

Correspondence, containing important news, solicited from any part of the county. No communications inserted unless accompanied by the real name of the writer.

Local Department.

Yesterday was a lovely day. The new moon appeared last night. The latest style cashmeres, just received at Lyon & Co.'s. Everybody can smoke good cigars if they buy them of Harry Green. St. Patrick's day in the morning next Wednesday, 17th instant. The finest Nansook and Swiss embroideries, just received at Lyon & Co.'s. The commonest object that now we meet, is marble playing in the street. Lyon & Co. have just received the largest and best stock of shoes in town. Ex-Gov. Curtin was registered at the St. James, in New York, on Saturday last. The largest stock of embroideries just received at Lyon & Co.'s, from one cent per yard up. One of the secrets which people cannot solve is how Harry Green can sell the best cigars so cheap. Mr. Daniel Rhodes has recently made some improvements to the front porch of his dwelling house. The Centre Hall Y. M. C. A. held a public meeting last Sunday in the M. E. church of that place. Alfred Nichol, Esq., was in New York city last week, purchasing a fresh stock of goods for Valentines stores. The literary circle formed some time since at Pleasant Gap continues to hold sessions of unabated interest. Mr. George A. Chase and his son William, formerly of Coleville, have recently removed to Johnstown. If you want anything in dry goods, dress goods or clothing, you can save money by buying of Lyon & Co. A good morocco warranted shoe for \$1.10 at Lyon & Co.'s, which you had better see before buying elsewhere. Mr. James Wolfenden, of Lock Haven, called at our office on Saturday afternoon last. He is a courteous, pleasant gentleman. Mr. Chanfrau, who appears in Reynolds' Opera House on Tuesday night, is one of the best actors on the American stage. The Bohemian glass blowers, who exhibited in town last week, expressed themselves as highly satisfied with their receipts. Dr. Thomas R. Hayes exhibits his usual enterprise even in the work of making garden, and has already planted early potatoes. Rev. J. F. Delong, of the Reformed church, was taken suddenly ill on Sunday last and was unable to conduct his customary services. Rev. S. C. Swallow, presiding elder of this district of the M. E. church, is at present in Altoona, attending the annual conference. The officers of the Fifth regiment, National Guard, met in Tyrone last evening to transact business relating to military matters. Mr. John Sourbeck's successful effort in inducing Mr. Frank Chanfrau to visit Bellefonte is a fitting debut to his career as Assistant Burgess. Next Saturday evening, Prof. Abney, who has been training a class in music at Philipsburg, will give a concert in Potter's Hall at that place. Mr. Henry Kabelle, a former well known citizen and member of council from this place, on Tuesday last, removed his family to Altoona. Lyon & Co. have just opened the finest line of button shoes—every pair warranted—which it would be well to see before buying elsewhere. Mr. John Sourbeck deserves the thanks of this community for bringing such entertainments to town as "Kit, the Arkansas Traveler," on Tuesday night. Mrs. Jane Brown advertises a large amount of household furniture for sale from her residence near Valentines' Forge, on Saturday, March 20, at one o'clock P. M. The residence and school house belong to Miss Petrikin, on High street, have each recently received a fresh coat of paint, very much improving their appearance. Each Wednesday and Friday evening, meetings of a very interesting nature are held in the Episcopal church, of this place. The collections on Wednesday evening are devoted to Diocesan missions. Mr. W. Garberich, of near Linden Hall, has only one toe on his left foot. This is because he had the misfortune to cut the other four off while working with an axe, on the 25th of last month. Mrs. Mullen, widow of the late Felix Mullen, will soon move into the frame dwelling house next to Harper's store on Spring street, now occupied by Mr. George Marshall. It is at present being fitted up for her. Next Sunday afternoon, at 3 o'clock, Rev. John Hewitt, rector of the Episcopal church, will preach in the Ironworkers' building at Valentines' Forge. All the people of that vicinity are cordially invited to attend. On the 26th of last month Mr. Cyrus Brumgard, of Miles township, was married to Miss Dollie Emerick, of Centre Hall. Cyrus must have been a handsome bridegroom, and will doubtless make Miss Dollie an excellent husband.

