England Excited.

A GANG OF IRELAND'S WORST ENEMIES CAUGHT, A MANUFACTORY AND AN IMMENSE QUANTITY OF INFERNAL MATERIAL CAPTURED.

BIRMINGHAM, April 5.—The city police made a raid on a suspected locality in Ledsam street, Ladywood, and discovered a Fenian nitro-glycerine factory in operation. The premises were taken two months ago by Whitehead, an Irish-American, who displayed a sign indicating the business of a paper hanger. Whitehead has been arrested. A considerable quantity of nitro-glycerine was seized. Whitehead is aged twenty-five, is of dark complexion, with marked American accent. He has been in the habit of purchasing nitro-glycerine and acids necessary to run the business. The apparatus for preparing and fixing the explosive compounds constructed on scientific principles. It was a shrewdly devised method, of carrying fumes up the chimney and consuming the odors. Whitehead's examination this afternoon developed nothing startling. It is stated that the police are seeking another gang of dynamite manufacturers, supposed to be located at Egertown. A large quantity of documents were found in a factory and seized.

LONDON, April 5.—In connection with the discovery of the dynamite factory at Birmingham last night, a report was received by the government office that some conspirators were already on their way to Windsor from there. It is expected that the number of arrests will shortly increase. It is learned that the man first arrested last night engaged rooms on Southampton street, at the corner of Strand, giving his name as Ormund and stating that he was a medical student. Subsequently he said that his correct name was Norman. The first inquiry for rooms was made by an elderly man. A box of explosives was taken to Norman's lodgings by a person of rakish appearance, who looked like a tramp. It is believed that this individual and the elderly man have been identified in the persons arrested at Lambeth to-day. One of the men had in his pockets and sewed up in his clothing a large sum of money, a portion of which is reported to be American coin. Street rumor made free use of the American name and connected many Irish Americans with the plots. One of the Lambeth prisoners secured lodgings in the name of Wilson. His movements, however, excited so much suspicion among his neighbors that he left his room yesterday, saying that it was his intention to go to Wolverhampton. When he returned to-day, he was surprised to find five detectives waiting for him. Norman undoubtedly came direct from Birmingham. The place where he stopped was over an office where the court circular was printed. The proprietor of the circular recently received letters containing dire threats, the origin of which he has no difficulty in tracing to the prisoner. Henry Dalton was taken into custody to-night. He came from the United States two weeks ago and was found at the American exchange. He made no resistance. There was a sensation in the House of Commons as well as elsewhere, when these arrests were announced. Harcourt stated the circumstances of the arrests, and added that 150 pounds of highly explosive liquid were found in Norman's quarters. It was stored in skilfully devised rubber bags. He said that a considerable amount of the same kind of explosives had been discovered in the rooms of the Lambeth prisoners, and part of the money on one of the men was American bank notes. There is no doubt that all the parties arrested are connected with the same plot.

The home secretary sent a dispatch to Birmingham, asking the authorities to remand Whitehead for a week. The same action was taken here in the case of Norman and the two Lambeth accomplices. The magistrate accordingly remanded the prisoner, stating that no formal charge would be made against them to-day.

A Huntingdon Industry.

The Gondola Tannin Company's Contemplated Extension—An Important Invention. HUNTINGDON, April 1.—The Gondola Tannin Company contemplates the duplication of their works at this place during the coming summer. They intend to occupy, ultimately, their entire grounds extending along the Pennsylvania Railroad from the South side of Eleventh Street to the North side of Thirteenth Street, a distance of 950 feet. When this has been done, the works will be four times their present size and capacity.

This company has introduced a new industry of vast importance to the country. Their establishment, the only one of the kind in America, produces a material for tanning leather as a substitute for the barks heretofore and still in extensive use. The process was invented and patented by Paul Gondola, a Frenchman, from whom the works take their name and who has an interest in them. Associated with him are New York and Philadelphia capitalists, the officers and directors of the company residing in those cities.

