-An unusually large number of cases of sickness are reported by our physicians. Disorders of various kinds are certain to attack and fasten themselves upon the system during the summer months. To prevent this entirely is almost impossible, but preventives of different sorts can be applied with good effect. You know that the quality of food consumed, in a great measure, determines the health of the consumer. If it is possible to secure articles of consumption that are absolutely pure, do not fail to do so; in this connection we desire to state that Sechler & Co. are in fact always have done so. You can place implicit confidence in them. Their block, High street, Bellefonte.

A NOTED WOMAN .- The item in regard to the failure of "Yours for health, Lydia E. Pinkham," of Lynn, Mass., which has been floating through the papers, we are glad to learn is false in every respect, as we found on inquiring at Hubbard's Inter national Newspaper Agency of New Haven. Mr. Hubbard has whole charge of the advertising of this and other similar large houses, and informs us that he has inserted her advertisements or yearly contracts in over 8,000 newspapers last year, so that she is to-day the best known woman in America.

MILESBURG ITEMS.—Hog cholera is what is worrying us now. It is quite bad, some parties having lost as many as half a dozen hogs.

Mr. Geo. Hallabaugh, engineer at the planing mill, has given up his job because he was doing too much work for the money. Mr. Charles Moore, who was employed at the same place, is also off.

Levi, is to be moved over to the Essington-Coover property and henceforth will be under their control. BLACKBIRD.

EDITORS CENTRE DEMOCRAT. -- Last week's Watchman published an account of the death of Mr. Isaac Buffington, in which there were several grave errors that I wish to correct. He was born at Curtin's old furnace, below Milesburg, on the 8th day of April, 1812, instead of April 12th as there stated, and was 70 years, 3 months and 19 days old when he died, July 27th. He was married twice, his first wife was Miss Hannah Taylor by whom he had one child, C. L. Buffington. His first wife died 21 years ago in place of seven or eight years. The second wife was the widow of Rev. Orange L. Hall, Baptist minister of Selinsgrove and chaplain of a company of soldiers. He came home to see his family and the next day took smallpox and died in a few days after. His widow, the present widow of Isaac Buffington, came from Selinsgrove to Milesburg with her three children. This is a correct account of his age, death and a little of the family history.

MEETING OF HANCOCK LEGION, Aug. Sth, 1882.—In the absence of the President the meeting was called to order by the Secretary. On motion Mr. James A. McClain was called to the chair as President pro tem. The meeting proceeded at once to completing the organization by electing Ed Wood and Mr. Olie Meek vice presidents. On motion Mr. L. Shaffer, Olie Meek and Eddie Brown were consti-tuted a committee to secure rooms for the regular meetings of the Legion, the committee to report at the next meeting. (motion of Mr. Frank Bible all member present enrolled themselves as members the Hancock Legion. On motion M Frank Bible was unanimously elected as-sistant secretary. On motion of Mr. Scho-field, the Legion decided to meet in the Bush House next Monday night, notice of said meeting to be given through at least two of the papers in town. Upon the ap-pearance of Senator Alexander in the door-way, the gentleman was heartily applaud-ed. The Senator was requested by all present to address the meeting and ele quently responded in timely and pointed remarks. After the Senator's address the secretary proceeded to enroll the names of

those present.
On motion the meeting adjourned to assemble next Monday evening at eight o'clock, in the Bush House.
J. C. MEYER, Sec.

MOUNT EAGLE-Mr. Editor: Perhaps you will not be averse to giving room in your paper to some of the events transpiring in our vicinity. I will submit the llowing and you your discretion.

As festivals seem to be the rage we determined not to be behind so the other Saturday afternoon and evening the members of the M. E. church and Sunday school congregated in and about Kennedy school house and for the time, being gave themselves up wholly to enjoyment, and we had a good time. Everything passed off pleasantly and agreeably. The proceeds were about forty-one dollars which is doing exceedingly well for Kennedy, considering that the one held in Mt. Eagle

netted only thirty-five dollars. Messrs. David and Willie R. Leathers are head over ears in the cigar manufacturing business, and we can testify from an actual trial that they are good, especially their genuine havanas.

Geo. D. Johnson is just as enterprising as ever. The other day he was as busy as any man could be in a very large field of oats, of which by the way there is an unusually large crop, which will in a meas-

ure make up for the light corn crop. Mr. James Turner has built himself a snug little barn.