Rev. R. Crittendon, of this place, has prepared Sabbath-school lessons suitable for the Sundays for which no lessons have been provided in the regular International series, and will send ten copies of them to any address on receipt of a three cent stamp. A short time since Rev. W. R. Whitney, of the Penn Hall M. E. Church, received a donation from his friends in Millheim. A large amount of the necessities of life and about thirty dollars in money were received. The donation proved to be very acceptable. For the very best grocers we recommend our patrons to the famous store of Sechler & Co. Mr. Sechler has dealt with the people of Centre county for many years and has gained their utmost confidence. He continues to offer special inducements to secure the people's patronage. Miss Lizzie Baumgardner, a well known and greatly esteemed young lady of Eagleville, died, of consumption, at her home in that place on Tuesday last week. For some time she gave music lessons in this place and was also organist for the Baptist church. Her funeral occurred on Thursday last. The Altoona Tribune publishes a complete list of the ministers and delegates present at the annual conference in that city, together with their place of residence while there. The abode of Rev. A. D. Yocum while in that place will be at the residence of Mr. A. P. McDonald, on 12th avenue. Brigadier General James A. Beaver and Assistant Adjutant General D. S. Keller have issued their orders to the various companies of the Fifth Regiment, appointing the time for the annual elections to fill vacancies. Company B will hold its election on the 20th instant, for the election of a second lieutenant. Rev. William Laurie, of the Presbyterian church, not having recovered sufficiently to hold his regular services on Sunday last, was assisted in the pulpit by Rev. Decker, a Baptist clergyman of Altoona. Although the sermons proceeded from the lips of one of a different denomination, they proved to be the same sweet story of Gospel truth, and were received with joy and profit. How well the name of S. A. Brew rhymes with all that's good and true. Especially is this so in the grocery line. Since Brew & Son's famous grocery store was first opened it has been the place of place for Centre county people, who really want the very best groceries, to buy. There is no place in this county where people can satisfy themselves so well both in price and quality as Brew & Son's. The down town grocers of Bellefonte, are Sechler & Co. Many stores have been opened in this part of the town and again closed, but Sechler & Co. continue in their old location. If the strangers arriving on the train glance at the sign of Sechler & Co. they know they are in Bellefonte, because Sechler's reputation is as world-wide as the town itself. The reason of this the people well know, and if they don't, they can find out by visiting the store. One day last week an accident which may have an agreeable result occurred to Mr. Simmons, of Spring township. For several years he has been afflicted with a very stiff leg, the result of white swelling, or some such disease. On the day mentioned, he was about to climb into a buggy, when he slipped, falling upon the injured leg. The ligament which bound together the leaders, causing the stiffness, was parted, and ever since he has been able to use his limb with all the freedom of former days. It was a happy accident. The residents of Upper Lamb street wish to and should be supplied with more coal oil street lamps. Although a pleasant street, it is woefully dark at night. A lamp has recently been placed before Mrs. Jacobs' residence and another before Mr. Richards', but Mr. Alec McCafferty and several other worthy citizens live about half a mile further out the street, and are tired of "ways that are dark." If council will allow a little more of its light, even if it be but coal oil, reflect in that direction, it will be entitled to the everlasting gratitude of that community. The weekly gathering of the Addisonian Club, on Saturday evening last, was an unusually pleasant and profitable occasion—the most interesting session the Club has held for a month past. The debate, "Resolved, That Chinese immigration should not be encouraged," was decided in the affirmative. The subject for discussion at the next meeting is, "Resolved, That the President and Vice President of the United States should be elected by the direct vote of the people." It will be conducive to the ultimate good of the Club if every member will endeavor to be present at each session. On Monday last a work of exquisite beauty was standing on the counter in the Bush House office, the production of the Bohemian glass blowers who exhibited in town last week. The groundwork was a silver sea of foam. Above this, upon the branches of trees, were perched birds of brilliant plumage. A noble ship was also riding upon the billowy sea. A glass vase covered this delicate and beautiful piece of workmanship. It was offered for sale at \$25, and would make a most superb, though costly, mantle ornament. We believe, it did not find a purchaser, and was taken away by the company.

