THE STATE COLLEGE. - In the Senate one day last week Senator Alexander presented a memorial from the trustees of the State College asking for the appointment of a committee of the Legislature to investigate the affairs of the College. The paper provoked considerable discussion in relation to the institution, but a resolution granting the request of the memorialists was finally adopted. The same resolution also passed the House and of course a committee will be named for the purpose indicated. On the part of the Senate this committee will consist of Senators Alexander, Norris, Holben, Mylin and Newmeyer. The names on the part of the House have not yet been announced. We trust that the committee will be a fair one, that the investigation will be thorough and impartial, and that all disputed questions in regard to the College will be fully determined by the report to be presented to the Legislature at its next session.

But when we allude to fasting it is interesting to note that there is no temptation to fast when near such a grocery store as that of Sechler & Co., of this place. Try that

store and be convinced. -A frightful runaway occurred about half-past four o'clock last Saturday afternoon. A valuable team of horses belonging to Mr. Perry Gentzel, of Zion, and attached to a heavy wagon, broke from street at a rapid rate. They turned the corner near Allegheny street and plunged into the midst of the numerous vehicles always occupying that street on Saturday afternoon. Before they could be stopped the wagon came in contact with two ve st Saturday morning and proceeded at hicles, considerably damaging both. They were checked near Hicks' Brothers hard. ware store. No personal injury occurred.

CONSTANS COMMANDERY. - THE SIR KNIGHTS RECEIVE THEIR GUESTS AND Knights composing Constans Commandery K. T., of Bellefonte, wended their way to the head-quarters of that organization, last Tuesday evening, to witness a ceremony which was new to nearly all-the installation of the recently elected officers. The Commandery apartments are located on the third floor of Bush's Arcade building, and when the bidden guests had reached that lofty height, they were ushered into the beautiful apartment used -Mr. William P. Dunean, president of Sir Knights, clad in the beautiful regalia | Emily Natt, who officiated as god-mother, the Philipsburg bank and prominently peculiar te that order, received their guests and the rector, Rev. John W. Hewitt, and by half-past 7 o'clock the entire audience was seated and the ceremonies began. The programme of exercises consisted largely of music, and the mere mention that this was performed by the Misses Lyon and Messrs. Blanchard and Bradley is sufficient to show that it was well executed. We have not space to give the ceremony in detail. Suffice to say that it was striking, impressive, deeply mysterious and of a highly religious order. Sir F. P. Green presided as chief installing officer and Sir S. Durbin Gray acted as escort, both Sir Knights performing their parts in a courtly and elegant manner. on marshalled the valiant Sir Knights, issuing his numerous orders with much precision and authority. But when the Rev. The following is a pen-picture of the street parade of the Circus Royal, which will be in Bellefonte on Wednesday, the 27th instant: "A solid mile of brilliant scarlet and gold artistically-wrought chariots, cages, dens and tanks, elegantly embellished by renowned masters, with historical, allegorical and Biblical paintings, of unusual beauty and interest, conveying to nificent elegance rolls upon its pathway, that we have reached, within a hundred years, huge events, and that our country is "revolving in splendor" and "excelling in grandeur" the gorgeous period of pageantry that existed in the days of the Roman empire, more than eighteen hundred years ago. Now, in the 19th century, comes the admiration and wonder of the world. The great Electric Light, with its motivepower, a gold, silver and nickel-plated real steam fire engine, the entire cost of which was \$25,000, will make one of the many attractions that adorn this grand street pageant. Following, will be the train of massive golden chariots and brilliant equipages of the entire cavalcade, with open dens of living wild carnivorous beasts Mardi-gras, in representative character of the beasts, birds and reptiles of the earth, sea and air in colossal proportions. These will be followed by "The Gigantic Indian Monarch, Empress," a war elephant, over one hundred and thirty years old, weighing six tons, and nearly twelve feet in height, worth \$30,000 in gold, (more than the entire ten pigmy elephants spoken of else where). This living mountain of flesh-'a Goliah of the Pachderms"-is a single feature alone worth one hundred miles of travel to witness. No one should besitate to bring the family to witness one of the most superb sights ever seen by mortal man. Come early. Don't fail to see it !'

AN INFANT BAPTIZED .- It was reserved for Mr. William Jones to prepare the ARE INDUCTED INTO OFFICE. - In re- most impressive service which took place sponse to the receipt of elegantly printed in the Episcopal church on Easter day cards of invitation, the friends of the Sir On the afternoon of that day he presented his infant son for the solemn sacrament of baptism, and made all the arrangements in a manner that could not fail to attract attention and elicit admiration. The Sabbath-school scholars and a large number of adults assembled to witness the ceremony. The party that gathered around the flower-decked baptismal font consisted of Capt. Breeze, son-in-law of ex-Gov. A. G. Curtin, and Roland C. Irvin, who acted as sponsors; Mr. Jones holding the on this occasion as an audience room. The crowing infant in his paternal arms; Miss who performed the baptismal office. It will be observed that the three lay gentlemen named are all accomplished sailors, Capt. Breeze and Mr. Jones having had an extensive experience as mariners, and Mr. Roland Irvin being an ex-cadet of the American navy. With the natural propensity which every lively American lad develops to follow the sea, supplemented by such influences to mould and direct his future life as these three gentlemen will exert, it will be remarkable if he does not also become a sailor. As if to cap the climax and make fate more certain, the roguish infant received the famous name, ing Eminent Commander Sir L. T. Mun. Mr. George Wolf demonstrated that he is most proficient in this respect and found close rivals in

Gillespie, who died on Sunday evening, the 10th instant, at the age of 75 years. On the following Monday he was interred in the Friends burial ground in this place. He was sincerely respected by all who knew him and his familiar figure will be missed from our

THE GREATEST BLESSING .- A simple, pure, harmless remedy, that cures every time, and prevents disease by keeping the blood pure, stomach regular, kidneys and liver active, is the greatest blessing ever conferred upon man. To April glides the changing year,
The month which laughs amid her frown;
Now on her lids there hangs a tear,
Or weltering showers the meadows drown;
Then half a smile the earth cheers up,
And nectarous draughts the sunbeams quaff
From the young blossom's brimming cup;
Or, with one universal laugh,
Nature's young, glidy scions shout,
Birds scream from out the dancing trees;
And blose-yed violets wink about,
And toss their odours on the breese;
The gurgling streams suck in the springs,
And seem to leap along more fleet;
As on the rocky pathway rings
Sound of their twinkling silver feet;
The grass steals forth with face all wan,
By the life-giving sun beguiled,
To see if surly March is gone—
All Nature, like a new-born child,
Leaps on its fruitful mother's iap,
To win by its innoxions wiles—
If such a gracious thing may hap—
Its great Creator's golden smiles;
For there's a glory in the hour
Bayond what e'en the sun can lead,
Beyond the grass and opening thower,
A something in which heaven must blend.