Mr. S. B. Leathers has put up about forty or forty five tons of hay. N. O. Body.

-It is the little things that fret and worry us. A three-year-old may keep a man in perfect misery, whereas no such trials would accompany the presence of making specialties of pure groceries, and his eighteen-year old sister. Did you ever observe what a tremendous amount of discomfort there is in a poor cigar-even if it place of business is in the Bush House is small? Harry Green's brands are all right.

Gone.

DEATH OF W. D. BAILEY, FOREMAN OF THE CENTRE DEMOCRAT OFFICE.

This community was not prepared to receive the announcement that William Devoe Bailey, a highly esteemed citizen of Bellefonte was no more; that nothing but the tenement of clay that for 63 years, 10 months and 20 days had been the abiding place of a spirit-noble and true, a hearttender and kind, a mind of far more than ordinary capacity and a soul that for over three scores of years had successfully resisted the evil influences that daily encompass us, was left of him whom years of intimate social and business intercourse had endeared to us by every tie known to mankind.

At four o'clock on Thursday morning, August 3, after several hours of intense suffering, with the exclamation "Oh, my! the immortal part of our respected, venerable counselor and friend wafted its Hyde Park, (Scranton) city schools and flight to the unknown, where we devoutly trust it is relieved from the anxiety and care that often render life here upon earth a burden and encumbrance.

Over fifty years of Mr. Bailey's life were spent in printing offices, he having fulfilled the obligations devolving upon incumbents of every position from apprentice to editor-in-chief. Space permits only a short resume of his professional career, for seven years an indentured apprentice under the instruction of Theophilus Fenn, at Harrisburg; establishment of the Iowa City Sentinel in 1840: from 1843 to 1849 one of the editors and proprietors of the Circleville (Pa.) Herald; founding of the Wellsboro Advertiser, (now the Agitator, a powerful Republican organ,) to which he gave his undivided attention for fifteen years, save the term of office served as Register and Recorder of Tioga county; then he moved to Williamsport and for eight years was foreman of the Gazette & Bulletin office; his next venture was to establish the Centre Herald, at this place, in which enterprise he had associated with him his two sons W. F. Bailey, Esq., of Galesburg, Ill., and Mr. Newton S. Bailey, local editor of the Bellefonte Republican; finally upon the discontinuance of the Herald he accepted the foremanship of this journal, and during the four years of its existence was a factor of much importance in its composition.

Although Mr. Bailey never saw fit to connect himself with any branch of the Christian church, his adherence to principles of right and justice, as he saw and felt, was firm and unwavering, and as a parting tribute to the memory of a man, whose every act commanded the respect and approbation of his fellows, we are called upon to say that his sudden death will be regretted.

The funeral service at his late residence was conducted by Rev. Hewitt, of the Episcopal church, his remains borne by representatives of all the offices in town to the depot and taken to Williamsport where they were met by friends of the deceased who with six printers as pall bearers conveyed the body to Wildwood cemetery, and there, in accordance with his expressed wishes quietly, solemnly laid away.

SPRING MILLS ITEMS .- Spring Mills ought to be a very good place having three ministers spending their summer vacation here. Quite a number of summer tourists are rusticating here now. Some are stopping at the hotel kept by Geo. Miller, some sojourn in private families, but the greater number put up at the big hotel on the hill. Water is now piped to the new hotel by means of a hydraulic ram.

Prof. Reiter's Academy is full of students, there being over fifty of them. He is assisted by Harvey Twitmeyer.

Mr. Berkstresser, the photographer, pread his tent here a few weeks ago, during which time he has had such a run of custom that he has been compelled to postpone his departure which he intended to make a week ago.

A large fire broke out a few days ago in the vicinity of M'Cool & Whitmer's steam saw mill, but fortunately for them they succeeded in "dousing the glim" before it reached the saw mill.

A meeting of the citizens of Gregg township at the Penn's Creek bridge near Wm. Rarick's, was called for last Saturday, but it being Grange day and also Democratic Primary election day only two or three persons put in an appearance. The purpose of the meeting was to ascertain if the people would be favorable to substituting an iron bridge for the rickety old wooden one that now spans the creek

at that place. The walls of the new school house are ready for the brick work, which will be commenced in a few days.

