-Mr. Shroyer, father-in-law of Mr. Daniel Garman, was taken suddenly ill on Sabbath evening, but is now recovering.

-Mrs. Pennepacker, the esteemed wife of Rev. Pennepacker, has been ill for three weeks, but is slowly recovering.

Her two little daughters accompany her. -Mr. David I. Parsons, whom every one knows to be a carpenter of no little repute, has returned to Bellefonte, and awaits the

orders of any who may need his services. -Read the advertisement of John B. Linn, Esq., executor of the estate of Dan'l Derr, deceased. He offers an unusally large assortment of personal property at public sale on Saturday, June 3, '82.

-The friends of Miss Emily Jacobs, of Penn street, will be pleased to know that her illness was not occasioned by a stroke of apoplexy, as at first reported, but the result of a fall. She is recovering rapidly.

-Mr. G. B. Perkins, of Lock Haven, while repairing the telephone connecting his residence and store, fell and was badly injured. Mrs. Perkins was visiting the family of Rev. R. C. Crittenden, at the

-Our friend, Mr. D. M. Neidigh, of Ferguson township, was in town, one day last week, with his family, and while in one of the stores discovered that his little boy was missing. Diligent search failed to reveal the youthful meanderer's where. abouts and speculations of an abduction case were freely indulged in. Becoming satisfied that the boy was not in town Mr. N. started home, and upon arriving there was told that the boy had not returned. The misery of the fond parents can be more easily imagined than described; after assuring himself of the boy's absence from home, Mr. Neidigh retraced the way to Bellefonte and when about six miles from this place, the object of so much paternal solicitude was discovered wending his weary way homeward. When asked where he was going he said, "to Grandpa's," and seemed none the worse on account of his unnecessary pilgrimage.

-After having successfully resisted the manifold charms of maidea loveliness for many years, our esteemed friend Mr. E. C. Woods, capitulated at last. The lady upon whom Ed. saw fit to bestow the attention of a devoted lover, and will now essay to be a perfect helpmeet to, was known as Miss Sallie Garber. The nuptials were solemnized by Rev. McArdle, at his residence, on Tuesday evening. Our earnest wish is that time may deal gently with Mr. and Mrs. Woods, and that the union thus formed may result in much good to both.

-"Mamma, is the old hen going to be ent away for the summer ?" "No, Charlie, but why do you ask?" "Well, I heard papa tell the new governess that they would have a fine time when he sent the old hen away for the summer." Mamma put little Charlie to bed, after giving him a dose of Sines' Tar, Wild Cherry and Hoarhound for his cold, telling him he would be well in the morning; and then she laid for papa-and only for his having a bottle of Roberts' Embrocation in the house, might have been a cripple for life.

-One of Tyrone's prominent and enterprising business men, Mr. J. F. Ring, left that place on Wednesday, of last week for parts unknown, leaving a wife, four children, and an unsettled business. Pressing demands of creditors, which he could not meet, are said to have caused him to act so strangly. No doubt he will be able to explain every thing satisfactorily when he oses to do so.

-Rev. D. M. Wolf, county superintendent, while in town on Monday called at the DEMOCRAT office. There is an element of cheerfulness in our friend's make up that always infuses new life into every one near him. His report of the work accomplished in the various schools of our county, now nearly all closed, is highly gratifying and shows that the school going public is being well taken care of.

-The towering form of our member of Congress, Hon. Andrew G. Curtin, was noticeable on our streets on Saturday. This is Mr. Curtin's first furlough from active participation in the deliberations of the body of which he is so distinguished a member, since the holidays. He is enjoying good health and never was more jolly or in better spirits.

-If you have any desire to succeed in and enjoy life, avoid unpunctual people. They impede business and poison pleasure. Would you be able to command the composure indispensible to true happiness, make it a rule to be five minutes too soon. The habitual loiterer is not only always in hot water, himself, but keeps every or near him in the same feverish state.

-The lecture by Rev. A. B. Jack, or Monday evening, was a truly enjoyable affair. The life, character and work of Sir Walter Scott passed in panoramic beauty before the audience, eliciting many outbursts of applause, doing all good. The e was filled by a large and appreciative audience.

-Mr. Geo. Hopkins, an employee at the car works, whose duty it is to attend the engine in capacity of fireman, was frightfully burned on Friday. An explosion of gas forced open the furnace door and completely enveloped the unfortunate man, burning his face and hands horribly. He is improving rapidly.

-Dr. Fisher desires us to say to the News that the story of one of his hog's imprisonment in a well, containing two feet of water, for one week, is positively correct. The animal was taken out as soon as discovered and with exception of an empty stomach and trivial stiffness of its limbs, is well and enjoying life, as only a hog can.