Gondola, by his invention, has answered the question often asked by tanners, "What will we do when the bark is exhausted?" His process, instead of stripping the tree of its covering and using only the latter, leaving the trunk to decay in the forest, as it frequently does, utilizes the wood and extracts from it the active principle—tannic acid—which converts the raw hides into an indispensable article of commerce. It will, in the future, relieve the manufacture of leather of much of the expense and many of the inconveniences by which it has been attended. The tanners now transport their bark over long distances or build the tanneries in out-of-the-way places among the trees. This will no longer be necessary, as the new product is highly concentrated and occupies but little space, and freight charges for conveying it to any part of the country will not be heavy. It finds a market now in Texas, Georgia, Virginia, New York and the New England States, to all of which the works are shipping. The extent of the demand, when it comes into general use, as it is rapidly doing, may be inferred from the fact that there are in Pennsylvania alone twelve hundred tanneries, and that there is one of these that will consume twice as much as the present works can make.

No other works than these will be built in the United States, while the grounds of the company at this place will afford room for extension. In Europe they have been established in France, Italy, Belgium and some other countries. Large quantities of chestnut and rock oak wood, the kind principally used, and which were before comparatively worth but little where they are found, are being used, and are brought here from every direction for hundreds of miles. The value added to this material is incalculably great to this section of the State.

Live Hypocrisy.

One of the inherent principles of the Republican leaders in the state is hypocrisy. They assume virtues which they have not. They continually wear sackcloth to deceive people. The name Republican is a misnomer. They are selfish tyrants at heart and soul, plotting continually for the abatement of every vital right of those who differ from them in their estimates of equity and justice. Just now they affect to see no good thing in the fairly constructed Apportionment bill which the Democrats have successfully framed for consideration. They do this simply because an honest apportionment will materially interfere with the Republican majorities in the future. Because under a perpetuation of the old system, seventy-six thousand Democrats of Philadelphia may be represented only by six members and one Senator, while ninety-six thousand Republicans of the same city get thirty-one members and seven Senators. Of course the Republican leaders kick against any apportionment bill that will modify this outrageous condition of things.

Then, again, the Democratic counties of Luzerne, Lackawanna and Schuylkill would, under the proposed new Apportionment bill, be divorced from the control of the Republican bosses, and this would never do.

The thing that will strike the average thinker, however, with peculiar surprise if he looks fairly into the apportionment measure now before the Legislature, is the open hypocrisy shown by the Stalwart leaders. They not only denounce the bill, but with pharisaical

persistence lengthen their faces down to a solemn degree of saintliness to pronounce against the awful iniquities which they allege are hidden in the bill. Such monstrous exhibitions of blatant duplicity could only be exhibited by the corrupt leaders of a decayed and dying party.—Union Leader.

Boys Branch.

A new lot of views have been secured from Shamokin.

The Book Reception brought many choice volumes to the boys' library. However, the gas supply failed and the exercises were in part postponed until the following Monday evening, March 26th. Morris E. Swartz read a good paper on "Books," Geo. Bayard and John McCartney sang three pieces and the reports of the committee were read. No books were expected from other than boys, but several friends who heard of the reception sent in volumes as follows: Mrs. Dr. Hayes, 16; Wm. Hamilton, Mrs. Frank P. Blair, one each, E. S. Stuart, "Leary's Old Bookstore," Philadelphia, two, Gen. Beaver, six. The following boys presented one each: Chas. Rhone, Will Keller, Thos. Orison, Joseph Harris, Edward Cowdrick, William Flack, Frank Van Ormer, Curtis Swartz, Clarence Rodgers, Benj. Hoffman, Louis Furey, Joseph I. Rhoads, John Bayard, William Brew, Lorie Heisler, Willis Williams, Ralph Mann, Frank Lukenbach, Harry Cowdrick, Harry Williams, John Given, Will Marshall, George Meek, Lewis Mcquistion, Walter Marks, William Rodgers, Morris E. Swartz, Willie Hunter, David Meese, Will Cook, Olie Campbell, Robt. Sommerville, Robert Durst; two books each, Arthur Valentine, Harry Miller, Philip McGinley. If any are not reported, please notify Gilbert Beaver, chairman of the committee.

How to be Nobody.

It is easy to be nobody, and we will tell you how to do it. Go to the drinking saloon to spend your leisure time. You need not drink much now; just a little beer or some other drink. In the meantime play dominoes, checkers, or something else to kill time, so that you will be sure not to read any useful books. If you read anything, let it be the dime novel of the day; thus go on, keeping your stomach full and your head empty, and yourself playing time-killing games, and in a few years you will be nobody, unless you should turn out a drunkard or a professional gambler, either of which is worse than nobody. There are any number of young men hanging about saloons just ready to graduate and be nobodies.—Watchman.

