## Our Industries.

### THE BELLEFONTE NAIL WORKS, LIMITED.

For some time your reporter has felt the desire growing stronger within his breast to visit this most recent of our town's important industries. Accordingly, last Monday saw us looking at the ground, which but two years ago was a marshy waste, but now built up with house, tenements, a boarding house and the nail works themselves. On entering the office we were most politely received by Mr. Achenbach and S. M. Buck, the book-keeper. Our old friend Buck kindly showed us the plant and made us acquainted with some of the leading workmen.

#### HISTORY AND DESCRIPTION.

These works were established November 16th, 1881, the company consisting of General James A. Beaver, of Bellefonte, Messrs. Wm. V. Emery and S. Achenbach, of Williamsport. Gen. Beaver is chairman, Mr. Emery secretary and treasurer, and Mr. Achenbach, who is a thorough mechanic of long and varied experience, is general superintendent. Their works are located on Spring creek, three-fourths of a mile below the Bellefonte station, close to the railroad track, with a switch running into the works, affording excellent facilities for shipping. The works were erected in the most approved manner. The rolling mill is 125 by 125 feet; the nail factory 75 by 40 feet and the warehouse 125 by 40 feet, the whole covered with a slate roof. Each department is provided with all the most approved appliances for successful and rapid work. The rolling mill is supplied with eleven furnaces, and all the iron for the nail mill is made here, together with considerable merchant bar iron. The present capacity of the works is 9 to 10 tons of bar iron and 12 to 14 tons of nails. They are shipping 5000 kegs of nails per month. They are all packed under the eye of James H. Stott.

#### MOTIVE POWER.

is supplied by five separate engines. Geo. Rogers is the trustworthy engineer that runs them. One of them has a capacity of 500 horse-power. John Stott, formerly of Reading, is the foreman of the factory. He is a thorough nailer and a most competent mechanic.

#### THE ROLLING MILL.

is supplied with a muck train, nail plate train, and a fifteen-inch bar train. Chas. Kase, of Crescent, is foreman here, and Geo. Kase, likewise of Crescent, is the roller. Isaac Wyland and John McGinley are respectively the roller and catcher on the muck train, and S. B. Wyland catcher on the plate train. The beaters in this department are Geo. Rowan and Adam Ginger. John Feaster runs the nail plate slitter. When we entered

#### THE NAIL DEPARTMENT.

proper, a frightful clatter assailed our ears. Here were thirty boys, each at his machine, making nails of all sizes, from a three-penny fine, to a six-inch spike. It was all very curious, and we screamed to Buck for information, and he held his mouth close to our ears and screamed something back. We knew what he said must be all right, and didn't dispute it. The nailers are, R. Caine, Albert Stott, L. H. Gumpert, James Stott, John Bair, John O'Connor, J. Longacre, James Holston and A. Taylor. These gentlemen are competent, and prove it by the growing popularity of the Bellefonte nail. Geo. Lambert is the foreman. Capt. W. T. Fitzgerald, late of Crescent, is now the foreman of the blacksmith shop.

To pack away this enormous and increasing pile of nails requires a thoroughly equipped

#### COOPER SHOP.

Mr. O. Atwood has under him three assistants. It is a sight long to be remembered, watching Atwood's deft fingers playing like lightning. A couple of minutes ago here were a few sticks, but presto, and lo, stands forth the full made keg.

#### REMARKS.

The works employ 140 men, all told. They are contemplating vast improvements in the future; and having Centre county ore at their disposal, are rapidly attaining a national reputation, as they are shipping to every section of the United States at present.

They have been a great addition to Bellefonte, as they have introduced pushing business gentlemen like Achenbach, Emery and Buck into our business circles and society; added thirty to forty pleasant families; caused a new iron bridge to be built over the creek, and given a great impulse to building.

**PHILIPSBURG MEETING.**—We hope our Democratic friends of Phillipsburg and Rush township will turn out en masse to the meeting on Friday the 26th. No brighter array of political orators has been gathered together this campaign than the gentlemen who will address the citizens of Phillipsburg. Each is a host in himself. In addition to the speakers mentioned in another column, R. Jones Monaghan, Esq., will be present. Let everybody go and hear the issues of the campaign discussed by those able to present them.

