alism. It has retained power thus far principles which the occasion demands. and hopes to hold dominion in the future only by exciting sectional animosity. But for this the election of 1876 would not have left the Presidency within stealing range of the conspirators. Every device that devilish ingenuity could suggest has been employed to keep alive in "the loyal heart of the North" the passion, the hatred, the malice engendered by four years of fractricidal strife. Every incident or calumny of the war time that could be used to fan into flames the dying sparks of hate has been retouched, improved upon, and brought of January.

General Walker says that in the forout during every campaign since the war ended.

Battle-fields, graveyards and prisons have been explored, fact has been exhausted, and fancy has been given freest range; an ounce of truth has been made to cover a mountain of lies; every criminal in the South has been held up to the North as a type of Southern character; every crime in the South has been presented as indicating the average morals and refinement of the Southern people. Outrage mills, supported by money paid from the common fund, have been put in motion, to grind out sickening stories of crimes that never happened. Hatred, malice, and detraction have done their utmost to inflame the passions of the Northern masses, and array them in bitter, vindictive antagonism against the South-and all this that the Radical party may rule.

Now, we state as an incontrovertible fact, that this spirit and policy tend directly and strongly to the destruction of all that is valuable in Republican government. If the Radical programme succeeds, the North will hold the Presidency and all offices of the Executive department by a tenure based on sectional animosity, and the Southern States will be nearer the positions of conquered provinces than they will be to that equality of rank and rights which the Federal charter guarantees to each and every member proprietor of the "Daily and Weekly of the family of States. By artfully working on the fears of the ignorant, by exhuming and parading the skeleton of secession, by rattling all the mouldy bones in the graveyard of buried years, the Radical leaders may muster a following, for a time. But the common sense of the people, their inherent love of justice, and, above all, those great industrial and commercial interests that bind the sections together, will eventually retire to oblivion the apostles of hate, and bring to the front those statesmen, whose patriotism is broad enough to embrace all sections of our common

We believe the bloody-shirt has won its last victory. It was flapped with diabolical dexterity in New York by all the great campaigners of the Radical party. Evarts, Sherman, Blaine, and a hundred other evangelists of the gospel of hate, shrieked hideous horrors into the ears of the populace, but the people didn't scare perceptibly. New York knows that this country cannot afford to indulge in sectional strife. The business men of New York feel that this wretched policy has gone quite far enough. ## The Next Census.

WASHINGTON, November 16 .- The for mation of supervisors' districts under the provisions of the census Act of March 3, 1879, has been completed by Superintendant Walker, except in re-gard to the States of Massachusetts and California, and approved by Secretary Schurz. The details are of interest for the reason, among others, that the appointments of supervisors must be made in each instance by selection from applicants residing within the boundaries of the respective districts. These important offices, which will practically control the thousands of local appoint-ments necessary for the work of taking the census, are to be filled by the first

What the Republicans Propose. From the Lemans Sentinel,

A year ago, more or less, the Briga diers marched up from the political swamps of rebeldom, and "captured the Capitol." A swaggering crowd of lordly bullies, with the stink of treason and whiskey exuding from their mal-odor-ous carcasses, the terrific vaporings, ostentatious bravados, flippant gascon-ade, theatrical bombast and haughty braggadocio from their clownish lips. They sat in the Capitol, squatting like horrid reptiles, and dictating laws for the Nation they sought to strangle, They squirted their trees. from the captured Capitol all winter and spring, and away into the summer, breathing hatred and hell at every sus piration. The Nation stood amazed at the fiendish audacity of unhung traitors and even Rutherford Burchard Haves and even Rutherford Burchard Hayes awakened from his torpor of concilia-tion, and only py so much as a hair, saved the Nation from anarchy and war. It was a terrific struggle with these traitor ghouls sitting in the sacred seats of the Nation's legislature. But a miss is as good as a mile, and the Nation was aroused. The Ides of October came, and then November. The Stalwarts rose in their might and hurled the uncanny monsters back to the dismal swamps and miasmatic cane-breaks of the treason-breeding Southland. The captured Capitol has been retaken from Southern assassins, never again to pass from the control of patriots. We with the loyal statesmen of the to hitch this second conquest of rebel dom to the everlasting pillars of Northern patriotism, by canceling every State line, abrogating every State constitution, line, abrogating every State constitution, and resuming every State right that exists, or is supposed to exist, south of Mason and Dixon's line, and governing the same by martial law, under the supervision of the National War department. RE-UNION OF THE 45TH .- No regiment of soldiers in the service of the United States during the late war did better work or gained higher distinction than the gallant 45th. Many Centre county men were in its ranks and as a matter of interest to the survivors who reside in our midst, we copy from the Columbia Spy the following account of a meeting held at Columbia, Pa., on Tuesday, the 21st of October, for the purpose of forming a survivors' organization of members of the regiment. Dr. T. S. Christ, we believe, was the only rep-

resentative present from this county "In response to the call of Mr. J. A. Meyers, published in the Spy a few weeks ago, quite a large number of the 45th boys assembled in Odd Fellows' Hall, on Tuesday at 2:30 r. m. Mr. Meyers was called to the chair and J. W. Meese appointed Secretary. Mr. Meyers made an appro-priate acknowledgment of the honor con-ferred, and expressed his great pleasure at meeting so many of his old comrades of the 45th.

the 45th.

