BELLEFONTE, MAR. 28, 1861

The New County Movement.

The new county topic of conversation on the other side of the died in Williamsport, at the residence of his mountain, where the general feeling is in uncle, Thomas P. Simmons, on Monday favor of the division. Fred. Kurtz, of the morning the 18th inst., in the 22d year of Berichter, is decidedly in favor of peaceable his age. Another victory has been achieved secession. He urges the propriety of the by that dread destoyer—Consumption. Removement in a very pleasant manner as may gardless of age, friends and cherished anticbe inferred from the following article which ipations, this king among diseases to hurry appeared in his last paper.

The movement for a new county meets the unanimous approbation of the tax payers on this side of the county. If it is the desire of the people over here to cut themselves loose and form a county of their own. we hope the other side will interpose no objections, it would be unchristian and unbrothloose and form a county of their one, loose and form a county of their one, it would be unchristian and unbrothtions, it would be unchristian and unbrothto contain unthing in the slightest degree deletto contain unthing in the slightest of the contain anything in the slightest of when you alleged you came for that purpose, but always after filling your delicate bellies with that favorite German dish, you would take good care to let us know you were traveling patriots, anxious to serve your country in office. Do not object to our going—we fed you with sourkrout when you were hungry, gave you drick when you were thirsty, clothed you when you were naked, sobered you up when you got tight, and took the bricks from your hats, you got our meney when you were strapped, we built a Court House to try you and a jail to lock you up in when you did'nt behave, and now you wan a jail big enough to put all Bellefonte in, and what a painful sight it would be for us ever and attend Court, and find all Bellefoute, with sad face, peeping out from behind the jail bars; an unlucky day it will be for you when a larger jail is built, for then you will surely all get in—then let us go. The ties of consanguirity don't bind us together; your grandpappies and grandmammics and t our grandpappies and grandmammies; your uncles and aunts ain't our uncles and aunt's; our boy's don't wish to squeeze your pretty girls, and our girls won't be squeezed by your boys-therefore, lot us depart in peace; don't say nay."

Another Discovery.

We were shown, the other day, a specimen of Cannal Coal which was taken from a vein which was struck on the land of Mr. Joseph Hoover, in Bald Eagle valley. Good Judges pronounce it the genuine article, being of course of an inferior quality, as it lies but a short distance from the surface. The work of digging is still progressing and the quality becoming better as they go down. A Welsh miner who professes to know something about mining, says that if he does not find Cannal coal of the finest quality, he will ask no remuneration for his labor. It is said that specimens of the same kind have been found at of the same kind have been found at different places in Buld Eagle valley.

An accident occurred on the B & S. S. Railroad, at this place, the other day, which resulted in the injury of the engineer and some of the hands engaged on the road. They were running down grade at a rapid rate on a hand car, which was devoid of brakes, and noticed, when too late, a wagon standing on the track. The car came in contact with the wagon, throwing those on the car to the ground, with such violence as to injure them severely, though not fatally .-The wagon was considerably broken.

Mysterious Affair.

On last Monday morning when we went to our office, we discovered a portion of a man lying in the passage at the foot of the stairway leading thereto. How it came there, is the mystery. It was removed and deposited in a proper place by those in authority. The fact that a whisky bottle was found in the same place at the same time, gives rise to the suspicion that there was foul play somewhere.

School Exhibition.

We have received a Programme of a school exhibition to be held in Patton township, at School House No. 4 .-The school has been under the supervision of Mr. Christian Hartsock, and if we may be allowed to judge from the programme before us the exhibition will be highly intercesting. The selections evince excellent taste.

FOR PURIFYING THE BLOOD. And for the speedy care of the following complaints: Serofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Fustules, Blotches, Boils, Blains, and all Skin Diseases.

Primples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Oakland, Ind., 6th June, 1850.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me, Having inherited a Scrofnlow infection. I have suffered from it in various ways for years. Semetimes it berst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relef from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a tenspoonful over a month, and used almost three bottles. New and healthy skin son began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostics of the age, and remain ever gratefully.

Leucorrheen or Whites. Overion Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fanale Disease of the Scrofulous disthesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous overian tumor on one of the females in my family, which had defied all the remedies we could employ, bat at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extipation could afford relief, but he advised the trial of you. Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphills and Mercurial Disease.

Syphilis and Mercurial Disease.

New Onleans, 25th August, 1859.

Dr. J. C. Aven: Sir, I cheerfally comply with the request of your agent, and report to you some of the chects I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Fourced and Mercurial Disease. One of my patients had Syphillis nicers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. 'Another was attacked by secondary symptoms in his mose, and the ulcaration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her homes. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and homes. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formals, which your agent gave me, that this Preparation from your hoboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

INDEPENDENCE, Preston Co., Va., 6th July, 1850.

Dr. J. C. Ayer. Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physiciaus, and stuck to me in spite of all the remedies I could find, until I tried your Sarasparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FIRZAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an officient of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than decangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarasparilla, because he said he knew you, and any thing you made was worth trying. If y the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus become a disorders which would be supposed beyond its overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the ne-cessities of the people, and we are confident that this will do for them all that medicine can do.

of the Discase.

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellesce for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subile and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
