The Centre Democrat.

Thursday Morning, January 22, 1880.

CORRESPONDENCE, containing important news, solicit-ed from any part of the county. No communi ations neared unless accompanied by the real name of the writer.

TAKE NOTICE .- All those knowing themselves indebted to me will please cal and settle, and all parties having claims against me will please present them for payment, as my books must be closed. Jan. 1, 1880. J. NEWMAN, JR.

Local Department.

-The almanacs say that the moon wil be full next Tuesday. -The teachers of Miles township have

organized a district institute. -Remember Bishop Wayman's lecture

in the Court House on Tuesday evening. -It is certainly a great temptation to

learn the art of smoking when cigars can be bought from Harry Green.

-Mr. Frank Blair, having disposed of his large stock of jewelry, is now making some renairs in his store room.

-Mr. William Hillibish, formerly of Duncan & Co.'s machine shops, is now working in the "upper" car shops at Altoona.

"The Zion Glee Club" is the name of a new musical organization at Zion, which already furnishes excellent music, and is improving.

A freight train was wrecked near Howard on Wednesday of last week, which caused a delay in all the trains due at this place on that day.

-Mr. John Sourbeck is at present conducting the skating rink, and in the absence of the genuine article, we suppose it will be well patronized.

-When gentlemen visitors in town inquire about the principal attractions which the town affords, we can always point with pride to Harry Green's cigars.

-Prof. Allen A. Griffith, who gave sev eral enjoyable lectures before Bellefonte audiences a few months since, is announced to lecture in Lewisburg on Tuesday eve ning next.

-Mr. William P. Duncan, of Philipsburg, was elected one of the Vice Presidents of the Pennsylvania State Millers Association, which met in Harrisburg on Tuesday, the 13th instant.

-Mr. R. L. Erhard is erecting a new building on High street, just next Charley Glenn's photograph gallery. He will carry on the manufacture and repair of boots and shoes when it is completed.

-Mrs. Sourbeck, who has for many years conducted the millinery business on Bishop street, has closed up her business and gone to Pittsburg to reside with her daughter, Mrs. Josephine Peeples.

-Revival meetings which are doing much good and promise yet better results , in the future are now in progress at Boil-' ing Springs. Rev. J. W. Wood has the meeting in charge and is laboring faithfully. -Our friend Sidney Miller, of Pleasant

Gap, has qualities which make him an excellent auctioncer. Persons who make sales during the coming spring will find that he can give them invaluable service in that capacity.

-Pleasant Gap boasts of a man among its inhabitants who is at once a first-class harness maker, a huckster, a good gardener, and is at present doing a fine grocery business. It is unnecessary to add that he is a good Democrat.

-The Beaver Mill, the property of Mr. E. M. Sturdevant, in Rush township, has again arisen from the ashes into which it was reduced by fire some time since. It was started up last week and is now working with a full force of employes.

-The regular quarterly meeting of the Centre County Agricultural Society will be held in the Court House on Monday evening, January 26, at 7 o'clock. At that time officers for the ensuing year will be