Suddenly and unexpectedly on Friday afternoon last old Boreas blew a perfect hurricane. Ladies' chignons and gentlemen's hats were lifted from their heads. Some were recovered, while others were blown into Spring creek and are now swiftly floating toward Chesapeake Bay. Mr. John Sourbeck's bill boards fell before the blast. The wind concentrated itself on the rear of Joseph Brothers' handsome brick store structure and forced in the gable end of the building. The falling bricks were stopped by the substantial attic floor, and but slight damage done. Persons in the store, however, were greatly frightened and almost imagined for a short time that the entire building would come tumbling about their heads. A venerable tree near the M. E. church was prostrated. In the country considerable havoc was created, in Coalville almost every out building and fence yielding to the force of the wind. Between this place and Jacksonville, three large derricks connected with the ore banks have been blown down. We hear that a large cattle shed on the farm of Mr. John Woodward, near Howard, was also prostrated. It was a general March blow. I desire to call the attention of Centre county farmers to the fact that I am handling again this season Fitch's Onondaga Plaster, which gave such universal satisfaction last year. My sales then were unexpectedly large, but from the present outlook I expect them to be doubled the coming season. The manufacturer of this plaster claims that its quality is improving and that it now contains 19 1/2 per cent. more Gypsum than any other plaster quarried in the United States and will prove it by analysis, certificates, &c. On application I will send to any address, free of charge, an interesting little book on plaster, showing its discovery, introduction and use in the United States, and the comparative value of the different plasters as proven by the State Board of Agriculture. LAWRENCE L. BROWN. The Y. M. C. A. service on Sunday afternoon last, owing to the sudden illness of Rev. J. F. Delong, of the Reformed church, who had been appointed to lead, was conducted by Prof. John Mason Duncan. It is unnecessary to say that Mr. Duncan acquitted himself with even more than his usual ability. His exposition of the several passages of Scripture which he had chosen for the occasion, was exceedingly fine. Rev. Decker, of Altoona, also engaged in the service. Several of Bellefonte's best male singers were present, rendering the music much better than usual. Although there was but a slight attendance, owing to the inclemency of the weather, it proved to be an unusually pleasant meeting. The fact that Mr. Jacob Baker, of Howard, holds nine commissions as justice of the peace is just now attracting attention. His administration as justice covers a period of forty years, and he is still the popular candidate. Before he was elected justice of Howard borough he was a township judge, which accounts for his extra commission. It is seldom that men of such integrity can be found. A very succeeding term his fellow citizens vote for him, because they can trust him. All who wish the scales of justice to balance evenly over the affairs of that ancient burg, also wish for Mr. Baker a prolonged life and many more terms of office. A special term of court will be held on the second week of April, commencing Monday, April 12, 1880, at which the following cases will be tried: Bird Coal and Iron Company vs. Bellefonte & Snow Shoe Railroad Company. Alexander & Bower and Peale for plaintiffs, Beaver & Gephart for defendants. Robert Valentine et al. vs. Bird Coal Iron Company. Plaintiffs' attorneys, Beaver & Gephart; for defendant, Alexander & Bower. H. Brockerhoff's Adm's vs. Lewis Haas, Alexander & Bower for plaintiffs, W. A. Morrison for defendant. Messrs. J. H. Bauland and J. Newman, Jr., Esq's., are now on a trip to the large cities. Next to Grant, these two gentlemen will of course create the most startling sensation. For a few days the cities will be vying one with another to do them honor. They will spend a large amount of money judiciously while absent and will bring home with them a stock such as has never before been seen in Bellefonte. This will be displayed in the "Bee Hive" store, and will afford an excellent opportunity for those who desire to purchase the very latest spring and summer styles. Heavy folds of white ribbon hung from the tightly closed doors of Mr. Louis Doll's large boot and shoe establishment last Tuesday, bespeaking the deep grief which was occasioned by the death of some member of his household. Upon inquiry, we found it to be true—that his youngest child had, on the previous day, been stricken by death and carried by the angels to Him who said "Suffer the little ones to come unto me." The first of April approaches and people who intend to move are greatly delighted at the prospect! It is thought that a much larger number of persons than usual will change their place of residence. Those who do so will, as a rule, move from one house into another. Those who do not "fit" will continue to occupy their present abodes. We wish all of them joy.