—Dr. Rhone, President, and Wilmer Crow, General Secretary of the Y. M. C. A., gave us a call. With two such officers as these the Y. M. C. A. is bound to flourish. Mr. Crow states that the Y. M. C. A. Record will hereafter be published monthly. We suggest that they charge one cent per copy towards bearing the expense of its publication. We believe it has heretofore been distributed gratuitously.

—At the annual meeting of the Y. M. C. A., on Friday evening, October 5, 1883, the Board of Managers of the year just closing, were re-elected, viz:

President, J. W. Rhone; Vice President, W. I. Fleming; Recording Secretary, Charles F. Cook; Treasurer, J. W. Gephart.

Executive Committee—D. S. Keller, W. S. Zellars, F. Potts Green, Gen. James A. Beaver, Clement Dale, A. S. Valentine, R. F. Shaffer and N. S. Bailey.

At a special meeting of the Board of Managers on the evening of October 15, 1883, the different committees to attend to the various departments of Association work (for the year just entered) were selected. In addition to the usual committees the Board filled a long felt want by creating a committee on music, which will be found added to the other committees, in the following list, viz:

Devotional Committee—Q. A. Daniels, Charles F. Cook, James P. Irwin, John A. Rankin.

Committee on Membership—W. I. Fleming, L. A. Schaeffer, Frank Shenton, Newton S. Bailey, Harry Keller, J. W. Gephart, D. B. Bell.

Reception Committee—Edwin F. Garman, Washington Reese, Leon Gumpert, Francis Spear, John W. Barnes, Wilber F. Harris, Harris Mann.

Employment and Boarding Committee—Isaac Mitchell, James H. Stott, F. W. Cridder.

Library Committee—George L. Potter, Joseph M. Belford, Newton S. Bailey.

Commercial Travelers' Committee—J. C. Meyer, John I. Olewine, Harry Green.

Lecture and Entertainment Committee—W. S. Zellars, F. Potts Green, Clement Dale, Gilbert Beaver, Ellis L. Orvis, D. S. Keller.

Committee on Music—James H. Stott, L. A. Schaeffer, R. A. Laird, John S. Musser, John Sommerville.

**ZION AND SUBURBS.**—The dudes who assemble about the church doors during our protracted meetings should be unceremoniously handled. Miss Lilly Fisher, of Boalsburg, is spending the week with her uncle Phil. Miss Mollie Gates has finished her first month's teaching at Zion. Thus far she has given excellent satisfaction. Mr. Albert Shaffer, otherwise known as "Ponny," after having made many scientific experiments at "high farming" during the past summer, says sugar beets should have an early start, and plants should not be set out later than the middle of June. Everybody in the country are commenting on the good road between this place and Bellefonte, and well may they. And right here we will remark that John Dubbs understands as much about successful farming as he does in making good roads. Prof. W. W. Rupert, one of Centre county's best teachers, will conduct the Forest school near this place the ensuing winter. Our worthy townsman, Martin Brumgard, has been nursing Dr. P. S. Fisher the past six or eight days. The Dr. has been confined to his bed with a severe attack of illness, brought about by overwork and exposure. We are glad to say that he is convalescing. Samuel Decker, the model farmer of this place, was busy making hay last week. The yield was good and of excellent quality.

—Owing to the want of space we are compelled to cut short our interesting letter from Penna Valley. We give below a brief synopsis of it. "With the advent of the railroad came all manner of steam engines. Steam saw mills leveled the proud monarchs of the forest at the feet of man, and now the wheat and grain crops bow to the might of the steam thresher. There are five steam threshers in Potter and Gregg, and of them a traction or road engine which travels on its own volition.

The Ladies Missionary Society of Centre Hall and Spring Mills is flourishing. The October meeting was held at the house of Mrs. Thomas Jamison and was well attended.

Robert H. Duncan has returned home after an extended trip.