elected and a general attendance is desired. Philipsbu

Executive Committee of the few Republievening last week, the mail train from Lock Haven, due here at 5.05 P. M., was cans in Centre county met in this place on Friday last, in obedience to a call from stopped near Howard by a wrecked freight Chairman John I. Rankin. Twenty-seven train. Finding that it would be impossimembers were present, as follows : Belleble to clear the track of the debris and open a passage for the delayed train that night, fonte, David M. Glenn, H. H. Benner Wm. Shortlidge; Howard borough, Joseph the conductor telegraphed to Tyrone for a special train to come to his relief and Royer; Milesburg borough, Lyman T. Eddy ; Philipsburg borough, Harry Simbring his passengers to Bellefonte. The ler; Unionville borough, Dr. E. A. Russpecial was promptly dispatched from Ty-Benner, John P. Seibert ; Boggs, rone to the scene of the disaster. In the meantime the Snow Shoe train was lying Capt. Austin Curtin ; Burnside, William on the siding here awaiting instructions to Stewart, Jr.; College, David Dale; Fermove. They soon came in the shape of guson, Cyrus Goss and Wm. H. Goss: orders to go right through to the Intersec-Gregg, Robert H. Duncan; Huston, Ira F. Davis; Howard, D. B. Pletcher; Half tion. The Snow Shoe arrived at Milesburg one minute and a half behind time. Moon, Harry C. Love ; Haines, Dr. P. T. Musser ; Liberty, D. B. Kunes ; Marion, Here Conductor Nolan inquired for further Capt. S. H. Bennison ; Potter, James C. orders but was informed there were none Boal and W. J. Thompson ; Rush, John for him. Accordingly he pulled out for the Intersection at a high rate of speed. A. Mull; Snow Shoe, William Stewart, Sr.; Spring, A. J. Swartz; Taylor, Just as the train moved away, Telegraph Operator McClain stepped into his office D. G. Ganoe; Union, B. W. Shipley. The deliberations resulted in the selection and to his horror received orders over the wires to hold the Snow Shoe train until of A. O. Furst and John I. Rankin, Esq's, the special from Tyrone passed Milesburg. is representative delegates to the State It was now too late, and all the employee Convention, without instructions. A vote around the depot, waited with bated on Presidential preferences resulted in 22 breath for the terrible catastrophe, now so votes for Blaine, 4 for the "third termer," imminent. On the Snow Shoe thundered and 1 for Sherman. John G. Love, as if anxious to rush into the arms of de-Esq., Col. D. S. Keller, of Bellefonte, and struction. Just at this moment a lurid Capt. S. H. Bennison, of Marion, were light appeared around the curve and the chosen Senatorial conferees to meet with Tyrone special hove in sight. There was the conferees of Clinton and Clearfield short, sharp and decided work with the counties and elect a Senatorial delegate. brakes, and the two trains were stopped OFF TO MICHIGAN .- Mr. John Letterwithin four feet of each other. The conman, of Benner township, is in the eightysternation of the passengers was very great fourth year of his age. Notwithstanding his venerable years and the fact that he

Scott, for the remained road Railroad Company. This proposed road static case through the Moshannon, Karsale clothiers, successors to Mr. J. Newman, Jr. This branch of the Philadelphia house proposes to open one of the largest thaus and Keating coal and iron regions, the richest in mineral wealth in the State. and finest stocks of clothing ever seen in

PHILIPSBURG NEWS .- The Philipsburg Journal always comes to us beautifully printed and carefully edited, and is a credit e pretty borough it represents.

-Charles, son of Mr. J. B. Ayres, wh esides a short distance north of Philipsburg, died from diphtheria on Tuesday of last week. He was between seven and eight years of age

-The Masonic Fraternity of Philips burg recently gave their annual supper in Potter's Hall at that place. The guests present numbered about one hundred, and much enjoyment was derived from the occasion

-Mr. J. N. Cassanova and lady, of Philipsburg, accompanied by Miss Irene Humphrey, departed on Tuesday week for Philadelphia. In a short time Miss Humpbrey will sail for Cuba, where she will join her friend, Miss Annie Switzer, who is now visiting with the family of Mr. Cassanova's brother on that pleasant island. The ladies will prolong their visit for another year.

-The Reading and Orchestral Associaion, which has become an honor to the literary and musical taste of Philipsburg celebrated its first anniversary on Monday evening of last week. The scene of the event was in the new apartment of the Association over Strouse, Lehman & Co.'s store. Sixty persons sat down to the feast which was spread to do honor to the occasion. After much feast of reason and flow of soul the happy participants separated, wishing the Association many returns of wishing the Associate the festive occasion.

-Mr. John C. Dunkle has been suffering slightly from a sprained back which he received on Tuesday morning of last week while assisting to take a pair of sleds from the top of a car load of lumber. The sleds descending too swiftly was the cause Mr. D. is an employe of Hoover, Hughes & Co.'s planing mill, near Philipsburg.