Mr. Crowover, of Huntingdon county, who is about to engage in mercantile business at Pleasant Gap, yesterday took possession of the store room recently erected by Mr. Gottlieb Haag. He will have a fine stock, and will conduct his business with push and energy. It will be an excellent place for persons in that vicinity to trade. Last week we gave some particulars of a fatal accident that happened on the previous Saturday to Mr. Samuel Weaver, a young man who was struck by an approaching engine, while driving over McCool's crossing, near Spring Mills. We learn that the young man was a son of Mr. Joseph Weaver, of Gregg township. He was twenty-two years old. At the time of the accident he was returning from Spring Mills, where he had delivered a load of wood. His funeral, which was largely attended, occurred on the following Monday. An organization has been effected which is to be known as the Bellefonte Sportsmen's Club. The purpose of this organization is to see that laws applicable to the protection of game and fish are enforced. Mr. John A. Wagner has been duly appointed fish warden by the fish commissioner of the State, and is delegated to make any information which will lead to the arrest of any one who violates the law in this particular, and the organization above named have pledged themselves to assist in maintaining the law. J. D. GEISINGER, Sec'y. The following is the analysis of Onondaga Plaster as made by Dr. F. A. Genth, chemist State Board of Agriculture: Quartz and insoluble matter..... 7.50 Hydrous Sulphate of Lime (Gypsum)..... 56.11 Carbonate of Lime, Magnesia, Oxide of Iron, &c. not separated..... 16.23 100.00 This sample was taken at random from a bag in the possession of a dealer in Lock Haven, Mr. Geo. S. Good, and forwarded to M. C. Beebe, Esq., Vice President Pa. Board of Agriculture. This plaster is for sale in Bellefonte only by LAWRENCE L. BROWN. Only a few weeks remain ere the present term of the public schools will close. We believe it has been the most profitable term ever known in this place. The students and instructors have labored hard, and made remarkable progress. In the single branch of United States history, for example, we believe the students are as conversant, when they have graduated from our schools, as are our best lawyers or legislators. Winter has not yet given up his old and very objectionable habit of "lingering in the lap of spring," and with snow on Sunday and Tuesday last, seems to have a very comfortable resting place of it in the ethereal maiden's lap. But the fair dame will soon give him such a boost that he will be slow to return. The Bellefonte Sportsmen's Club, organized on Monday evening last, elected the following list of officers: President, George Valentine; Vice President, Harry S. Hale; Secretary, J. D. Geisinger; Treasurer, Theodore Deschner; Board of Managers, F. P. Green, S. T. Shugert, S. F. Foster and Thomas Burnside. The local editor of the Republican is among those individuals who have witnessed the "fifteen" puzzle brought into the correct combination, and yet cannot explain how it was done. Queer how easily folks will allow \$100 slip from their grasp. Mr. B. B. Kramer, of Lemont, was the victim of an unfortunate accident, while at Boalsburg, on Friday last. He was thrown from his buggy, striking the ground with such violence as to break his collar bone and bruise him considerably about the head and face. Remember Miss Josephine Kauffman's German school exhibition which will occupy the boards at Madisonburg next Saturday night. Its exhibitions at Millheim and Aaronsburg were the attractions of the season on the other side of the mountain and were greeted with crowded houses. Miss Flora Fox, step-daughter of Mr. Teller, of the Brockerhoff House, who created such a favorable impression during her stay in this place last summer, returned on Friday last. She has been spending the winter among friends in "Old Virginia." The stage of Reynolds' Opera House is to be beautifully carpeted in preparation for Mr. Frank S. Chanfrau and troupe, who will occupy the boards in the play of "Kit, the Arkansas Traveler," on Tuesday evening next. Tens of thousands are suffering to-day from kidney complaint without knowing what it is that makes them feel depressed and miserable. DAVIS' KIDNEY PAD is the remedy that will remove the cause of your sufferings. Mr. Samuel Royer, of Nittany Valley, owned a cow which weighed 1,670 pounds. He disposed of this dear little, delicate creature the other day, but who was the purchaser deponent saith not. MONDAY, January 5, 1880.