-This business of a comet striking the earth and knocking things all to smash, is bosh. Ever since the world began its revolutions, and that is a very long time ago, comets have had a chance to dash against it but they didn't do it nary time. It's not likely now that they have become acquainted with each other, that they are going to start a general row and try to give the earth a black eye. Professors of astronomy are always hatching up impossible things, and trying to scare old women with astronomical prognostications. This earth is a pretty tough old fellow and has stood a good deal of shaking up in its day. It is not going to stand much fooling, and if a comet comes near enough it may get its tail set on fire. Let those erratic wanderers keep at a safe distance.

-Mr. James Steel, of Benner township, met with a sad and painful accident on Thursday last. Mr. Steel, who is a farmer near Pleasant Gap, went out upon the nountain for a load of wood and was proceeding on his return home, when the sled upset and it is believed the wood fell upon him, but Mr. Steel being severely injured with a dislocated shoulder and painful wounds on the head became unconscious and it is thought laid several hours in this situation, is incapable even now to account for the accident. But he eventally wandered home in a demented state, leaving the team on the mountain, when, with much difficulty, his dislocated shoulder was reset and his wounds dressed. He is now recovering slowly.

PLEASANT GAP JOTTINGS .- Our minor officers who were so hilarous over the results of the County Auditors are now looking a little crosseyed, as some of them are afraid to show itemized accounts of their last year's business transactions relative to two following days. Be careful, for chickens will come home to roost, and there is a pretty general opinion that some of your actions were a little crooked last year, and it is proverbial that we are all more or less likely to go astray when handling public funds. Mr. Bell, the retiring Poor Overseer, has been showing Mr. Joseph Ross, his accessor, over the township and introlucing him to the poor unfortunates that he is to have care of for the next year. They have had a very pleasant time of it. Jolly fellows, both of 'em.

Judge L., in connection with his official duties, is going into the beet business; not the dead best, but the red beet, and is making extensive preparations to make the beet farming a profitable business. We are told that he has received some very valuable information, also books from headquarters covering the beet question.

Some of our merchants are making themselves acquainted with the finer arts. SPRING MILLS ITEMS .- Bad weather and muddy roads don't seem to affect the prosperity of our little railroad city, for every day there may be seen wagons hauling stone and lumber for new houses.

Since my last communication, Mr. Dale as put up another house, making three for him this winter. M. P. Auman, has also put up a house and just now the Grove boys are hauling stone and preparing to ouild a house for their father.

Mr. Colton, having taken the contract or the new school house at a very low figure, declined to fill it. On last Saturday it was to be relet, but I have not neard the result of the directors meeting.

Mr. I. J. Grenoble having purchased a tract of land between the R. R. Station and Henry Krumrine's coal and grain depot, is selling the same off in lots at the rate of \$50 for middle and \$75 for corner lots. These lots are in the centre of the buy your goods where you get them at place. Such liberality contrasts very forcibly with some of the land sharks around Centre Hall, who demand \$250 and 300 for building lots on the outskirts of the town. Centre Hall would to-day be double its present size, if building lots could be purchased, at reasonable rates. Well all the better for Spring Mills.

BELLEFONTE, March 20, 1882. Mosars. SHUGERT & FORSTER :- The papers have it going the rounds that I had received bail for my appearance at court, but as I was making preparations to "skip out," my bail withdrew and left me in the hands of the authorities to await my trial. This has a tendency to cause the public to have an erroneous or bad opinion of me which I do not deserve. As for "skipping," I never said so, and nothing of the kind ever come to my mind, and knew not what was the matter until I come to Bellefonte. Since then I have written to parties in Taylor township and they say they heard nothing about me skipping (so the report must have started in Bellefonte) but say that Benjamin Weaver's folks would not give him any rest until he withdrew. He did so without my knowledge of it. If he had said anything to me about it I might have got other bail. But in the situation I now am, I have no chance to look for other bail and must de-

Dear Major :- Will you please give me a ltttle space in your paper concerning the 20th anniversary of Company "A" 148, P. V., at Rebersburg, on the 22d August, 1882? Since the company has been mustered out of service, its members have been scattered far and wide. Lieutenants Spangler and Jones and 1st Sergeant J. A. Miller, who reside in the vicinity in which the company was raised, would be the foremost to bring around this reunion. Is there not one among the members who can give an account of Company "A?" Prof. Meyer and others, who are teachers, and who are members of said company, would be very good persons to call on at such an occasion. Many of the manly forms who stood in line on the day of muster, sealed their heroism toward their country by their hearts blood; many more by diseas contracted while on the field of duty, and many still survive, living cripples for life, while many with "silver threads among the gold" who will be present on such an occasion, will pay due respect to the one who will thus make an effort to bring forth such a reunion, and every true soldier's heart will help to make the day one

The time will soon be here, and some action should be taken to arrange a program, and see what can be done. I understand there is a standing committee on "Decoration Day." Let this same committee when they meet also say a few words on this subject. Give the young ladies a welcome in this undertaking; the mothers of fallen sons, the widows of heroic husbands, all who at the time had those who were "near and dear" but gave them never to return again; all as a unit join, and you will see a day in old Rebersburg that has never been witnessed since it first was known by that name. Brother soldiers, of our organization, I now leave this to your arrangement and its final results will be according to the interest you take in this matter.

of joyfulness and thanksgiving.

To the Centre county press, I would ask as a soldier : lay aside all political animosities and please copy this letter, so that all who read, may see my application, and oblige any soldier who may answer this letter through another paper. I place all confidence in Maj. R. H. Forster, that the same will appear in his. Hoping to see an answer in the papers to this, very soon, and that an interest is taken towards an organization, I leave this, Brother Sol. diers, for your honorable consideration.

I remain, fraternally yours, J. D. JOHNSON. Co. "A" 148, P. V. Easton, March 20, 1882.