-A humorous drama entitled German Volunteer" was put on the boards at Potter's Hall, Philipsburg, on last Thursday night. The proceeds were for the benefit of Post No. 90 G. A. R. The same performance was repeated on Friday and Saturday evenings to large and delighted audiences

LITERARY .- The weekly gathering of the Addisonian Club, on Saturday evening last, was well attended. This session was devoted exclusively to business and resulted in several important changes in the conduct of the Club. A committee of three was appointed on regulations, whose duty it is to prepare such rules for the government of the Club, as are not provided for in any of the accepted manuals of parliamentary practice. A motion to devote the concluding half hour of each future meeting to the consideration of business was adopted. A resolution was also offered and adopted that henceforth all subjects for debate be offered in the form of a resolution, one week previous to the time the debate upon them takes places, and that they be disposed of in a parliamentary manner. Prof. W. Seymour, the English phrenologist, who was present, addressed the Club, his remarks being principally on the subject of "Reason." The Pro fessor is also a mesmerist, and at the close of the exercises volunteered to display his power on any persons who would offer themselves for that purpose. Three members assented their willingness to be mes merized. On two the Professor was but partially successful, but the third proved a fine subject and enabled the Professor to make a brilliant exhibition of mesmeric power. This proved such an interesting subject that after the departure of the Professor the time was employed until eleven o'clock in the endeavor to cultivate the art. Two or three who conceived they knew as much about the subject as the Professor, stationed their subjects before them, performed the necessary passes, threw their bodies into grotesque convolu-tions, and made frightful grimaces, but did not succeed in establishing for them-selves a reputation as masters of the art.

THE CENTENNIAL CLUB REVIVED .--- We were glad to hear of the re-organization, on Wednesday evening last, or

THE REVOLVING WHEELS OF INDUS. TRY .-- It is quite refreshing to step from the prevailing inactivity of town, across the small intervening space, into the energetic life and motion which has for some time been going on at the Phœnix Planing Mill. Where there is work there is cheerfulness, prosperity and happiness; where there is idleness, either enforced or voluntary, there is always its offspring, vice. Therefore, the hum made by industry is a cheerful sound, and the clear notes of the whistle from the Phoenix Planing Mill indicate that busy hands are at work fashioning those objects which are to add to the beauty of the world.

"The Phoenix Planing Mill Company" s the name, style and title of the corporation of which John Ardell, Jr., is the principle business manager, and which transacts its business in the new buildings recently erected in the vicinity of the spring on the piece of ground that was once fondly talked of as the future Bellefonte Park. But it is now converted into a purpose which does as much good as it otherwise could under any possible circumtances, which all will testify to who see the rough boards go in and then witness their transformation into the shapely doors, window-sashes, blinds, brackets and the thousand and one substantial and ornamental articles of woodwork which are produced in a well-regulated planing mill. From the street, entrance is made into

a convenient and cosy little business office, where Mr. John Ardell may usually be found, and where Mr. Harry Sayre, the clerk, is always at his post, either of whom will attend to your wants with pleasure, answer your inquiries, and never allow you to depart until you are satisfied. Persons coming to the mill in conveyances will very soon find a long line of open sheds erected in the yard into which they may drive their teams. The shedding at present in position is occupied with arge amount of lumber on hand.

At the right of the entrance into the mill proper is the boiler room. Here a 30-horse power engine works away with lightning-like rapidity. To protect the visitor from approaching too near the heavy, fast-moving belt which connects with the other machinery of the mill, a neat railing has been constructed, and it would be almost impossible for a child to be injured here. This is a very comfortable apartment and is now prepared to receive a fresh coat of paint, which will make it beautiful as well as cheerful. Another little room leading from this is fitted up with a desk for the use of the moulder in drawing his designs.