—Our stock of woollens for the spring and summer season of 1880 just received. Leave your order now. Respectfully, MONTGOMERY & Co., Tailors. Mr. Samuel Foust, of Millheim, was in town on Tuesday, accompanied by a friend, and did not forget to call on us. He reports everything in a prosperous condition in his section of the country.

MISSION WORK AMONG THE LADIES.—A large number of ladies representing the Women's Foreign Missionary Society of the Presbytery of Huntingdon, met in the Second Presbyterian church of Altoona, last Thursday. It was the occasion of their annual meeting. Several ladies from this place were present, and the exercises, a portion of which we copy from the Altoona Tribune, were of great interest: In the morning the meeting convened and reports were handed in from the thirty-two societies and bands composing the presbytery. After organization an address welcoming the sisters who were in attendance from neighboring churches, was delivered by Mrs. Duffield, wife of the pastor of the Second Presbyterian church. This was responded to by the president of the meeting, Mrs. N. D. Orbison, of Bellefonte. Reports from the various societies were then read. From them we gather the following: The society is now in the fifth year of its existence. There has been a steady growth in the number of societies and young people's bands. Of the former there are twenty-seven and of the latter five. There has also been a constant increase in the yearly offerings, of spread the gospel in heathen lands. The first year the amount contributed was \$812.20; the second year, \$1570.12; the third year, \$1816.13; the fourth year, \$1980.63; and the present year, \$2239.85; making a grand total of \$8,518.03, contributed to the advancement of religion, which would not have been obtained in any other way. An interesting paper was read by Miss Stewart, the Secretary of the society. Mrs. Ogden, a returned African missionary, gave them a very attractive description of the natives. She had with her the full costume of a native African, and all her hearers seemed to be of the opinion that it was more for show than for protection from the weather. All of the officers of the society were elected to serve for the ensuing year. They were, President, Mrs. N. D. Orbison, of Bellefonte; Recording Secretary, Mrs. Wm. P. Wilson, of Bellefonte; Corresponding Secretary, Miss C. W. Stewart, of Coleraine; Treasurer, Mrs. William Russel, of Lewistown. Seven Vice Presidents were also elected. In the evening the church was filled with ladies and gentlemen to hear an interesting lecture by Rev. Mr. Duffield. All the exercises were greatly enjoyed. GORE WEST.—Tuesday morning of last week was called the "Exodus day" by the people of Millheim. The reason was because forty-one persons from that vicinity thought it best to obey the sage counsel of the immortal Horace Greeley, and on that day had gathered at Coburn station to board the train for the Great West. Not only they, but all their kin and friends had come also, and made one of the largest and most mournful assemblies ever gathered at that station. Those who departed to make their future abodes in western homes are as follows: Mr. P. B. Stoyer and family, and Mr. J. A. Bowersox—ten persons in all—went to Pleasant Valley, Lincoln county, Kansas; Mr. Harry Hinkson and family, Mr. Ambrose Vonedea and Mrs. Rachael Young—sixteen persons—all to Rosetta, Lincoln county, Kansas; Mr. Jacob M. Harter and family and Mr. John M. Harter—nine persons—to Tipton, Morgan county, Missouri; Mr. E. R. Wolf and family and Mr. George W. Sharp—four persons—to Carthage, Jasper county, Missouri; and Mr. E. W. Mauck, to Freeport, Stephenson county, Ill. HIS EARTHLY LIFE ENDED.