Pay and Appointment of Deputy Marshals.

The Senate on last Friday passed Mr. Bayard's bill regulating the pay and appointment of deputy marshals. It now goes to the House, where it will be considered and passed this week. The following is the text of the bill:

Be it enacted, &c., that from and after the passage of this act the pay of all depu-ty marshals for services in reference to any election shall be \$5 for each day of actual

JUDGE WALLACE, late Chief Justice of California, eminent as a judicial officer, is also a Democratic politician of rare ability and large experience. He very ardently favors the nomination of Judge Field as the Democratic candidate for President, and is now in Washington, with the view no doubt, of advancing the interest of the Judge to a favorable consideration at Cincin-

nati. Speaking of California, he says: "Field can carry that State and that coast with a whoop. We are all for him. California will send a solid Field delegation to Cincinnati, but his friends do desire formal instructions. We feel very well disposed toward Mr. Tilden, but he would be weak in the Pacific States. We also doubt his ability to carry New York and certain Southern States. Judge Field, however, would unite the party from San-dy Hook to the Golden Gate and the vic-tory in November would be as certain as his nomination in June. I have been his nomination in June. I have been gratified and astonished by the numerous evidences of his growing strength which I have observed as I came East, and the people of California will rejoice when they realize it." SENATOR JOHN A. LOGAN, under the immediate eye of the "Old Commander," has proved himself fully equal to any of the lieutenants in command of the "third-term" war in the Republican ranks. Having defeated the Mulligans in Illinois, he can now give his hand and claim equal rank with our Don and the shot-gun hero of New York, not only for forcing success under difficulties. but in the methods used to obtain it. The Mulligans and their allies are suppressed, and the Duke is placed in supreme command of the situation. Now it is in order to boost the Em. pire and give full development to the real object which supporters of a "strong government" under Grant have in view.

The Vote. The first vote taken in Congress in the Curtin-Yocum case was upon an amendment to the resolution offered by the minority of the committee declaring Mr. Yocum entitled to the seat and Mr. Curtin not entitled thereto. A division of the two branches of the resolution was called for by Mr. Springer, who moved to insert the word "not" in the first branch, which would make it read that "Seth H. Yocum is not entitled to retain his seat.' yeas and nays were taken, and it was ning to No. 237 : decided in the negative-yeas 75, navs

NEWSPAPER OPINION.

Ever since the forty-sixth Congress

om the American Volunteer, Carlisle

met, the country in general and Penn-sylvania in particular have been regaled with a perpetual discussion by the poitical newspapers of the contested lection case of Curtin against Yocum. he case is from the twentieth congres onal district of this State, a district hich prior to the fall of '78 was as trongly Democratic as our own is, yet to the surprise of everybody, in the istrict and out, Yocum, the Green-ack Republican candidate was return-d as elected over ex-Gov. Currin, the egular Democratic nominee. This was ach an unexpected, unnatural and uneasonable result that the modes of ecuring it were investigated, and abunant cause for a contest shown up, and urtin accordingly carried the contest to the House of Representatives, where hung fire in the committee on elec ions until last January, when it was eported to the House for the first, but as not reached until the 7th inst., hen Mr. Beltzhoover, the able young epresentative of our own district pened the debate upon the report. e reviewed the case in a thorough and nalytic manner, and produced unan-werable arguments in favor of the contestant, but when on Tuesday the vote was reached, Yocum was seated by a vote of 113 to 75. This was accomplished by the vote of Republicans and Greenbackers, with the following Democrats: Messrs. Aiken, Berry, Bouck, Bright, Caldwell, Chalmers, Felton, Henkle, Hostetler, Mills, New, O'Reilly, Henkle, Hostetler, Mills, New, O'Reilly, Richardson, of South Carolina, Rich-mond, Singleton, of Mississippi, Ste-phens, Stevenson, Tillman and Wright. This is certainly not gratifying news to the Democrats who have been Demo-crats ever since before the war, and who visually remember with what also who vividly remember with what alacrity the Republicans in Congress un-seated Democratic members, no matter by what majority put there, and their Republican competitors seated, no mat ter how flimsy and contemptible their reasons for a contest. Were the Demo-crats at all disposed to mete out to the Republicans the same arbitrary treat-ment that in the past they have received, the House would be Democratic by a two-thirds vote, for every Demo-crat who would come before Congress with the ghost of a case, would be rail-roaded into his Republican competitor's seat to help swell the majority.

From the Harrisburg Patriot.

The Centre DEMOCRAT, a hebdomadal for which we entertain feelings of the profoundest regard, takes us to task in the following cruel style :

the following cruel style: "We are sorry to observe our friends of the Harrisburg *Patruot* have far less indig-nation to expend upon the twenty demo-crats in Congress who basely betrayed Governor Curtin and the democratic party, then it has for the inconsidents democratic than it has for the inconsiderate denuncia-tion of the 'Confederate Brigadiers' by the Philadelphia Times. The Patriot con. edes the justness of Governor Curtin's case and admits that he should have been seat-ed. There can therefore be no valid excuse for the treachery of those reputed demo-crats who voted against him, but notwith-standing this, we are deeply grieved to note that these unfaithful men are treated by that journal with the most considerate tenderness, while it is unreserved, at the same time, in its condemnation of the mistaken zeal of the Times."

