A number of our teachers gave public entertainments at the close of their school terms, not so much for the sake of improving the pupils as to please them for having been good boys and girls during the winter For pupils as a rule take great delight in getting up before an audience and give a budget of nonsense that will benefit neither themselves or the hearers. Mr. Barlett is boarding with a Mr. Coble, and Gilbert was kept by Mr. Coble through charity the greater part of the winter. On Monday of last week Gilbert left Mr. Coble's house and came to Bellefonte. On Wednesday Mr. Barlett wanted to use his watch, when to his great surprise he could not find it. He at once suspected that Gilbert took it. He came town on Thursday and inquired of Blair, the Jeweler, whether any person answering to Gilbert's description offered first day of September to the first day of a watch for sale at his office. Mr. Blair answered to the affirmation and described the watch. It corresponded with the watch owned by Mr. Barlett who had a warrant issued and placed in the hands of Constable Montgomery who arrested him. Gilbert refused to tell to whom he sold the watch and said "you may hunt the watch as you hunted me." He was committed to jail, in default of bail. It was after wards learned that the watch had been sold to Moyer Lyon for \$8, from whom the watch was againobtained.
