-The Penna School Journal for May quotes Supt. Wolf, of this county, as follows : Many of the schools closed during the past weeks. -A. C. Moore, manager of the Howe Sewing Machine Co.'s business in this county, says business is booming. On Wednesday he drove his spanking team of Texan ponies 58 miles from 8 o'clock A. M. to 7 o'clock P. M. on a collection trip, and they were just as lively in the evening as they had been in the morning. We think he has no equal in selling machines.

THE MOORE CHILDREN .- These won derful prodigies of musical talent and skill are about to demand of a critical public the recognition their remarkable achievements so fully merit. The follow-

My place of business will be closed for two weeks after May 15. After which time I intend to open up with the newly improved dry plate process, by which I expect to make better work than can be produced in the old way. J. W. Moore.

PLEASANT GAP JOTTINGS .- The protracted meeting in the M. E. church is still in progress. Quite a number of our most respected citizens have experienced religion. Let the good work go on, for there are many out in the beggarly element who should come into the fold and mingle with the righteous. --- Prof. Johnston, better known as Blind Charlie, is he put in the church is one of superior spurious article and those who wish a first class instrument should give him a call, for he deals squarely with all .-- Our friend, Hang, and his pard are about to dissolve, as "Cal" is going west to follow \$40. his former occupation .- The man whom we see daily with his shovel is succeeding in gathering quite a large pile of patent fertilizer, only through hard labor and perseverance he has made a success of his new business. The city is now decorated in its grand and beautiful spring attire. Its magnificent streets having been planted throughout with numerous shade trees, it presents a view that is not only pleasing to the eye, but one that will command admiration and wonder, particularly from those who will recall the scenes and occasions presented in the historic days of the Rebellion.

Among the many attractions to be seen we enumerate, the Capitol, the War and Navy Department, the Medical Museum, in which building President Lincoln met his death, the Soldier's Home and Arlington Cemetery. These are but few of the many points of interest, and we would advise all who can avail themselves of this opportunity to go and see the transforma-

DISTRESSING ACCIDENT .- On Wednesday of last week Mr. Bond Valentine was F. assisting in moving his safe from the second story of Humes' block. Ropes were used to lower the safe down the steps. An \$1.250. unexpected slip of the massive iron case caused a portion of the rope to tighten suddenly catching Mr. V.'s fingers and holding them in such a position that to release him the rope had to be cut. This allowed the safe to roll down stairs at a fearful velocity, a large square hole was broken in the landing and the large stone in front of the door as well as a number.

The performance of the quartette in D minor of Schubert (posthumous) forms a notable feature in Saturday Evening Concerts. It introduced Madame Camilla Urso to a London audience, and justified amply the reputation that preceded her. In breadth of style, accuracy of intonation, and command of the bow, both in legato and staccato passages, this artist surpasses all the violinits who have lately appeared before the public, whilst the elegance of her phrasing, the variety of her "muances" and her classical taste, proclaim her one of the first virtuosos of the day. After each movement of the quartette, Madame Urso and her coadjutors encountered the most entiusiastic applause,
