AGRICULTURAL.

NEWS, FACTS AND SUGGESTIONS.

THE TEST OF THE NATIONAL WELFARE IS THE INTELLIGENCE AND PROSPERITY OF THE FARMER.

Every farmer in his annual experience discovers something of value.

Pig Farming—A New Departure.

Reported for the Tribune.

The pig-party at Kirby Homestead was a practical idea. It was also a pleasant social occasion, where friends from the city and country met.

FRESH MEATS.

We are killing stall-fed steers from 1200 to 1400 lbs., and have positively the

BEST MEATS

that are offered for sale in Centre county.

SECHLER & CO. GROCERS.

Bush House Block, Bellefonte, Pa.

NEW ENTERPRISE.

ALEXANDER & CO.,

AGRICULTURAL IMPLEMENT

—AND—

SEED STORE,

BELLEFONTE, PA.

They mean by this all the name imports, that is, to deal in and to furnish to farmers at the

lowest possible price everything in the shape of an agricultural implement that farmers use, including

SEEDS of all kinds.

At present we have on hand and are the authorized

agent for the sale of the SYRACUSE CHILLED

PLOW, made at Syracuse, N. Y. It is the best chilled

plover made; also the Keystones and iron beam

plovers made at Centre Hall. No better plow than

these can be had for the same amount of money.

Also the Centre Hall Cornplanter. We need say nothing

about the merits of this planter, as the 2000 now in

use in Centre county demonstrates them to be the best.

BARROWS and CULTIVATORS of the latest im-

proved patterns.

MOWERS, REAPERS and GRAIN BINDERS.—Of

these we have the Osborne either as separate Mowers,

Combined Reapers and Mowers, single Harvesters, or

as Combined Reapers and Binders.

THE WHEELBARROW, No. 5, is a combined machine, is

the best machine of the kind in the market.

THE GREATEST IMPROVEMENT OF THE AGE is the

Northwestern Gleaner and Binder. Call and see

it. It is wonderfully perfect.

Any boy twelve years old, with one horse, will side

and bind all the grain that any Reaper will side

and bind. It is not only simple but gives, and

will save the price of the machine in one year, by

taking up from the stubble that which is now lost.

THE McHERRY GRAIN DRILL, either with or

without crossbar, with or without fertilizer and

seed sowing attachments. It is the best grain drill

for all purposes in the market.

THE GRASSER, TRIPPER and SEPARATOR.—

The reputation of this machine is so well established

that we can say nothing about it that the people do

not know. Any person wanting one, or in need of

repairs for these now in the country, please call.

HEBNER'S PATENT LEVEL TREAD HORSE

POWER, for one and two horses, with Patent Speed

Regulator, Light Giant Thrasher and Cleaner.

VICTOR CLOVER HULLER. Sole agents for Centre

county.

WAGONS, CARRIAGES, BUGGIES and PIETONS.

WE are agents for the sale of the celebrated CORN-

where they have all they can eat, will fatten them. He tried this experiment the year before, and found that pigs in a turnip field had gained fine condition.

Storing Vegetables.

From the American Gardener.

To enjoy palatable and wholesome vegetables during the winter months, proper care and attention are just as essential in harvesting and storing as in cultivation.

Chopped Hands.

From the American Agriculturist.

The raw winds of late autumn often produce in the hands of those who are much exposed to them that roughness and cracking of the skin known as chapping.

Regularity in Feeding.

From the National Live Stock Journal.

All feeders who have studied the habits of the animals they feed, have discerned that they take special note of time. It is a cardinal point to observe great regularity in time and quantity for feeding sheep.

Truth About Corn Fodder.

If corn is cut up early, and when the weather is very warm and continues so for any length of time, the fodder will be about as good as so many dried sticks.

ter than when the stock and corn is very green—with the understanding that no corn is to go with the fodder.

Fall Ploughing.

W. F. Brown in Practical Farmer.

My experience with fall plowing has been so favorable heretofore that I am intending to do what I can in that line this fall. I would not advise fall plowing on clay lands that were so flat that the water would stand on them during the winter, but on land underdrained, or with good natural drainage, I am convinced that fall plowing is of great advantage.

Petroleum on Wood and Flesh.

One of the wisest and simplest economies is that of using crude petroleum as a means of preserving the coarser structures, implements, fence-material, etc., which are unavoidably and largely exposed to sun, wind and rain in the out-door operations of a farm.

Fultz Wheat—Thin Seeding.

From the Rural New Yorker.

We may now report the results of our experiments with Fultz wheat. One plot, 33x33 feet, was sown in drills 12 inches apart—seeds dropped two inches apart.

Oats or barley are sometimes sowed with wheat to protect it against the severity of winter, usually sown broadcast before drilling, but I do not approve the practice.

The interest in our gardens need not, and should not, cease with the first frosts and the harvesting of our crops. The clearings and improvements, which can now be made, better and easier than at any other time, and the preparations for next season, offer to the gardener as much enjoyment and pleasure almost as the planting of flower beds, and the cultivation of growing plants.

Consumption

POSITIVELY CURED.

ALL sufferers from this disease

that are anxious to be cured should try Dr.

KISSNER'S CELEBRATED CONSUMPTIVE POW-

DER. These powders are the only preparation known

that will cure CONSUMPTION and all diseases of the

THORAX AND LUNGS—indeed, no strong is our faith in

them, and also to convince you that they are no humbug,

we will forward to every sufferer by mail, post paid,

a FREE TRIAL BOX.

We don't want your money until you are perfectly

satisfied of their curative powers. If your life is worth

saving, don't delay in giving these Powders a trial, as

they will surely cure you.

Price, for large box, \$3.00, sent to any part of the

United States or Canada, by mail, on receipt of price.