C. S. Budding, of Wrightsville, stated that the prime object of this meeting was to effect a survivors' organization. On motion of Mr. Roath, a committee of five was appointed to report officers for such an organization. Messrs. Roath, Pfahler, Budding, Kemmerer and Hershey were named as the committee, who reported as

They also recommended the appointment
of an executive committee of two from

each company.

Dr. Christ made a pleasant speech, re-calling scenes and incidents in the history of the regiment.

of the regiment.

The officers were requested to draft constitution and series of by-laws.

Letters were read from General Beaver, Captain Curtin, Captain Richards, Major Cheesman, Lieut. Emery, Ass't Surgeons Yugdt and Styer and Q. M. Sergt. Mullen, all expressing their regret at not being able to be with the boys, and their hearty concernion in any movement looking the series of the concernion in any movement looking the series of co-operation in any movement looking to the permanent organization. Lieutenant Messe recited a poem on the subject of obliterating the names of victories from the battle flags. The Executive Committee were authorized to choose the time and

place, and make the necessary arrangements for the next meeting.

At five o'clock the meeting adjourned, after a most delightful occasion, with good after a most delightful occasion, with good prospects for a re-union in the near future. The comrades then visited the graves of Gen. Welsh, Major Kelsey and Captain Eyde in Mount Bethel Cemetery. The meeting was all that could have been expected, and the organization is now fully under way. We expect some time in the future to chronicle a local

SOMETHING TO THINK ABOUT .- Perhaps you have thought about what we intend to speak of before this, and perhaps you have not. What we saw and heard in the Presbyterian church last Sabbath evening merely revives old fancies, which might prove realities if a similar disposition exists among all those concerned. We, with a legion of others, are enthusiastic lovers of music, though not able to render it ourselves. It is the most valuable agent that can be employed for entertainment, and the strongest agent in doing good. Last Sabbath night several new pieces of music were rendered by a choir of fifty male voices, and notwithstanding very little previous practice had been indulged in it was well rendered and contributed most in making the service a success. We know positively that there are at least as many ore equally excellent male voices in this town which were not represented on that occasion. We certainly would not be short of the truth to say that there are at least fifty good and partially trained female voices in this place. Now, if all these musical persons would come together what a choir there would be! One hundred and fifty voices! And if a brief practice be added to their present training Howard station, on the Bald Eagle Branch what delightful melody would be the result! It is said that there is a social wall of partition which prevents the several elements of our town in commingling for known. He and elevating art, such an instructive and pure pleasure as music should destroy these many places, and we are convinced that Bellefonte has superior musical talent. It should certainly be the most delightful pleasure to study the grand works of the great masters in music, and when this large choir is prepared to render them no room in town would contain the large audience who would seek the benefit of listening to a rehearsal. All that is necessary to accomplish this result is for the leading musicians to issue invitations for others to meet with them, and the invitations will be responded to in a manner that will astonish the natives; and love of the art, coupled with a desire to do good, should be with some a sufficient incentive.

BOROUGH LEGISLATION .- Messrs. Ardell, Harper, Hoffer, Kabello, McClure and Shortlidge were present at the regular

meeting of council last Monday night. The Street Committee reported the alley in the rear of Linn street to be in bad con-

dition and in need of attention. The Water Committee reported that the water works are in good condition; that the actual cost of repairs was \$6.32, and the engine now runs but from eleven to twelve hours per week.

Five dollars and thirty cents was the amount paid to the treasurer as the market fees in two weeks.

The Fire and Police Committee reported that two lots of 150 feet each of hose will be on hand; also said that 600 feet more is required for the Undine Hose Company, which the Fire and Police Committee were authorized to order.

A request from Edward Brown for the erection of a hydrant on the nerthwest corner of Bishop and Allegheny streets, was referred to the Water Committee.

Through the Water Committee, Samuel Brugger, Esq., civil engineer, submitted estimates for the improving of the property about the "big spring" and also for the building of a reservoir. The Water Committee, on motion of Mr. Ardell, seconded by Mr. Harper, were authorized to build the reservoir if they deem it necessary.

Mr. Rodgers authorized Mr. Harper to say that he is willing to perform the duties of engineer at water works for \$1.75 per day. Statement referred to Water Com-

KILLED BY FALLING COAL .- Again we record, in the words of the Philipsburg Journal, another fatal accident, which this time occurred in Campbell's coal bank, about one and a-half miles west of that town, on Tuesday afternoon of last week: "Mr. Calvin Noll, a young married man | 80 commenced digging coal in the aforesaid mine, and who expected in a few days to locate with his family in this vicinity, was the unfortunate victim. It appears that he was desirous of making a "good fall" and to accomplish a result of this kind ventured under a large body of coal and ventured under a large body of coal and believed.

After the removal of the R coal his body was found lifeless, as the vital spark had fled. The remains were taken to Clearfield on the night train and buried at that place on Wednesday. A wife and child and numerous friends are left to mourn his sudden death."