The planing mill room, which is a large apartment 40x80 feet, is supplied with every kind of necessary machinery, and there seems to be always "more to follow. A planer, with a capacity of planing 20,000 feet of lumber per day, is steadily performing its work. It is soon intended to add another planer with an equal capacity, and which will plane both sides of the board at the same time. Then there is a machine called the "re-saw" for sawing strips in any desired thickness, a "pennoning" machine which cuts slats for windowblinds, &c., and a "moulding" machine, to which soon will be added another machine of the latter kind. These all perform their several parts in the work of the mill. Instead of sand-papering in the old way, a machine for that purpose is in position, which can do an immense amount of work in a short space of time, and can do t much better than if performed by hand. A surface of mirror-like smoothness can be put on the work when it is desired. Probably the most interesting part of the planing mill performance is the work done with the scroll saw on brackets and other ornamental objects. Figures of every shape are cut from the wood by a slender, spiral saw running back and forth in a perpendicular position. In such work it is necessary for the workman to approach with his hands very close to the saw, but woe to the finger that touches it, for, like the money you loan a magician, presto ! and it's gone. Much time and attention is dovoted to this part of the work and the articles already turned out testify to the skilled work put upon them. Yet another machine called the "panel raiser" is considered one of the most useful belonging to the establishment. It is found that the present room is not large enough to accommodate all the machinery and work to be done, and at an early day a 20x40 foot addition will be erected on the southern side of the present mill, making it half again as large. Into the new room all the work will be brought to receive its finishing touches. The mill will then be as complete in all its departments as can be desired. The work done is intended particularly to supply the wants of the home trade, while at the same time it is executed in a manner not surpassed anywhere. It will be found a great convenience to all as nearly everyone needs more or less planing-mill work done in the course of a year.

CENTRAL CHURCH, NEW YORK .- From the New York Observer, of the 8th of January, we are gratified to take the following account of the successful labors Rev. James D. Wilson, D. D., in his partorate of eleven years over the Central Presbyterian church of the city of New York. A large circle of friends will be glad to know how abundantly his work for the Great Master has been blessed. Many of our readers will recognize in Rev Dr. Wilson, one of the sons of the venera. ble Peter Wilson, of Spring Mills, numbered amongst the oldest, and most respected of the citizens of Centre county

On Sunday last, Rev. James D. Wilson D. D., preached his eleventh anniversar sermon as paster of the Central Presbyte rian church, New York. The followin anniversar interesting facts concerning the history the church were presented: The chur was organized Jan. 8, 1821, at No. 1 was organized Jan. 8, 1821, at No. 1 Eim street, with four members. It h had five pastors--Rev. Drs. Wm. Patte Wm. Adams, Augustus A. Wood, Jam B. Dunn, and the present pastor, R. Dr. Wilson--of whom all, except Dr. P. ton, are still living. The early service the church were held in a public ton, are still living. The early services of the church were held in a public school building on Mulberry street, for which a rental of \$200 a year was paid. This building was called by the city authorities the Central School House, and from this circumstance, no doubt, the church took its name of the Central Presbyterian church. At that time the pews were benches, and were rented. According to the records, Isaac B. Crane occuried temp the records, Isaac B. Crane 1, at the rental of \$4.21 per annun while Eleanor Demai occupied pew No. 12, paying 5.33 per annum, the higher rental in the building. In 1821 a church edifice was erected in

Broome street, east of Broadway, the congregation worshipped for for years. In the fall of 1866 the cor B years. In the fail of 1866 the con-tion removed up-town. On Jan. 1 the present pastor commenced his with the church. A new chaps built in 56th street, and dedicated N 1869. Here the congruenting sector 1869. Here the congregation rem till their removal to the new edifi 57th street, near Broadway, Oct 1878. During the eleven years of torate Dr. Wilson has not lost bath by illness. He has preached nons, made about 5.000 103 marriages, and attended 175 In this time there have been add church 470 persons, 166 of the sion of faith. Then the cong sion of faith. Then the congreg composed of 25 families; it nov 145 households. The contribu congregational purposes and for tion of new edifices amount to than \$125,000. The present bui very fine one, and or 57th street ble location on 57th street, near t The building was formerly the pr the Fifth avenue Presbyterian cl was generously given to the Central and removed by them from Fifth and 19th street. The church is fr-its mortgage debt. Elliot F. S Esq., is the Sabbath-school Superintender with 200 scholars; and the church is pro-Era perous in all its relations.

