

ANCIENT JERUSALEM. A LARGE AND BEAUTIFUL ISOMETRICAL PICTURE OF JERUSALEM AND THE SACRED PLACES AS THEY APPEARED IN ANCIENT TIMES.

This above work is commended to the favorable notice of clergymen, and those engaged in the Holy Land, of interesting, instructive, school classes on the subject to which it refers. It aims to give an exact idea of the city as it appeared in ancient times. It is taken as a 'birds eye' or 'balloon' view, and is placed in a magnification, placed at a considerable elevation, so as to take a comprehensive view of the city and of the whole country for some distance around. The view is accompanied by a full and complete list of the various localities, and in which the different localities are numbered, and a descriptive manual containing all the information necessary to enable one to use the view to advantage in teaching or lecturing.

THE SUNDAY SCHOOL TIMES. This is a Weekly Religious Paper, published at the very low price of ONE DOLLAR A YEAR.

This is designed for the young, and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper. A portion of the Sunday School Times is occupied with NARRATIVES and other matter particularly interesting to young persons. Teachers will find in it much that they will like to read to their classes—interesting matter prepared for their hands, and which will excite their interest. For the same reasons, members of Bible-classes, and older scholars generally, will be greatly benefited by the perusal of this paper. The Sunday School Times is a very rich report of the choicest matter, selected from the NOON PRAYER-MEETINGS, which are so interesting to all classes of Christians.

B. T. BABBITT'S PURE MEDICINAL YEAST.

MANUFACTURED from common Salt and Pure Cream Tartar—used in Bread, Cake or Biscuits, as to gas, (like that from a bottle of Soda Water), and remains dormant in the dough until it is set in the oven, when the heat causes the gas to escape through the dough while baking. The Bread, Cake or Biscuit is not only very light, but perfectly wholesome. Where this Yeast is used you will require about one quarter the amount of shortening used with ordinary Yeast. It may also be used for Biscuits, Cakes, Johnny Cakes, and all kinds of Pastry. The Yeast is put up only in one pound cans, with checked label, Red, White and Blue—each is Genuine—beware of imitation.

W. B. Babbitt's Puroconcentrated Potash. Warranted double strength of common Potash and superior to any Saltpetre in market, put up in cans of 1 lb., 2 lbs., 3 lbs., 6 lbs., and 12 lbs., with full directions for making Hard and Soft Soap. One pound will make fifteen gallons of Soft Soap. No line is returned. Consumers will find this the cheapest Potash in market.

B. T. B.'s Medical Salutaris. A perfectly pure and wholesome article, free from all deleterious matter; so prepared that, as the circular accompanying the Salutaris will show, nothing remains in the bread when baked, but common Salt, Water, and Flour.—Put up neatly in papers, 1 lb., 1/2 lb., 1/4 lb.

B. T. B.'s Concentrated Soft Soap. One box costing one dollar will make 40 gallons of handsome Soft Soap by simply adding boiling water.

B. T. B.'s Soap For Family Use. One pound of this Soap is equal to 3 pounds of ordinary Family Soap. One pound will make 3 gallons of handsome Soft Soap. It will remove dirt, grease, tar, and stains of all kinds. It will not injure the fabric; on the contrary, it preserves it. It will wash in hard or salt water. It is equally well adapted where this soap is used. Machinists and Printers will find this soap superior to anything in market. If your soap-maker does not use this soap, send \$5 by mail and I will send a package of either article or an assorted box containing a part of each article. Send name and address to B. T. D. MOTT'S CHAMBEAULT RESTORATIVE PILLS FOR IRON.

As appetent and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in a distant land. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, and otherwise feebly complexion indicating its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhea, Dysentery, Liver complaint, Scrophulous Tuberculosis, Spleen, Chlorosis, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

It cures the general debility, restores the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful in many cases. It is a description not written upon the subject, but that it is a restorative in its own right, and has been suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, associated victims of apparent nervousness, sanguineous exhaustion, critical chills, and that condition of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

IN NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medicine, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly, and evenly, it restores the system to its normal condition, without being a gastric purgative, or inducing a disagreeable sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which causes them. In Dyspepsia, innumerable as are its causes, a single box of these Chambeault Pills has often cured the most habitual cases, including the attended Constipation.

In unchecked DIARRHOEA, even when advanced to dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decided and permanent.

In the local pains, of fish and strength, debilitating cough, and remittent hectic, which generally indicate INCRUSTED CONSUMPTION, this remedy has afforded the relief which friends and physicians, in several very gratifying and interesting instances.

IN SCROPHULOUS TUBERCULOSIS, this medicated Iron has proved to be the most effectual and safe remedy, and has been used with the most judiciously balanced and prepared of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently directed to the use of this restorative, and to the cases peculiarly affecting them.

IN RHEUMATISM, both chronic and inflammatory, in the latter, however, more decidedly,—it has proved to be the most effectual and safe remedy, and has been used with the most judiciously balanced and prepared of iodine, without any of their well known liabilities.

IN INTERMITTENT FEVERS it must certainly be regarded as a most valuable and effectual remedy, and progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such a prompt, happy, and fully restorative effect,—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for cheerful exercise, immediately follow its use.

Put up in neat flat boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free by mail on receipt of the price. All letters, orders, &c., should be addressed to
