A Trip to the College.

Mr. Editors:—Having seen in your paper the announcement of the play "Oliver Twist," at State College, and desiring to see the College, I determined to visit it, starting on Friday morning, in about two hours, I reached the place after a rather muddy, but very pleasant ride. I stopped at the hotel, which is kept by Mr. George Hoffer. It was just one o'clock when, after having taken some refreshments, I started for a trip around the grounds. The first thing that attracted my attention was the engine, which pumps the water from the new well to the reservoir. Enough water is pumped up at one time to do the College one week. The bore was made to the depth of 176 feet, and the stone, which was taken out in pieces 35 feet long, was placed in the Geology room of the College. A substantial brick building has been erected over the engine. Pipes are to be laid along the front street to supply the people during the warm and dry months. The water is always cool and contains quite a large amount of lime. It is slightly disagreeable at first, but I have heard, a person soon becomes partial to it.

I had heard so much about the "poor water" at the college, that I expected to find something very disagreeable. During the last summer the people for miles around were supplied with water from this place. It is one of the many advantages that the students and residents should be thankful for. Water pipes have been placed in the building, from the basement to the fifth floor, and many conveniences not often found outside of a city, are enjoyed. By next winter the College will be heated by steam. I next visited the College, where I spent several hours very agreeably. Prof. Grabowski very kindly offered his services to me for the afternoon. He took great pains to point out anything that might be of interest and different improvements. Among the different things of interest, was the Herbarium and Geology and Physics room in connection with the College, and the halls and reading rooms of the two societies, Washington and Cresson. The halls are very fine and show both taste and durability. The books of the Washington reading room were especially noteworthy and showed that the young gentlemen understood the value of reading the "Gold" of literature. But time will not allow me to spend more of it here, so I must pass on. The stables and farm buildings were in excellent order. The usual disagreeable odor generally noticeable about stables was entirely absent, although ninety head of cattle are now being fattened. The cattle are in fine condition and have a happy contented look, although they are to be shipped to the Philadelphia markets as soon as they have acquired a certain weight. The orchard looks well and from short acquaintance, I should say, that in a few years there will be no place to put the apples.

I was about to visit the reservoir, when hearing the College bell, I looked at my watch and was surprised to find that it was six o'clock. I had been so interested during the afternoon, that I had not noticed the growing darkness. It was my wish to visit the Experimental Farm, but as time did not permit, I hope to be able sometime in the near future to give you some information about it. As the time for the evening's entertainment drew near, I made arrangements for it. One hour after this I found myself seated in a comfortable chair, in the College Armory. While the seats were rapidly being filled, Mr. Bernard Lauth and Prof. F. T. Garwood entertained those present with some very fine music. After this the play commenced and for two and one half hours the audience were delightfully entertained. Profs. Grabowski and Downey performed their parts to perfection and brought loud applause from the audience.

Between the acts Mrs. C. M. Comerford and Mr. Bernard Lauth, of Howard, occupied the time by playing some difficult music, which was well received. At the close Prof. Downey thanked the party supplying the music and the audience for their attendance. It was an evening well spent and all enjoyed themselves. In conclusion I would say, to all who can visit the College, Go; and if ever there is an opportunity to see "Oliver Twist" played, go there also. Yours, C. D.

A NOVEL ENTERTAINMENT.—What is certainly a very novel entertainment to a Bellefonte audience will be given in Reynolds' Hall, on the 21st of February next, under the direction and for the benefit of the Knights of Pythias. It will consist of a five-act drama entitled "Damon and Pythias," and all recited by one individual, Mr. Homer D. Cope, who is said to possess gifts of oratory and impersonation which make him, in an eminent degree, a star in his profession. Our limited space and large amount of other reading matter this week render us unable to give an extended notice to this entertainment, but from the high encomiums lavished upon him and his entertainment by the press wherever he has appeared we can assure our readers that no praise can be too high for him. We append but a single sentence from the Logansport, Ind., Journal: "Many persons who have heard this tragedy performed by a full company of no mean dramatic pretensions, and with all the accessories of stage effects, declared, last night, that its greatest beauties had just been unfolded to them. It is not often

given to one man to win a greater eloquently and dramatic triumph than is embodied in this intelligent judgment."

W. S. McNitt vs. W. G. Thompson. Action trover and conversion of two hundred and twenty saw logs. On trial at writing.

The only other case of any consequence remaining on the list is the ejectment brought by J. Z. Long vs. H. A. Merrimion et al., to recover certain lands in Snow Shoe. This is a case of considerable importance, and will take eight or ten days to try. The plaintiff is represented by Senator Peale, of Lock Haven, and Senator Alexander, of Bellefonte. Defended by Gen. Blair and Beaver and S. D. Ball, of Clinton.

To the Honorable, the Judges of the Court of Quarter Sessions of the Peace in and for the County of Centre, January Term, 1879.—We, the Grand Inquest in and for the county aforesaid, respectfully report that we have disposed of all business brought to our knowledge, and in accordance with your instructions have examined the Public Buildings, and report as follows: First—The Jail. The basement cells are in a damp and unhealthy condition on account of bad floor and ceiling, bad drainage and imperfect ventilation; and we recommend that the floors shall be repaired or renewed as may be found necessary, with such ventilation attachments as shall be required, and as at little expense as the same can be done for.

We also recommend the free use of soap and water for the proper cleansing of the privy in the rear of the Court House, and the frequent application of chlorid of lime or some other cheap and good disinfectant to absorb the poisonous gases arising from the sink attached thereto. We also recommend additional shelving in the vault of the Prothonotary's office.

—There is a promise of more amusements in the future than we can keep track of, but there is one which all must be certain not to miss, gotten up by home talent and to be given in Reynolds' Hall on Thursday, the 20th instant. The party of eight young men who are to occupy the boards on that night are all Bellefonters, and have prepared a complete and attractive programme of songs, dancing, theatrical and variety entertainment. They designate themselves the "Centre Minstrels," and the names of Mr. Charles Nolan, A. Haupt and others we might mention, who have been seen on the stage before, will insure a large audience.

—The Washington Grange, P. of H., will hold a meeting, with open doors, in their new building, in College township, February 23d, at which time Captain Hunter, of Half Moon, Dr. Calder and other prominent members of the association will make addresses.

—Dr. Calder left for West Chester last Thursday. He intends to visit quite a number of farms in Chester county. —Notwithstanding court, the town this week has been comparatively quiet. —Attend "Uncle Tom's Cabin" this evening. —Judge Mayer was on the bench this week.
