DISCOURAGING REPORTS FROM THE MISSISSIP-PI LOWLANDS.

PI LOWLANDS. NEW ORLEANS, April 2. A dispatch from Morgan City, dated midnight, says: The water rose 5 in-ches at this point during the past 24 hours and is now 13 inches above high water of 1874. Many families are leav-ing the city and in other cases the wo-men and children are being sent west to the highlands. Several buildings are considered in great danger and the considered in great danger and the stock is being noved to Bell Isle. The The announcement made to day by the rail road officials that no more trains would arrive from New Orleans caused much anxiety. The stock of provisions is very limited and unless relief comes in a few days there must be suffering. This town relies upon the railroad and swamps for its support, and stoppage of the trains will throw many persons out of employment, while the swamps are too high to ment, while the swamps are too high to work. At least two feet of water is ex-pected. The Post Office will be flooded by morning. Both the *Review* and *Free Press* offices have raised their floors, and the issues this week by both journals will be made under serious disadvantages. Several mechants have removed their goods and closed their stores. The Berwick's Bay bridge has been inspected and the structure was found to be as staunch as ever. Additional re-ports have been received of the distressed condition of the people living along the Bayou Bouf. It is hoped that the steamer Mercer will arrive to night. In that event the railroad company will send her to the result of these people. The boat will accommodate 300 or 400 persons. The Morgan Company has evinced a very generous spirit towards the poor by giving free passes to a large number who would otherwise have been unable to reach the highland. The wa-ter rose two inches from 12 o'clock noon to 9 P. M.

WASHINGTON, April 2.—In a letter from Baton Rouge, received here yes-terday, the writer, a Washingtonian, said: "The actual suffering in the overflowed regions on either side of the Mississippi river is far greater than peo-ple at the North can conceive, and the loss of corperty consequent upon the loss of property consequent upon the floods to incalculable, and yet in the midst of the distress and suffering we find exceptional cases where rascality crops cut under the guise of distress. A few days ago among the petitions for relief delivered to Governor McEnery was one signed by nearly 100 person living in the neighborhood of Port Hickey, begging for rations and other help on account of the flood. The Governor handed this to the distress committee, who upon investigation found that only a few acres of land in the parish had been flooded, and that there was within a short distance from the pretended suf-ferers any quantity of high and dry lands. THE New York Globe edited entirely by negroes, denies that the failure of reconstruction government at the South is chargeable primarily to the negro race. This is true. While the sudden enfranchisement of the negroes alone rendered such governments possible they would not have existed had it not been for the efforts of mean white men who took advantage of the situation and the credulity and ignorance of the negro. The worst complaint the negro can have against the Republican party, one which ought never to be forgotten, is the use made of his race by designing white men, who, as Republicans, sought to plunder every defenceless State in the South upon which they could lay their vile hands. While people are willing to acquit the negroe voters of any original desire to rob, yet, under the instructions of their graceless white leaders they noved ant scholars. Still leaders, they proved apt scholars. Still as the Globe says, "the history of reconstruction stand as a monument of Re publican misgovernment, not a monument of misgovernment, not a monu-premacy in the South." Suppose the Globe advise its people to sunder for a while their close relations with the Re-publican party, and then observe the effect of such action.

On Saturday, five boys were playing in a sand tunnel near New Providence. Chester county, a small station on the

Perkiomen Railroad, when the top caved in, covering them all up. A short time after several men were passing by, when they noticed a pair of feet protruding from the sand. They went to work to remove the sand, and three boys were taken out dead. They were John Rowland, aged 12 years ; Josiah Rowland, aged 13; George Rowland, aged 10. The other two are so badly

injured that they are not expected to. survive. Their names are SamuebMentz, 14 years old, and Harry Mozear, 9 years old. Great indignation exists against silver plating is so perfect that it will the owners of the sand for allowing it resist the application of acids until its to remain at such a prominent place. The three Rowlands were the children The gold coin is short in weight and of Lewis Rowland, an engineer on the Perkiomen Railroad.
