THE WAR IN KENTUCKY. Attack on a Federal Camp.

THE REBEL, ZOLLICOFFER, REPULSED. CINCINNATI, Oct. 22.

A courier, arrived at Camp Dick Robinson reports a fight yesterday between the Rebel General, Zollicoffer, with from 6000 to 7000 men and Col. Garrard, with 1260 men, at Camp Wild Cat. Zollicoffer made three different attacks, and each time repulsed with considerable loss. The Federal loss was four killed and twenty wounded. The courier met reinforcements, consisting of one regiment with artillery, on the road to Col. Garrard's camp.

Pennsylvania's Quota Filled. HARRISBURG, Oct. 19 .- - In consequence of the recent requisition made upon Pennsylva-nia by the National Government, the im-pression seems to have gone abroad that a large number of regiments are still required, and Gov. Curtin is beset with applications

to accept new regiments.

This is an error. Pennsylvania has already a sufficient number of regiments meet all the requisitions made upon her by the National Government, and they are now being filled and equipped as rapidly as could be desired. Gov. Curtin, therefore, has no power to accept any new regiments at this time.

The citizens are organizing and preparing to proceed to take their camp, and great excieement prevails throughout the city to night, in consequence of the conduct of the

THE CHEMISTRY OF MEDICINE. - Bmong the speial delights which so richly repaid our visit to cial delights which so richly repaid our visit to New England was the inspection, it was our privilege to make of Dr. Ayer & Co.'s Laboratory, at Lowell. Although we knew by hear-say, that it was large, yet we were surprised when we came into view of its real magnitude, and style more by the extent aud complication of its truly immense business. The whole mossive structure is in fact one vast chemical lab-ratory, in which the processes of this wonderful art are constantly going on. Medico-chemical science has found that the curative properties of any substance exist in some one or more of its component parts. Thus every particular but in manusants coat this is the only process by which the people can be supplied with the best possible remedies for the treatment of diseases. The Formula by which his remedies are made are published in the medical Journals and have been presented to a large part of the

The Wonders of the Microscope.—We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the Palludal Miasu and determining its character. Of its effects we in this section have abundant evidence in the Feveram Ague which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of water from decayed and decaying, vegetation. Under a great magnifying power, the Docter has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blood of Ague subjects. They are 13,000 times loss than visible to the naked eye, but have distinct character and form. He thinks they are reproductive in deca in decaying matter or in the blood, and hence their long continued life or thu remote effects of them in the system.—He maintains that they resemble in character the other fermentative poisons, or such as the virus of rables of a dead body, &c., all cf which are known to reproduce themselves with great rapidity like yeast in moistened flour, so teat the slightest duantity impregnates, the whole mass. Yeast through a powerful magnifer is seen to be a forest of vegetation which grows, blossoms, and goes to seed in a short time. Missm is not so distinctly vegetable, but has more the appearance of animal life, although its motions cannot be perfectly ly vegetable, but has more the appearance of animal life, although its motions cannot be perfectly distinguished. What the Doctor claims to have settlen is that it is an organic substance and he has further found and embodied in his "Ague Cure" what will destroy it.—Leader, St. Louis, Mo.

We have been shown a document signed by thy Mayors in office of the cities of the United States and Consada, certifying to the superior excellence of Dr. Ayer's Compound Extract of Sarsapazilla and to the value of all his remedies as articles of great public utility. Such evidence from such high sources bears us out triumphantly in the position we have long maintained with regard to Dr. Ayer's preparatious, or more particularly our advertisement of them. No publishers need be more opposed than we are to the promulgation of quackery in any shape, but we knew when we began, that his remedies were above any suspici no fdeception—that they were about the best it is possible to produce for the cure of disease, and that they have the confidence of all communities where they are known. Not along because the Mayors of the whole country believe them useful to their people, but because we know from warriends.

From J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reason why a man may not testify to the ben fit he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to "Hoofland's German Bitters," prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encoragement to try them, when suffering from great and long continued debility. The use of throe bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and ment I vigor which I had not felt for six monts before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

THE ONLY PREPARATION THAT HAS STOOD THE TEST FOR YEARS, And grows more and more popular every day!

A ND testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the baid and gray, and preserve the hair of the youth to old age, in all its youthful heauty.

Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

Battle Creek, Mich., Dec. 21st, 1858.
PROF. Wood:—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years 'ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to abtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cert I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the ba'd spot is now covered with hair thick and black, though short, it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means te purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward it to those that are kind to the widow and the fatherless."

bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Thy friend, SUSANNAH KIRBY.

Ligonier, Noble Co., Ind., Feb. 5th, 1859.
PROF. O. J. Woon: Dear Sir:—In the latter part of the year 1852, while attending the Stata and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquainces were to recognize me at all.

in my appearance, as my more intimate acquainces were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored. I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can by.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours,

A. M. LATTA,

Leucorrhesa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Disease of the Scrofulous diathesis. I have cared many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cared. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous overian tumor on one of the females in my family, which had defied all the remedies we could employ, had at length been completely cured by your Extract of Sarsaparilla. Our physician though nothing but extirpation could afford relief, but he advised the trial of you. Sarsaparilla as the last resort before cutting, and it proved effectual. Syphilis and Mcreuvial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Aver: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, nest of the complaints for which it is recommended, and have found its effects ruly wonderful in the cure of Venezal and Mercuriol Disease. One of my patients had Symbilitic ulcers, in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by seendary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my admigistration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excurciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with lave not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Rhenmatism, Gout, Liver Complaint. INFPENDENCE, Preston Co., Va., 6th July, 1859.
Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which battled the skill of physicians, and stuck to me in spite of all thoremedies I could find, until I tried your Sersaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than drangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones. the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to farnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the ne-cessities of the people, and we are confident that this will do for them all that medicine can do.

of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivailed excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the cartin. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and not more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
