AHEAD OF THE RAILROAD COMPANY—Messrs. Grannis & Candor who have the contract for constructing the railroad from Keating to Karthaus are reported to have "struck it rich," if we may be allowed the term.

It appears that when the time for the completion of their contract expired the construction was not finished as per agreement. The Pennsylvania company then granted them sixty days more time in which to complete the work, but, at the expiration of that time (the contract not yet being completed) failed to notify them to quit work. This in law renewed the contract and Messrs. Grannis & Candor have ever since taken their time with the work and have been daily hauling coal and passengers over the road receiving five dollars for every car of coal which passes over it. We understand they are under law permitted to hold on to it until May—Clinton Democrat.

O, goodness, Newt, what has become of your early lessons in geography? And why do you speak of the "North-west corner of the Diamond" as the location for your "new enterprise"? We considered your feelings, and did not correct you before, and yet we believe you lived on this same "North-west" corner for some time. Indeed, we fear your mind is wandering or that you are turned around in some way. But now it is our turn to give a little friendly advice: "Don't build such castles (Hotels, Opera Houses, Store rooms, etc.) in the air," friend Bailey, unless you can at least locate them correctly. But just step to one side, please, and let us tell you: "The property of Dr. Curtin for which Dr. E. W. Hale is agent," is located on the North-east, and not on the "North-west corner of the Diamond."

Expressions of Gratitude.

At a meeting of the Board of Directors of the Young Men's Christian Association, held Tuesday, March 4th, a report was rendered in reference to the piano which was presented to the Association by the Bellefonte Orchestra. A committee was appointed by the President to express the thanks of the Band, in behalf of the Association, which they do in the following:

To the members of the Bellefonte Orchestra.—The Young Men's Christian Association of Bellefonte, gratefully record their appreciation of the efforts of the Bellefonte Orchestra put forth in their behalf, which have resulted in securing for the Association one of Sohmer's Grand Pianos, the entire cost of which, save the small balance remaining unpaid, has been defrayed by the proceeds of the series of concerts given for that purpose by the Orchestra.

These concerts have not only resulted in practical good to the Association but have been at the same time a source of great satisfaction and delight to all those who have had the privilege of attending them.

We recognize the value and importance of this contribution to the resources of the Association as an aid to social enjoyment, and devotional service, rendered all the more valuable by the kindly thought which conceived, and the generous impulse which carried the scheme to a successful issue.

The members of the Board of Directors beg to express to the individual members of the Orchestra, the kindest wishes for their happiness and success and venture to express the hope that the organization of the Orchestra may long remain intact as a means of elevated enjoyment to our community.

MILESBERG JOTTINGS.—Of late we have had two important additions added to our town. Mr. Bingman has opened a tin shop and stove room in Carr's store room. He makes horse-shoeing a specialty.—We are all waiting impatiently for the commencement of the new railroad. Quite a number of the laboring men expect to get work. Everything looks favorable for a speedy beginning. Quite a number of Italians are seen on our streets every day. A little patience, boys; it will soon start. There is one case of scarlet fever in our town and much anxiety is manifested for fear this dreaded disease will spread among our little folks.—Wm Hall, our ex-policeman and lamp lighter says he now enjoys the pleasures of a civilian—the first time in two years. Billy is a staunch Democrat, and that is why the Stalwart Council appointed his successor. They still stick to their promise that no Democrat shall have a smell in the borough affairs of Milesburg.—It is shameful, the condition the pavements are in. There is not twenty rods of good pavement inside the borough limits. The mud is shoemouth deep in most of the sidewalks. It is almost impossible for woman and children to get through. It does not speak well for the property owners.

The Commissioners

EDITORS CENTRE DEMOCRAT:

As the time for much hand shaking, fawning, treating and finally ticket making is fast approaching, it behoves us as good citizens to see that we get the best men in the market on our ticket as a good, strong, local ticket will aid materially in strengthening the National ticket. We would therefore call the attention of the tax payers to the importance of re-nominating the present efficient Board of Commissioners, please allow me to give a few reasons why we should retain them in office. In the first place it is the custom of our party to re-nominate the Prothonotary, Register, Recorder, Dist. Attorney, &c., to serve the second term as they claim it requires one term of service to become familiar with the duties of the respective offices, then why not for the same reason re-elect the Commissioners.

But the greatest reason and strongest evidence that we should retain them in office is their official record, which challenges censure.

When the present Board of Commissioners were sworn into office, Jan. 1, 1882, our county debt amounted to the vast sum of \$83,167.69. The first year of their incumbency the debt was reduced to \$62,637.15 and the second year ending Jan. 1, 1884, the debt is further reduced to \$42,142.28 and presuming that the same ratio of reduction will continue through this, their third year, they will have reduced the county debt to about \$20,000 thus making a reduction of about sixty-three thousand dollars in three years; how's that for record? It is to the interest of every tax payer to have our county debt speedily cancelled thus avoiding the payment of large interest which on the original debt was almost five thousand dollars annually, every business man will avoid the payment of interest on account of indebtedness by paying the principle as speedily as possible thus placing himself on a solid financial basis, thus our far-seeing Commissioners saw and acted upon the principle that the county debt was their debt, hence the reduction. There may be many men in the county who, if elected Commissioners would not dare to do wrong for fear of censure, but not many like our present Board who dare to do right and defy censure. They have been prudent in the appointment of tax collectors. Placing their duplicates in hand of responsible parties when possible and seeing to it that each collected give good solid Bondsman before placing duplicates in their hands, a matter that their predecessors had very much neglected as is shown in the Auditors' Report by the many delinquent collectors, the present Board, however, is bringing the collectors to time, compelling them to pay into the treasurer what they have collected and when we consider the many improvements in building iron bridges &c., they have made, we wonder how they have accomplished so much in so short a time, we hope the tax payers will consider these facts and use their influence to have them re-nominated and their election is sure, the writer is personally acquainted with Mr. Greist, and of him I can say that an earnest, energetic, zealous, business man and sharp financier, he has no superior and few equals, and of course he, with the other two good men, make a strong team. They have proven themselves true to the trust the people of Centre county imposed on them; they have been tried in the balance and found not wanting. Let us re-elect them and our county will soon be out of debt, our taxation reduced and we will be happy people, but for the present, I am