CHURCH FESTIVAL -- On Tuesday next the Lutheran denomination will give another of the pleasant festivals for which they have gained such a fine reputatio A dinner consisting of turkey, coffee and other good things will be served at noot In the evening a supper of oysters, cooked in different ways, will be given. Chicker salad and many other choice dishes will be on hand as extras. Experience has made the ladies of the Lutheran church perfect in the arrangement of these festivals. The present occasion will excel all previous sitempts. Be sure to attend as it will prove a rare treat.

and customers.

-One of the great benefactors of humanity is he who sells good groceries. In this day of adulterated articles no greater opportunity is offered anywhere for impure articles than in the line of groceries. Coffee, tea, sugar, everything can be mixed with foreign substances and although fine in appearance, are rendered worthless. People can purchase these articles from a reliable grocery firm such as S. A Brow & Son with the utmost confidence that they will prove to be all they are repre-

-The steady line of people who flow in and out of Sechler's grocery store and choicest piece of meat, and the best of know well where to go. It is to the store of H. Sechler & Co., in the Bush House block.

-Sechler & Co. stand first and foremost same honorable way, have advertised so liberally, that their very name has become a synonym of excellence. For the best of groceries, always patronize them.

-The planing mill dam was frozen over

A NEW YEAR'S WEDDING .- The nuptween Rev. J. J. Lohr, of Lock Haven, and Miss Emma Wise, of Zion, which occurred at the bride's residence in the latter place on New Year's day, are said to have been an event in the history of such occasions in Zion. At 3:80 o'clock the ceremony was performed before many invited guests. Rev. Young, of the Evangelical church, officiated. After the ceremony all gathered with the bride and groom about a generously laden table. Of ourse the Zion band came and contributed its part to the enjoyment of the occasion. After a brief but pleasant time spent in the company of the bappy couple, the friends separated. Mr. and Mrs. Lohr departed the following day on a protracted wedding tour. They were the recipients of many handsome presents.

GRAND MASQUERADE BALL. -- On Friday evening of next week, the 30th instant, the greatest event of the season in the ball line meat market is on the increase. For the will take place in Bush's Hall. No mas querade balls have been given in this everything in the grocery line, people place for a year or more, and therefore the news that Mr. John Sourbeck will give one in Bush's Hall, of which he is now in possession, will be hailed with delight.

No one knows better how to manage these

under the direction of L. T. Eddy, will for one or two days last week, and the give a concert in the Milesburg M. E. young folks improved the time in skating. church on Friday evening, January 28. with the same success.

useful Centennial Temperance Club, It tial ceremonies attending the union be- starts on its resuscitated existence with the following list of officers :

SPECIMENS OF IRON ORE .- Mr. John H. Barnhart, of Spring township, has laid upon our table a number of fine specimens f the iron ores found upon the Barnhart farm upon which he resides. The deposits of ore upon the property are undoubtedly extensive and valuable, and under the present demand for iron should be developed to an extent to make them highly emunerative to the owner. A couple of the specimens are what is called "needle" ore. They are very rich in iron, though we believe this variety is not usually found in least bedier in large bodies.

-We understand a change will take place in the enterprising and popular mercantile house of Harper Bros., of our town, by the retirement of Mr. Simon Harper, the youngest of the three brothers who a present comprise the firm. The business will be continued at the old stand by the remaining brothers, Jonathan and William, in connection with Jared, another brother, who will be given an interest in the new firm. Since the old firm began business it has had an uninterrupted career of prosperity, the reward of energy and honest dealing, and it is safe to predict that in the future the new firm will meet

The general superintendent of the yard department is Mr. James Sheridan. Mr. Robert Cole is the inside foreman, and Mr. William Kaspp works on scroll work. There are also several other skilled workmen employed about the mill. As the business of the mill continues to increase, and its capacity for doing work is enlarged, it will afford constant employment to a great number of skilled mechanics. The Phœnix Planing Mill, judged either in regard to its managers or the work it is turning out, is bound to be one of Centre county's most flourishing institutions.