Equire Rishel tied the matrimonial knot the other evening, the contracting parties were Mr. John Foster and Miss Christie Taylor.

Jacob McCool has moved into his new palace.

John Runkle is assisting Messrs. Whitmer & Co. at their grain house.

**CHURCH REOPENING.**—The church at Ross appointment, Half Moon circuit, M. E. Church, after thorough repair, will be reopened on Sabbath, Oct. 28, 1883. Rev. E. J. Gray, D. D., President of Williamsport Dickinson Seminary, Rev. George Guyer, and others, will be present and officiate. Everybody is most cordially invited.

#### W. R. WHITNEY, Pastor.

—Mr. Amy, city Recorder of Altoona, spent Sunday with Mr. Albert Owen at his residence in Spring township. Mr. Amy is an intelligent, polished young gentleman, and certainly possesses the confidence of the citizens of the Railroad City.

**A JAUNT THROUGH THE LOWER BALD EAGLE.**—Your reporter, Messrs. Editors of the DEMOCRAT, impelled by private business, and the desire to see and become more intimately acquainted with one of Centre county's fairest sections, started last week on a couple of day's drive, and wishes now to give you some of his impressions and experiences. Nothing happened to impede his onward career until he reached

#### MT. EAGLE.

Here the road was blocked by big farmer wagons, all in front of John B. Leathers' cider mill, and it was some time before open way was made. In the meantime he had a talk with the genial R. C. Leathers, who described to him his land operations. The sand of Leathers' Bros. is, by the way, the cheapest in the State, and melts in the glass pots one-third quicker. John was too busy filling cider barrels to talk with any one. So off your reporter started along the back road and found Newlin Hall, our Ex-Commissioner, busy in the corn field. Newlin told him that Democracy was better this Fall than the corn crop; and after he looked at a few specimens of maize, and then reflected on the Buck-eye State, he thought so too. When he struck Howard night had fallen, but that kind of hosts, Jno. A. Woodward, entertained your reporter on his farm. The Woodward farm has become a model, and shows what educated agriculturists can do for the Bald Eagle.

#### HOWARD.

is a growing town, and has become the principal depot for grain and railroad freight in this section. It is now enjoying a boom. Fifteen new houses this year. Her enterprising stores show this too. Balser, Weber & Co. are doing an immense business. Lucas Bros. were so crowded that your reporter had no opportunity to interview the management. Cline & Cook are also doing big work. The Syracuse House is now run by Jacob Cook, and has become one of the most inviting, pleasant houses in this county. The livery attached belongs to Robert Cook, who keeps twelve to fifteen good horses and the best of vehicles. Bob is getting rich, they say here, and has built himself a fine home. Howard Moore, a leading Democrat, is the genial and enterprising druggist of Howard, and is a credit to the town. Jake Long is dealing out Uncle Sam's mail to the good people of this vicinity. The band must not be forgotten, it is the pride of Howard; and this is right, for a better looking set of boys in their new uniforms can be found. And their music would make an ordinary band turn green with envy; and they have only practiced six or eight months, too.

Your correspondent saw an imposing figure a few feet a head. It looked like a field marshal of the Empire in blue and brass, but it turned out to be that go-ahead young Democrat, H. Brickley.

#### EAGLEVILLE.

is about five miles further down the creek, and while not growing rapidly, the citizens are erecting fine houses, so that this is the best-built village in the county. Jno. Kunes' new brick home is a beauty, and his store room is constantly filled with customers. Our old friend, J. A. Quigley, has built himself up a big trade and a big reputation, and is a good example of what a young business man can do. J. P. Linn, member of the Democratic County Committee, welcomed us and showed us the sights. (You see we have dropped the third person.) We ran into one of the best diners at D. B. Kunes, that soon satisfied the cravings of a hungry sinner. And we had a similar experience at Wm. Clark's. We would back Mrs. Kunes and Mrs. Clark for the championship of the State in cooking. We had a pleasant chat with Squire Courter and Wm. Bitner, two of the county's staunchest Democrats. Al. Graham keeps a nice little pool room, and is building himself a new house at the same time. Jim DeLong and Samuel Kunes are running the old hotels the same as ever. Whole-souled fellows, them. Our old friend, Wm. Singer, gave us a warm greeting. They are building a new county bridge. We struck a crowd of jolly fellows there, P. R. Moon, Heverly and others.

