war against us we will get out our drums and fifes ann hunt up all the old muskets which they have not stolen from us, and we will whip them effectually to that same old tune.

You Must Stop It.

We print a paper, and as printers, we have certain duties that the law requires us to perform. Among other things we are required to publish a notice of all persons who sell liquor, notifying the public that they have taken out license.—Now there are about *thirty* places in this town where whiskey, gin and brandy are dealt out, not one half of which are licensed, and if returned would be liable to pay a heavy fine. We get one dollar for every license notice we publish, and in place of getting thirty notices and thirty dollars we do not get more than ten notices, and not that many dollars. We are bound that in the future we will attend to our part of the business, and on and after the first day of April next, any person we know to sell liquor without license will be promptly returned and noticed in this paper. Bellefonte, however, is not the only place where liquor is vended against the law; every little town in the county has four or five doggeries where the vile stuff is sold, and not one of them are licensed to sell. All these places will be watched by our friends, and let he who dares, sell a drop and we will return him forthwith. We have laid a duty of one dollar on every liquor dealer in the county, and we are bound to collect our revenue. Remember we are in favor of compulsion, and if you don't pay willingly we will coerce you with the law.

Notice,

Soon the 1st of April will be here, and many of our subscribers, will doubtless change the place of residence, and it is necessary for us to be notified of the change, at the proper time, so that we may be able to send them our paper. As it would save a postage stamp and the trouble of remitting another letter, we suggest that those who notify us of their change of residence will remit us the amount of their indebtedness, in the same letter.

Pleasant Gap Store.

While at Pleasant Gap the other day we called at the store of Mr. Campbell. We examined many of his goods, and so far as we may be allowed to judge, we think his stock far superior to that genenally found in country stores. We also found that his prices were very low. Mr. Campbell is very polite and obliging, and customers will find it pleasant as well as profitable to deal with him.

Public Sale.

Martin Stone, Auctioneer, has received instructions to sell for Mr. R. D. Cummings, at Port Matilda, on the 25th inst., a large number of horses, cattle, hogs and a number of wagons, buggies, as well as a lot of lumber, and various other articles.

Dentistry.

We wish to call the attention of our readers to the card of Mr. J. D. Wingate.—Application and experience have made Mr. Wingate an efficient member of his profession.

For the Democrat.

Moving.

The time for moving is fast approaching. "Oh, that it was over!" says some weakly better half. It has been asserted that five times moving is equivalent to once burning out. Much time is lost in getting ready to move. Many times the greater part of the household goods are put up at auction, and sold at ruinous rates; because they must go. Money and time are spent in the act of moving. Money and time are sacrificed in fixing up, and replacing that which is destroyed; and then it takes a month or two to find a person's self at home again.—After which, it may be discovered, that this place, too, has its inconveniences, perhaps more than that left. That place which has no inconveniences, has not yet been found. Where can be the propriety of tenants merely changing houses and landlords; the one moving out where the other moves in?—There is something ludicrous in this.

How nice it would be for tenants, who move, to resolve and stick to the resolution, "that this be the last time I move till I can move to my own property, or till I am quite certain that I will be the actual gainer by such an act." There are men who spend as much money for tobacco alone, to say nothing of other superfluities, in from four to six years, as would buy a very comfortable and convenient home. Of course, the amount spent each day seems but a trifle, but at the end of the year it is the same, whether paid out at once, or spent in dribs. Let the credulous try—deposit the money in a safe instead of an unsafe, where it either evaporates in smoke or is expectorated in filthy juice.

Again, how much the tenant's home could be improved, if a little more attention were paid to conveniences; of which the culture of fruit forms an important part. That great luxury, the Peach, may be raised from the seed in from two to four years. How grateful would be many a little Pettie Darling for such a treat, and its culture would cost nothing except the throwing out of the seeds and a little letting alone as the tree grows up.

W.

Mr Thos. J. Taylor.

While in Milesburg a few days ago, we paid a visit to the new picture car of T. J. Taylor, and had the pleasure of examining some of the finest photographs we ever saw. Our attention was particularly called to some photographic views of the Farm School buildings, which were taken by Mr. Taylor on the 22d of February last. This set of pictures consists of five different views of the school buildings, which were taken to Harrisburg to undergo the investigation of a committee appointed to investigate the claims of the school. We never saw anything in the picture line to excel this set of views. Since these pictures were taken he has had orders for fifty-one pictures of the buildings. We saw many other pictures of different kinds that cannot be excelled, if equaled, in the country.

Valentine's Railroad.

The Messrs. Valentine are busily engaged at present in building a Railroad to extend from the terminus of the Bellefonte & Snowshoe Railroad to their iron works above town. The road crosses Spring Creek a short distance above the stone bridge. It also crosses Logan's branch a short distance below the forge. This work is being put through with such energy, that, although commenced but a few weeks ago, will, it is expected, be in running order by the first of May. When finished it will be a great convenience to the Company, as it will enable them to get their coal directly from the mines without change of conveyance.—This Company is doing an extensive business at the present time, with fair prospects of an increase.

Popular Tunes.

During the late political campaign no tune was so eminently popular as Dixie's Land; it was in the mouth of every one, and called for upon all occasions. With the excitement of the campaign however, it has died out to a considerable extent. We understand that another song is very popular in the cities, at the present time, entitled "Bully for us." It has not reached us yet, but we understand it has for its subject the condition of our present National affairs, and has particular reference to Major Andersons conduct. We hope it will come along this way soon.