We are sorry that our friends of the DENOCRAT are so hard to please. While the Curtin-Yocum contest was pending the Patriot did its full duty as a fair and candid journal in advocating the claims of Gov. Cartin to the seat. In order to of Gov. Cartin to the seat. In order to come to an honest conclusion that Gov. come to an honest conclusion that Gov. Curtin was justly entitled to the seat a careful examination of the voluminous testimony in the case was necessary. The *Patriot* devoted much time and patience to an investigation of the matter and finally was glad to be convinced that Gov. Curtin's case rested on a solid foundation. But the *Patriot* has for many years denounced the practice of finally was glad to be convinced that Gov. Por-tions of the building were erected as early as 1852, and the entire structure was comrepresentatives of its own party for acting independently when sitting as judges in an election contest. We do as 1852, and the entire structure was com-pleted in 1858. The original cost of the building was \$60,000. The students have for the last seven years published a month-ly paper called *The College Herald*. The Academy connected with the insti-tution was opened on the 5th of October, 1846, as the Lewisburg High School, by Prof. Taylor and his son, in the basement of the old Baptist church, under the pres-ent site of Music Hall, South Third Street. In the original plan of the University not care to assist in introducing republican methods into democratic practice in the settlement of contested elections. On the other hand we regard it as a source of congratulation that the record of the democratic majority in Congress on the subject of election contests is entirely free from that taint of partisan-ship which caused the republican party In the original plan of the University at Lewisburg, a Seminary for young ladies occupied a prominent place. The new department was opened as the "University Female Institute." to become a stench in the nostrils of the people. We neither defend or con-demn the action of the democrats who orted against the report of the majority of the committee of elections in the Curtin-Yocum case. We think they erred in judgment, but it would be un-fair and indecent to charge them with Female Institute." All students are expected to attend daily prayers in the chapel. The case turned on the construction of cer-tain provisions of the constitution and laws of this state relating to the regis-tration of voters. The majority of the committee on elections contended that the law requiring the registration of the voter and the making of certain proof of the right to vote in case of non-regis-tration, is mandatory. The minority claimed that the law is not mandatory, but simply directory. The havyers of the house disagreed in regard to this point, though in our opinion the views of the majority of the committee as presented by Messrs. Beltzhoover and Ryon of this state are undoubtedly cor-rect. But the case was determined by -Mr. A. G. Noll, of Pleasant Gap, has rented the shoe shop on High street recently vacated by Mr. L. Those having worn-out soles or who are in need of new coverings for on Mr. Noll. rect. But the case was determined by this point of law and it would be height of absurdity to denounce even a con-federate brigadier for having his own opinion on a legal question about which the best lawyers differ. Sunday.

Hon, F. E. Beltzhoover, of this Con gressional district, on the 8th inst., made a legal argument, as a member of the Committee on Elections, on the Curtin-Yocum contested election case from Pennsylvania, in the House of Representatives, which has been most favorably commented upon by a number of influential journals, (as will be seen by one of our Washington letters,) for its thorough vindication of the claim of the contestant to the seat now occupied by Yocum. This speech is said to stamp Mr. Beltzhoover as one of the ablest lawyers of the House; and being one of the youngest members of that body, he may in time become one of the most useful. Under the circumstances this district is to be congratustated in its representative, and will do itself credit in nominating him for another term, which it is generally conceded he is entitled to.

From the Clearfield Republican

We have 291 members of Congress We have 291 members of Congress sitting at the Federal Capitol, voting and drawing pay, and yet when the im-portant case of Cartin vs. Yocum came up for settlement the other day the vote stood: Yocum, 113; Cartin, 75; absentees, 103. This vote smacks of as much corruption as was practiced at the polls during the election, and must the polls during the election, and must recorded and considered by all hon orable men as equally as damnable. The Congressman absent on this occa-sion is just as guilty of heinoas crime as the man who bribed the voter at the polls. Under all the circumstances, how conclusive the fact that hell is a military necessity, for the purpose of punishing criminals who sin against ociety.

m the Doylestown Democrat.

The Curtin Yocum contest in Con-gress, came to a final vote on last Tuesday, and resulted in seating Mr. Yocum, who is a Greenbacker, by a vote of to 75. Several Democrats, and all the Greenbackers voted against Curtin and for Yocum. We have always believed, and still believe, that Cuptin was hon-estly and legally elected, and we consider the vote, giving the seat to Yocum, great injustice to Governor Curtin. The Democrats of that district owe it to themselves to vindicate this unjust decision by re-nominating and electing him. next falls If a Democratic Congress will not do justice in such a case, let the Democrats of the Centre district see to it that they do it.

LEWISBURG UNIVERSITY .-- Master Jno. B. Furey, a young gentleman from Pleasant Gap, who is now attending the University at Lewisburg, writes an interesting letter to a friend at his home about that institution. As it is the Alma Mater of of many persons from Centre county, a few sentences from his letter may be found interesting :

"The name by which the institution is egally recognized and generally known is The University of Lewisburg, Penn'a."

This name was given to it simply because of its location at the town of Lewisburg. The University is empowered to grant to its students and to others deemed worthy such degrees in the liberal arts and sciences as are usually granted in other universi-ties. The Philadelphia and Erie rail-road neares by the place on the cest ide of road passes by the place on the east side of the river. On every account Lewisburg seemed as well adapted for the location of the University as any place that could be selected within the borders of the State. The institution is situated on the south side of the town, not far from the river, in a grove of native growth, on a hill of modest elevation, which commands a fine view of the country for many miles around.