#### BEECH CREEK.

shows the effect of railroad building. The Vanderbilt road goes right through it. Everybody is talking of the shops and wandering whether they will come here. We met here some sterling Democrats, such as James A. Wintzel, J. C. Smith, the member of the Clinton County Democratic Committee, Lemuel Shewer. Jim Williams has one of the neatest barber shops in the county, and drives the brag horse. The animal is a beauty. Harry Berryhill is one of the new road's engineers. Harry is a practical fellow. The Berryhill House drives a rushing business. Judge Quigley has turned his fine old home into a hotel, and is ready to extend its hospitality to every comer, be it man or beast. We are glad to see such life in the old town, and hope that it may get the railroad shops.

—During the coming month of November, the ladies of the Presbyterian Mite Society, propose having a New England Tea party. As that will be the Thanksgiving month and pumpkin pies are one of the luxuries generally indulged in on that occasion, we presume they will be one of the attractions at this entertainment, which promises to be both novel and pleasant. We trust there will be a large attendance. The evening and place will be announced hereafter.

—On Sunday evening, October 21st, was held the 14th anniversary of the organization of the Y. M. C. A. of Bellefonte. The exercises were held in the M. E. church, which was tastefully decorated with choice flowers and ferns. On the walls was the legend, "Welcome, friends," in letters made of autumn leaves. After the blessing by Rev. DeLong, music by a choir of male voices, all members of the Y. M. C. A., then followed the reading of the President's report. Owing to the extreme diffidence of the President, Dr. Rhone, the report was read by C. F. Cook, Esq. The report of the Devotional committee was read by Q. A. Daniels, and shows an amount of work done during the year that is truly wonderful; and shows that we have right in our midst an organization whose work for good can hardly be estimated even by those familiar with its workings. The report of G. L. Potter, Librarian, and of J. W. Gephart, Treasurer, are very interesting, and these two departments need financial aid. Perhaps the most interesting reports were those of Masters Keller and Swartz, of the Boys Branch. The little fellows read in a clear distinct tone well-prepared reports of their respective branches of work, and excited the admiration of those present by their cool, deliberate and earnest manner. Well done, boys. You have crowned yourselves with honor and your cause with glory. A together, he 14th anniversary of the Y. M. C. A. was one of the most enjoyable occasions afforded the citizens of Bellefonte for a long time.

**CENTRE HALL NOTES.**—A Pennsylvania R. R. engineer corps have been surveying and making estimates for the completion of the Pennsylvania road. Dave Meyer has a monopoly of the hotel business; but he keeps a first-class house. Van Pelt and Shoop are making a corn-planter that is considered a gem. It distributes the phosphate and plants the corn at the same time, and it you ask "Van" about it he will tell you that "it hucks and grinds the corn and turns out a pan of mush and milk at each revolution of the wheels." Mr. Wolf & Son were in the city buying goods. John Kennedy regulates the time for the farmers. Editor Kutz of the Reporter is the only weekly editor in the county. The town is supplied with water from the mountain side, and as the fountain head is considerably higher than the town, gravity supplies the place of an engine and pump. The Democratic meeting was large and enthusiastic. Clevan Dinges is one of the energetic business men of this town. J. D. Murray keeps the only drug store in the valley, from Spring Mills to Pine Grove. Dr. Alexander's new house is almost completed. Won't the Dr. live nice when he gets into "our new brick"?—Craig Rankin, of Clarion county, brought a fine drove of cattle to town. M. Condo takes the hide, horns and tail-locks off the beef for our friend Roster, the butcher.

—The Northern Conference of the Synod of Central Pennsylvania will meet in the Lutheran church at Boalsburg, Tuesday evening October 30th, to continue two days, closing Thursday evening Nov. 1st. Topics touching the life and work of Martin Luther, the immortal reformer of the 16th century, will be discussed during the day sessions, and sermons preached the several evenings. Children's meeting Thursday afternoon. A large attendance and an interesting time expected. All are invited. REV. G. S. DIXON, Pastor.