To Our Friends.

Again we request our friends in the different townships to send us local items. Send us everything—who is married, who dead, who is building a new house or barn, where new churches are being built, accidents,—in short *everything* of interest.—Send us the facts, no matter in how crude a form, and we will cheerfully arrange them for publication. Who will begin?

A Boisterous Row.

A miscellaneous row was kicked up on the corner of Allegheny and Bishop streets, and the result was, that one of the participants, we do not know who, was lodged in limbo. That vicinity is becoming notorious for rowdyism and vulgarity, and is almost nightly the scene of misconduct and debauch. Our officers will do well to keep their eyes upon it.

Bellefonte Academy.

This well known Institution will re-open on the 17th of April, under direction of Prof. A. M. White, who is to well known to require any recommendation at our hands. Mr. Isreal Musser, a young man of decided ability, will act as Assistant teacher. Advertisement in another column.

Dr. John P. Norman.

Our office was brightened up the other day by the radiant smiles of the above named gentleman. He has just finished his course of Lectures at the Medical College, Philadelphia, and returns to his friends a "regular built" Doctor. Success attend him.

Complimentary Suppers.

Our Boalsburg musical friends have been feasting during the past week at a grand rate. On Thursday evening last, Mr. Geo. Musser gave them a splendid supper at his residence near Boalsburg. We are informed quite a number of persons were present beside the Band, and all had a good time generally, music and dancing being kept up until a late hour. On Friday evening Mr. James Johnston gave another supper to the Band, and we are informed it was a magnificent affair.

We have one of the best Bands in the State why don't some of our hospitable citizens give them a supper? Who will?

VERY REDUCED PRICES,

at least from 30 to 50 per cent. cheaper than can be purchased elsewher, to be assured of the above all he demands is a call.

JOHN S. LONBERGER.

Jan. 10, '61.—1y.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Chauning, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and resort to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D,

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

NEW AND SPLENDID STOCK
OF

Ayer's Sarsaparilla.

Great Work on the Horse.

THE HORSE & HIS DISEASES:

BY ROBERT JENNINGS, V. S.,

PROFESSOR OF PATHOLOGY AND OPERATIVE SURGERY IN THE COLLEGE OF PHILADELPHIA, ETC.

WILL TELL You of the Origin, History and distinctive traits of the various breeds of European, Asiatic, African and American Horses, with the physical formation and peculiarities of the animal, and how to ascertain his age by the number and condition of his teeth; illustrated with numerous explanatory engravings.

THE HORSE AND HIS DISEASES

WILL TELL You of Breeding, Breaking, Stabling, Feeding, Grooming, Shoeing, and the general management of the horse, with the best modes of administering medicine, also, how to treat Biting Kicking, Rearing, Shying, Stumbling, Crib Biting, Restlessness, and other vices to which he is subject; with numerous explanatory engravings.

THE HORSE AND HIS DISEASES

WILL TELL You of the causes, symptoms, and Treatment of Strangles, Sore Throat, Distemper, Catarrh, Influenza, Bronchitis, Pneumonia, Pleurisy, Broken Wind, Chronic Cough, Roaring and Whistling, Lampas, Sore Mouth and Ulcers, and Decayed Teeth, with other diseases of the Mouth and Respiratory Organs.

THE HORSE AND HIS DISEASES

WILL TELL You of the causes, symptoms, and Treatment of Worms, Bots, Colic, Strangulation, Stony Concretions, Ruptures, Palsy, Diarrhœa Jaundice, Hepatirrhœa, Bloody Urine, Stones in the Kidneys and Bladder. Inflamation, and other diseases of the Stomach, Bowels, Liver and Urinary Organs.

THE HORSE AND HIS DISEASES

WILL TELL You of the causes, symptoms, and Treatment of Bone, Blood and Bog Spavin, Ring-bone, Sweenie, Strains, Broken Knees, Wind Galls, Foundr, Sole Bruise and Gravel, Cracked Hoofs, Scratches, Canker, Thrush and Corns; also, of Mogrims, Vertigo, Epilepsy, Staggers, and other diseases of the Feet, Legs, and Head.

THE HORSE AND HIS DISEASES

WILL TELL You of the causes, symptoms, and Treatment of Fistula, Poll Evil, Glanders, Farcy, Scarlet Fever, Mange, Surfeit, Locked Jaw, Rheumatism, Cramp, Galls, Diseases of the Eye & Heart, &c., &c., and how to manage Castration, Breeding, Trephinning, Roweling, Firing, Hernia, Amputation, Tapping, and other surgical operations.

THE HORSE AND HIS DISEASES

WILL TELL You of Rarey's Method of taming Horses; how to Approach, Halter, or Stable a Colt; how to accustom a horse to strange sounds and sights, and how to Bit, Saddle, Ride, and Break him to Harness; also, the form and law of WARRANTY. The whole being the result of more than fifteen years' careful study of the habits, peculiarities, wants and weakness of this noble and useful animal.

The book contains 384 pages, appropriately illustrated by nearly One Hundred Engravings. It is printed in a clear and open type, and will be forwarded to any address, postage paid, on receipt of price, half bound, $1 00, or in cloth, extra, $1,25.

$1000 A YEAR can be made by enterprising men everywhere, in selling the above, and other popular works of ours. Our inducements to all such are exceedingly liberal.

For single copies of the Book, or for terms to agents, with other information, apply to or address