The sixth piano fund concert will be given by the Bellefonte Orchestra in the hall Thursday evening, the 19th.

An umbrella and a gossamer, belonging to visitors, are at the rooms awaiting owners.

SEVERAL young people united with the Presbyterian church on Sunday, the 8th inst. To others we commend Eccl. XII. 1.

ELI PERKINS will lecture on Saturday evening, April 28th, in the Court House. Mr. Perkins says he will give a house and lot to parties of six who sit the lecture out.

THE convention of Association workers to take place at Milwaukee, Wis., May 16-20, includes delegates from the United States and Canada. Our Association is entitled to two delegates.

YOUNG men frequently apply to the Association for employment. Those in need of male help will do us a kindness by notifying Mr. Isaac Mitchell, chairman of the employment committee.

REV. GEO. D. PENNECKER has been returned to his Bellefonte congregation to their great satisfaction. This must be his last year in accordance with the rules of the Methodist church.

THE New York Weekly Witness, Sabbath Reading and Der Bahbrecker, a newspaper for our German friends, have been added to our list of newspapers at the rooms since our last issue of the Record. The first two are from an unknown friend, the last from the publishers.

THE penmanship class holds its last session on the 23rd inst. A class in reading for men and boys employed during the day will be organized as soon as possible under a competent instructor. Terms, free to members, to others a small charge. If you wish to join, send in your name.

"Therefore by the deeds of the law there shall no flesh be justified in his sight."—Rom. III. 20.

"So then they that are in the flesh cannot please God."—Rom. VIII. 8.

"But God commendeth his love to us, in that, while we were yet sinners, Christ died for us."—Rom. V. 8.

"Behold, I come quickly."—Rev. XXII. 7.

REMEMBER, Christian friend, that backsliding is gradual. Judge not that you are hearty in line because you are not deeply besotted in sensuality. The following afar off comes before the denying. It is equally as much to be feared. Take warning, as the mariner does by every half-inch fall in the barometer. We are safe only near Jesus.—F. M. C. A. Watchman.

At the suggestion of one of our pastors an orchestra was organized last month, which has proved of valuable service at the Sunday meetings where the members of the organization have played regularly since. The orchestra consists of Robt. Laird, leader, J. Nevin Klein and E. A. Smith, second violins, L. Gumpert, clarinet, Geo. S. Dare, flute, and J. W. Miller, piano. A violin-cello has been purchased by the Association and the instrument will become a regular member in a short time. We lack a cornet and trombone.

David McConaughy, general secretary of Harrisburg, has resigned to accept the same position at Harlem, N. Y.

The Scranton Association has issued a good initial number of their bulletin. Letters from Will S. Laurie and Jas. R. Hughes report them much pleased with their respective duties, one in the wilds of Utah, the other in the culture of Princeton.

John Olewine, John Tate and Mr. Staat were received as active members at the last monthly meeting.

Can't Get It.

Diabetes, Bright's Disease, Kidney, Urinary or Liver Complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only hurt you. 15-24.

A Remarkable Case.

DR. HARTMAN—Dear Sir: I am induced by a sense of duty to the suffering to make a brief statement of your remarkable cure of myself. I was a most miserable sufferer from the various annoying and distressing diseases

of delicate persons, which caused me to be confined to my bed for a long time, being too weak to even bear my weight upon my feet. I was treated by the most reputable physicians in our city, each and all saying that they could do nothing for me. I had given up all hopes of ever being well. In this condition I began to take your Manalin and Persona, and, I am happy to say, in three months I was perfectly well—entirely cured without any appliances or support of any kind.

Yours truly, MRS. HENRY ELLIS, No. 500 Scott street, Milwaukee, Wis. 15-21.

"Neglect old friends for the sake of new, and lose both." But remember that Kidney-Wort is a friend you cannot afford to neglect. Plasters may relieve, but they can't cure that lame back, for the kidneys are the trouble and you want a remedy to act directly on their secretions, to purify and restore their healthy condition. Kidney-Wort has that specific action.

The Bad and Worthless, are never imitated or counterfeited. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and Good of H. B. Many other started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or clusters of green Hops on the white label. Trust nothing else. Druggist and dealers are warned against dealing in imitations or counterfeits.