—We are indebted to Mr. John Showers of Spring township, near Pleasant Gap, for a fine head of cabbage weighing 15½ pounds. It is a splendid specimen, and does credit to Mr. Showers' agricultural skill. Who can beat it?

Phillipsburg is to have a monster Democratic meeting on Friday. Chairman Hesel and Mr. Davis, of Lancaster, and Ex-Gov. Curtin. Lookout for a big time. The Democrats are awake, sure.

—Just imagine "Ad." McKee on an Indian pony, six revolvers buckled to his belt, and a Winchester rifle on his shoulder, starting on a buffalo hunt. That is the pen-picture we have of the boy.

—We have just received our new Fall and Winter Woolsens. Call and leave your order.

**BLACK-FRATT.**—By Rev. Wm. Pridoux, on the 14th inst. at the home of the bride's parents, Mr. Harry W. Black of Harrisburg to Miss Lettie M. Pratt, of Unionville.

#### CANCER CURED.

No diseases have so thoroughly baffled the skill of the medical profession as cancerous affections and as they have always been considered incurable, it has been thought desirable to adopt their treatment as a specialty; and hence physicians have neglected their proper study. But of late years new and important discoveries have brought forth a course that now proves successful in any of its form, with certainty, without the use of the knife or caustic plasters. We have a treatment that is comparatively mild. It is not poisonous, does not interfere with the healthy flesh, can be applied to any part of the body, even the tongue. We take nothing for our services until the cancer is cured. Address DR. J. H. HULBERT, Eagleville, Centre Co., Pa.

**NOTICE** is hereby given that the final account of James Milliken, trustee of Clara V. Milliken, now Clara V. Evans, has been filed in the office of the Prothonotary of the Court of Common Pleas in and for the county of Centre and that said account will be presented for confirmation at the next term of said Court.

J. C. HARPER, Prothonotary.

**MORE EVIDENCE.**—S. B. HARTMAN & Co., Columbus, O.—Gentlemen: Your valuable *Peruna* is the best medicine I ever used.

NANCY FETTERMAN, Cookport, Indiana Co., Pa.  
Your *Peruna* for indigestion and Liver troubles helps me. W. P. BRANSON, East Liverpool, O.

I was suffering with pain in my chest, palpitation of the heart, with great swelling of the stomach. *Peruna* has done wonders for me. JOHN DONAHUE, Shaversburg, Allegheny Co., Pa.

I have had liver complaint for three years; I thought I would have to quit work; I have taken two bottles of your *Peruna* and am well. THOS. BRADFORD, 214 Western avenue, Allegheny City, Pa.

Ask your druggist for Dr. Hartman's book on the "Ills of Life"—gratis. 41-2.

—Wilson, McFarlane & Co., call attention to the only reliable Ready Mixed Paint in the market. The *Paragon* Prepared Paint is not only superior to any Ready Mixed Paint but rivals pure white lead in its smoothness in working and durability. This paint is guaranteed by the manufacturers not to crack or peel within three years. The guarantee is not only good for repainting the paint but it will be put on if it should crack or peel within the time specified. It will be to your interest to call and see Wilson, McFarlane & Co., before purchasing either white lead or any other Ready Mixed Paint.

**A DANGEROUS COUNTERFEIT.**—There are dangerous counterfeits in circulation purporting to be "Walnut Leaf Hair Restorer." The strongest evidence of its great value is the fact that parties knowing its great efficacy try to imitate it. Each bottle of the genuine has a fac simile of a walnut leaf-blown in the glass; and a Green Leaf on the outside wrapper. The "Restorer" is as harmless to water, while it possesses all the properties necessary to restore life, vigor, growth and color to the hair. Purchase only from responsible parties. Ask your druggist for it. Each bottle is warranted. Johnston, Holloway & Co., Philadelphia, and Hall & Rackel, New York, Wholesale Agents. 4-1y.