-Wilson, McFarlane & Co., call attention to the only reliable Ready Mixed Paint in the market. The Pioneer Prepared Paint is not only superior to any Ready Mixed Paint sold but rivals pure white lead in its smoothness in working and durability. This paint is guaranteed by the manufactures not to crack or peel within three years. The guarantee is not only good for replacing the paint but it in Bellefonte. It seems as though the will be put on if it should crack or peel within the time specified. It will be your interest to call and see Wilson, Mc-Farlane & Co., Lefore purchasing either white lead or any other Ready Mixed Paint.

HANCOCK LEGION NOTICE.—There will be a meeting of the Hancock Legion, and all persons who desire to unite with that

erganization, at the Bush House on Monday evening, Aug. 14, 1882. Turn out under the old banner. J. C. MEYER, W. F. REYNOLDS, Secretary.

-After all that any of us can say is said it will be acknowledged that our statement is correct that Messrs. S. & A. Loeb are to-day enjoying a larger trade than any other of the general mecrhants usual inactivity of trade at this period of in favor of the Royal brand. the year has little or no effect upon them. They sell Arbuckle's roasted coffee at 17 cents per pound, and everything else at the same rate. Their motto being "Live and let live."

-Two members of the Lewisburg University pedestrian club, the only ones who persevered and finished the walk, Mr. Wm, Driesbach and Mr. R. M. Strawbridge, put up at the Globe Hotel, Altoona, on Sunday. From an exchange we have the following regarding their trip: "At Niagara Falls yesterday, encamped in Prospect park, in seven little white tents, was a party of college men from the university at Lewisburg, about sixty miles north of Harrisburg, Pa. They call themselves the 'Walking School of Science,' and had reached Niagara principally by walking the routes taken, leading them through Williamsport, Geneva, Rochester and Watkins. They left the college on June 30, intending to be gone about six weeks, going to Montreal, Quebec, the White mountains, Portland, Boston, Detroit and Cleveland, leaving the latter city for home. The whole trip covers 3,000 miles, of which the club will walk 1,000, using railroads and steamers for the remainder. When walking the men carry about twenty pounds of baggage apiece and make about forty miles a day."

-"I subscribe for your paper." Well what if you do. You take it because you want it. You are not trying to favor any one but yourself. Perhaps you think because your name appears upon our books that you own and run the office. It is a purely business transaction, you agree to pay your subscription and then, in many cases either forget or refuse to do so. No class of business men in the world are as much imposed upon, treated with as little consideration, have to put up with the inolence of as many dead beats, cheated as frequently, wait as long for money honestly due them, do more service for as little remuneration, are as poorly rewarded for an equal investment of time, labor, capital and thought, or are as patient and enduring under long suffering as newspaper publishers. No bill is paid as grudgingly as a printer's. Kind reader take these thoughts home and if you happen to be in arrears, remember you are the person we are addressing, and then pay up.—Ex.

-Mrs. Krom, widow of the late Augus tus Krom, manager of the Krom House, Lock Haven, has established an excellent reputation among the travelling public. The table, the most attractive feature, is invariably supplied with the best the the market affords, the sleeping apartments are comfortable, bright and airy, and the bar, under the control of Mr. A. M. Dingler lacks nothing. This house is in close proximity to the depot, and guests desiring to leave town on early trains will find most desirable accommodations. With pleasure we announce the success of the new management and hope it may con-

-At this time, during the heated term it is very natural for us to desire to wear as little clothing as possible. But the time is coming when heavier garments will be needed and there is no reason why preparation should not be made now. The Philadelphia Branch disposed of a great deal of summer clothing during the season and still has anything in that line that you may need. Take our advice, call upon Mr. Lewin and see whether or not he can give you a bargain in fall clothing. There are many inducements that he is prepared to extend during the coming thirty days.

-David Heckman, aged about 18 years son of Daniel Heckman, Esq., of Fillmore was killed by lightning on Monday, 7th instant. They, with the help of two other men were storing away oats, and had just reached and driven into the barn with a load when the building was struck. In addition to killing the young man the flash knocked the balance of the men and the horses down. We extend to the stricken family the condolence of their friends everywhere.

BEST BAKING POWDER .- Dr. Edward G. Love, the present Analytical Chemist for the Government, has recently made some interesting experiments as to the comparative value of baking powders. Dr. Love's tests were made to determine what brands are the most economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr. Love's report gives the fol-
