Are you sick, feeble, and complaining? Are you out of order, with your system de-ranged, and your feelings un-comfortable? These symp-toms are often the prelude to serious illness. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Dear Bno. Ayen: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. From Dr. Theodore Bell, of New York City.

No only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious discuss so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their sugar-coating makes them very acceptable and convenient for the use of women and children. Dyspepsia, Impurity of the Blood.

An apperient and Stomachic preparation of IRUN purified of .Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and perscribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexion indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been

Innoxious in all muladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debitity, Nervous Affections, Emanciation, Dyspepsia, Constipation, Diarrhaa, Dysente, y. Incipient consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fexers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervons and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which a description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborh ods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversicn to air and exercise for which the physician has no name.

In Nervous Affections

peptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being gently supersitive or inflating a discrepable. e gastric purgative, or inflicting a disagreeable

sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspersia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness.

In unchecked Diarrhed, even when advanced to Dysenyrey, confirmed, enneciating, and apparent

In unchecked DIARRHCEA, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physical in a several vary gratifying and interesting ns, in several very gratifying and interes

In Scropulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness the joints and muscles.

In Intermittent Fevers it must certainly be great remedy and energetic restorative, and progress in the new settlements of the West, will probably be one of high renown and usofulness. No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—

A WORD TO THE PUBLIC.

Whereas the Spring of Creek Woolen Manufactory, during the present season, has been patronized to the full extent of its producing abilities, and in anticipation of a still greater patronage the coming season, the proprietors have been induced to add more new machinery will facilitate our eperations very much and at the same time will improve the real value of out cloths at least ten per cent, while our prices shall remain as heretofore; it being our ambition to build up a reputation for this establishmen, that will add all things thereto. From the facts here uset forth we confidently believe that wool growers and all other good people can now deal with us very much to their own advantage.—While there are many things alike in business of this kind, there is also much that is different. A word to the wise is sufficient, Give us a call and satisfy yourselves that this is the place the people get the worth of their money.
