OFFICIAL ORDERS—ENCAMPMENT—INSPECTION.

The orders of Major General Hartranft relative to the annual encampment of the National Guard were made public yesterday.

During the encampments the regular fall inspection by the adjutant general will take place.

By direction of the governor and commander in chief, an inspection of the division will be held by the brigade commanders as early in April as practicable.

The inspecting officers will make a thorough examination of company drill reports, to determine the activity of companies and their progress since the division encampment.

Senator Anthony's newspaper indignantly repels the charge made by an ill-informed editor that the real estate qualification in Rhode Island applies to natives.

Thomas J. Brady was another near friend of the late President Garfield who corresponded with him in regard to the levying of political contributions in the departments and was wont to address him as "My Dear Brady."

For William Pitt Kellogg the republicans of the United States senate, from the conscientious Edmonds to the pious Cameron, have made more vigorous battle, outraged decency more shamelessly and degraded themselves more completely than for any other who ever usurped a seat in that body.

It may be great fun for the Republicans of the Legislature to prevent the consideration of apportionment bills, but the people will be apt to look at it another way.

A TRAMP'S CRIME.—EASTON, March 29.—A tramp this morning cut his wife's throat at Hecktown, and then with two other tramps fled across the fields.

The woman was found on the roadside, and physicians say her injuries will prove fatal. A party of men has started in pursuit of the tramps.

Charles Tilgham is the name of the man who assaulted her. They were walking along the road at the time talking on different subjects when he suddenly seized her by the throat, threw her on the ground and cut her throat.

It is thought she cannot live till to-morrow.

15,000. It gives the Republicans one member of Congress for every 29,000 votes they polled for Garfield and the Democrats one for every 31,400 votes they cast for Hancock.

Now let us look at the precious gerrymander the Republicans propose. The proposition, however, is a pleasant fiction as the fight they are making is against any apportionment, so that the one made ten years ago by Messrs. Rutan, R. W. Mackey and Quay will remain in force.

And yet the scamps who propose to legalize a scheme of disfranchisement like this—and they will accomplish the same result by preventing any apportionment—are tattered for years of indignation every election over southern disfranchisement.

We urge the Democrats to press their bill to final passage in the House, as soon as it can be done under the rules or if necessary by amending the rules.

THE HANDSOME NIBILIST CAPTURED IN RUSSIA.

NEW YORK, March 29.—A St. Petersburg letter under date of March 10th, says: The capture of an important female Nihilist took place in the person of Mlle. Philippoff, better known as "Finger."

Belonging to the middle class of Russian provincial society, Mlle. Finger was rightly famed for her beauty and remarkable smartness.

LORDSBURG, N. M., March 29.—Mrs. McComas was found shot through the head, lying on the side of a buckboard and stripped naked.

fective step in favor of temperance. In this connection it is well to remark that a similar bill passed some time ago by the California Legislature has been followed by some surprising results.

Congress was a Democrat, and in this he is a Republican, which accounts for the item of five hundred dollars for legal services in his own contested election case.

Whenever there is an extraordinary occurrence—a team runs over a child without hurting it; a mechanic falls from a third-story window, and in a week after he is at work again, we are wont to exclaim, "what a miracle!"