-Jail hill, on Sunday afternoon was the scene of what might have been a sanguinary conflict between two opposing factions of Bellefonte's ladies of color. Stones, bricks, and innumerable red-mouthed anathemas were hurled promiscuously, but doing little damage.

-If there is any one person or thing that Mr. W. A. Tobias bates, it is a book agent. On his office door "Book agents not admitted," is intended to frighten away these gentry of hard, well-pounded

\*-Mr. Jerome Yohey, a most estimable young man, who works at Duncan, Hale & Co.'s mills, got two of his fingers fast in a pair of cog wheels on Monday morning, ating and mashing the other.

Why?—Lock Haven papers complain of a scarcity of local news, while every day the occurrences in Bellefonte are more multitudinous than space will permit .-Bellefonte News.

Well, our dear friend, why don't you roll up your sleeves and record them, i stead of publishing nothing, as it were. Lock Haven Journal. Rather cool.

DECORATION DAY .- Without any pretentious bustle and foolish prattle, Gregg Post, G. A. R. went quietly to work, and when the organizations taking part in the ceremonies formed in line on High street all were surprised and delighted with the grand display and unusual interest. The following constituted the procession Pleasant Gap band, Company B., N. G. P. Gregg Post, G. A. R., Undine and Logan Hose companies, Hecla Drum corps, Lodge, U. O. A. M. and Boys branch, Y. M. C. A. After traveling the principal streets of town the Union Cemetery was visited and the graves of soldiers and others beautifully and lovingly decorated. John B. Linn, Esq., delivered the oration, which was a touching and masterly expression of the sentiments of all when memory unfurls her tablet and spreads before us the record of the devotion, privation and death of the many who rushed to the defense of our Country in her hour of greatest need. The citizens of Bellefonte never witnessed a finer demonstration.

MILESBURG ITEMS .- A fire broke out in Mr. Joseph Swires house, near the lime kiln, last week, and was making good headway when it was discovered in time to be controlled and excepting quite a hole in the roof no damage was done. A few moments longer would have been time enough to have started a conflagration.

We advise the gentleman, who attempted to eject that nasty big dog the other evening, to arm himself with a club

The Bald Eagle Lodge, I. O. O. F. deires to tender a vote of thanks to Mr. H-K. Hicks for the presentation of an ele gant hanging lamp for their hall. They consider themselves individually under obligations to him. They have a fine room and are justly proud of it.

The moving of the Essington & Coover boiler from the car to its foundation was a gigantic enterprise and took from twelve twenty-five men about three days to accomplish it. It weighs 13,000 pounds.

Mr. J. P. Boileau and his mother, who have been visiting friends in the northern part of the State, have returned.

Mr. Heverly is making extensive repairs on his dwelling house, also building an addition to it.

Who will say that Milesburg is behind the times now. We are to have a genuine circus here on the 5th of June.

CLOSING OF THE PUBLIC SCHOOLS .-After one of the most pleasant and profitable sessions on record, our public schools closed on Friday last. The examinations having been finished prior to that day it was devoted entirely to exercises of a miscellaneous character. The upstairs schools ended their work at noon and the little ones rushed out, when dismissed, as though | have seen the poor brute, with thoughts of released from bondage, yet there were noticeable many eyes moistened with tears, as the realization crossed their minds that it that the beast is properly cared for? they might never again meet in the capacity of schools in a body, and as the little girls crowded around their teachers to kiss them good bye the scene was affecting, telling, as it did, in unmistakable language, that the pupils not only respected their counselors but loved them as well.

The four bigher grades gave an entertainment in the afternoon. The program, a copy of which we append, was prepared with a view of affording any who chose to attend an hour or two of literary entertaiment. It speaks for itself :

taiment. It speaks for their

Our limited acquaintance with the members of the schools prevents our making mention all who took part in the exercises and so excellent was the character of the performances that we hesitate to single out the few with whom we are acquainted. Suffice it to say that each was all that could have been expected. Quite a number of the patrons and friends of the schools were in attendance, among whom John Hoffer, directors.

Nothing transpired during the term to detract from the beneficial nature of the work done. Each of the teachers seemed admirably fitted for promoting the interests of the schools placed under her or his charge, and rather than incur any risks of securing, for the coming term, others, not so signally qualified, it would be as

well to employ the same corps. The colored school under the manage ment of Mr. A. D. DeLaney has flourished grandly, and to-day is in a far better condition than at any time in the past. This gentleman has by strict attention to his duties, genteel demeanor, and evident the respect of all.