—Last week we made passing notice of the severe illness of Mr. Jared Struble, of Pleasant Gap, who was seized with an attack of pleurisy about three weeks since. Notwithstanding the constant care of physicians and friends, Mr. Struble continued to grow worse until his death on Friday afternoon of last week. The deceased was forty-four years of age. He was a gentleman with whom, either as a friend or citizen, it is painful to part. As one of the most esteemed citizens of Pleasant Gap, his death is a loss to the community. His wife and three children have been called upon to part with their best earthly friend, and it will be many days ere the separation shall cease to give pain to them. He was a consistent member of the Lutheran church and an earnest Christian man. His end was peace, and the memory of his life will always be held in pleasant recollection by all who knew him. THE GAME OF FIFTEEN.—"Fifteen" has now become the "perfect" number in America. Almost every family in this place possesses a set of the new and mysterious game, and are puzzling their brains to solve the problem. Notwithstanding the almost infinite number of combinations the blocks may assume, many of our lady friends, according to their own testimony, have easily made them take the proper form, but, strange to say, they can never do it before witnesses nor explain how they did it. Consequently, they cannot secure the hundred dollar prize. The game may be bought for fifteen cents, or a home-made set may be easily manufactured. BELLEFONTE, March 5, 1880. The annual meeting of the stockholders of the Bellefonte Library Association will be held at their rooms on Monday, April 5, 1880, at 7 1/2 P. M., for the purpose of electing a Board of Managers for the ensuing year and for any other business that may come before them. JACOB V. THOMAS, Sec.

A NEW RAILROAD.—Mr. James Wolfenden, of Lock Haven, sends us the following letter for publication, which will be of interest to farmers living on the line of the proposed new railroad: LOCK HAVEN, March 8, 1880. EDITORS SHUGERT AND FOSTER:—While in your place last week, I met with a kindly reception from your townsmen, but as you were absent, I must write what I would like to say. I am thoroughly convinced that the inhabitants of Centre county are ready and willing to aid industrial and public enterprises. I am at present advocating the construction of the Nittany and Sugar Valley Railroad from White Deer Mills to Bellefonte and Milesburg. To do this and to attract capitalists, it will be necessary for the property owners along the route to donate free roadway ten yards wide, according to the railroad yard hereafter to be made. If the chosen route shall approach within twenty yards of a building, of course the company shall have the right to pay for the removal of said building. An arrangement of this kind would provide the amalgam to unite capital, and the wealth now lying idle, and give the county that commercial prestige, with which nature has so lavishly endowed it, but which has thus far been but poorly improved by its inhabitants. Its crude charcoal iron production would provide remunerative employment to eastern and western artisans. If carrying coal, it would connect anthracite and bituminous coal fields twenty-two miles nearer, through beautiful agricultural and mineral valleys, and would be on a line with the Catawissa, Reading and Central railroad, and New Jersey and New York markets would be ninety-seven miles nearer than via of Harrisburg route. Then it would afford an outlet for Snow Shoe coal, at Springton in New York city. This quality of coal is used for rolling mills, forge and marine boilers in preference to anthracite, now selling at \$4 per ton. Respectfully yours, JAMES WOLFENDEN. THE DRAMATIC SENSATION OF THE SEASON.