# SOUND REASONS

Why we can undersell any exclusive Clothing Store in Centre county.

### Reasons which if carefully weighed will convince any one with average common sense:

First----We deal in all classes of general merchandise, including DRY GOODS, Clothing, Boots and Shoes, Groceries, Queensware, Notions, Carpets, Hats and Caps, and everything generally kept in a well regulated Country Store.

Second ---- We keep the largest and best assorted stock, in styles and qualities, of Men's, Youth's and Childrens' Clothing in Centre county.

Third---- From the two foregoing reasons any one can easily see our maintenance does not depend upon the large profits that must be made on a suit of clothing by any exclusive clothing store, and consequently we can afford to sell at a smaller profit than any of them. And since we can afford it we are willing to give our customers the benefit of the same.

#### A Startling Opinion.

SOMETHING THAT WOULD THROW THE EARTH OFF ITS BALANCE.

The following letter has been addressed to the editor of the New York Sun :

Various publications have appeared in different parts, particularly in the London papers, setting forth a proposed plan of flooding the Desert of Sahara, thereby making it an ocean of inland

thereby making it an ocean of inland sea, by opening a canal or channel from the Atlantic ocean. The depth and size of the deserf be-low the level of the ocean is stated at 500 to 750 feet; the area in square miles it over 2,000,000; the average depth is not generally known, but suffice it to say that if such a project should be started, and not under the complete control of those in charge of the work, the earth could, and no doubt would, be thrown off its balance, and the sur-face of all the waters to a certain exbe thrown off its balance, and the surface of all the waters to a certain extent would be changed in their level, which could be ascertained with certainty if the actual sizes and depth could be known; for "if every grain of world," what would this great change do? It might cause the "end of the world," which, according to the prophered of "Mother Shipton," will be in 1881, In this project all the world is interested. JAMES E. SERKELL, New York, June 20.