—The citizens of this place will now have the opportunity of witnessing one of the best actors on the American stage perform in a thoroughly American drama, written expressly for himself. It is by mere accident that the distinguished organization, which will appear at Reynolds' Opera House on Tuesday evening next, have decided to come here. The troupe were disappointed in effecting an engagement at Altoona, and having a spare evening, accepted Mr. John Sourbeck's proposal to give Bellefonte that evening. Mr. F. S. Chanfrau, the star actor of the troupe, is well known to the drama-loving public throughout America, and he is supported by a large and first-class company. The finest apartments in the Brockerhoff House are being fitted up for the entertainment of Mr. Chanfrau and his lady during the time they spend in this place. The hall will be renovated for the occasion, and a carpet is being laid on the stage to prevent the beautiful costumes worn by the troupe from becoming soiled. That a first-class audience will be present is certain, as many of our best citizens have already applied for seats. Mr. Sourbeck says he does not expect this engagement to be of any pecuniary benefit to him, but it is his desire to give Bellefonte a first-class entertainment. Regarding Mr. Chanfrau's rendition of "Kit, the Arkansas Traveler," in Boston, the Daily Globe says: To open the Boston Theatre without F. S. Chanfrau's Kit, would be something Boston people would not relish, and it is doubtful if without it the theatre-going public would consider the season regularly commenced. At least this is the way it appeared last evening, by the audience that completely filled the vast building. The sign "Standing-room only" was early displayed, and when the curtain rose, applause long and loud greeted the well-known face and form of the happy backwoodsman, with his coon skin and rifle, and when he changed these garments for those of civilization, the applause was not lessened. To speak of the plot of the play would be useless and uncalled for, as it is probably already well known, for while there are doubtless many who have never seen the play—and right here it is proper to say, "do so"—they have read or been told of its details, of its ruined home, the "Little Difficulty," and that famous game of poker. Notwithstanding his travels and little of the wear and tear of time, and his personification of a man never before. Without detracting from Mr. Chanfrau in the slightest, it is a question which attract the most attention, "Kit" or "The Two Beasts," the "Judge" and "Major." The highest compliment that can be paid is to say that if they should attempt the same on the street that they perform on the stage, their appeals would never go unheeded. Philadelphia Markets. PHILADELPHIA, March 9, 1880. FLOUR.—There was a dull, weak and practically level market for nearly all grades of both winter and spring wheats, though current asking prices were nominally unchanged. The sales reported comprised only about 1,000 barrels, including winter extras at \$5.65 to \$6.00 quality; Pennsylvania fair and choice family at \$5.25 to \$5.75; Ohio and Indiana do. at \$5.00 to \$5.25; Minnesota, Dakota's extra at \$5.25 to \$5.75, and winter and spring wheat patents and high grades \$7.25 to \$8.25, as to quality. WHEAT was fully in. We quote for local milling nominally at \$1.40 for mixed, and \$1.30 to \$1.40 for prime red and amber, and note sales of 5,000 bushels No. 2 red, April, at \$1.43. Bellefonte Markets. BELLEFONTE, March 11, 1880. QUOTATIONS. White wheat, per bushel..... 1 30 Red wheat, per bushel..... 1 20 Rye, per bushel..... 60 Corn, 60 bushels..... 40 Oats..... 40 Flour, retail, per barrel..... 7 50 Flour, wholesale..... 7 00 HAY AND STRAW. Hay, choice timothy, per ton..... \$ 15 00 Hay, mixed, per ton..... \$ 10 00 Long rye straw, bundled, per ton..... \$ 5 00 Short straw, per ton..... \$ 3 50 Provision Market. Corrected weekly by Harper Brothers. Apples, dried, per pound..... 10 Currants, dried, per pound, seeded..... 8 Beans per quart..... 4 Fresh butter per pound..... 25 Cheese per pound..... 20 Country hams per pound..... 12 Hams, sugar cured..... 12 Lard..... 6 Eggs per doz..... 15 Potatoes per bushel..... 15 Dried beef..... 15
