-The Acme base ball club of this place played a match game with the College nine on the grounds of the latter on Saturday last, the score being 14 to 8 in favor of the latter. The Acme with a little more practice will soon loom up to be "opponents worthy of the steel," and will probably make the Association nine look to their laurels.

-A good looking young man has been victimized by the dress-makers and a good many other ladies of Mercer county by taking subscriptions to a fashion journal which after being paid for falls to come. The fellow gave his name as George Bradley, and his victims say he was a very nice young man, had such white hands, and "Yes! lady," oh, so beautifully. He is probably operating in other fields just now.

The nomination of F. E. Bible, Esq., for the office of Recorder, and Mr. Jas. A. McClain for Register, is without a doubt a forgone conclusion, there being no other candidates in the field for these offices.

Messrs. Bible and McClain have filled their respective offices up to the present so acceptably that the voters of old Centre have concluded to continue them there for at least another term.

Rev. Jno. Hewitt departed for Reading, Pa., on Monday evening to attend the church convention in session at that place this week.

Our friend Clem Dale, Esq., purchased the handsome residence of Jesse Stewart on Water street, and will occupy it very soon. Mr. Stewart's headquarters will, we understand, be at the Bush House.

The exercises of the High School took place in Humes' Hall on Friday evening. The attendance was quite large and the exercises interesting. For want of space we are unable to give a full account of the proceedings.

Mr. Alfred Nichols, formerly manager of Valentines stores at this place, but now of Brooklyn, N. Y., was married to Miss Emma Woods, an accomplished and handsome lady of the latter place. They expect to sail for Europe on the City of Berlin on an extensive wedding tour immediately. We extend our congratulations.

The Hop of the Gentlemen's Dancing Class at the Brockerhoff House on Friday evening was the ne plus ultra dance of the season. A number of ladies from a distance graced the hall with their presence and tripped the light fantastic toe in a very charming manner. While we do not wish to speak disparagingly of our visitors, we are of the opinion that few towns can excel the ladies of Bellefonte in graceful and accurate dancing, and for hospitality none.

The State Editorial Excursionists will meet in Harrisburg on Monday night, June 16, and visit Carlisle and Pine Grove Park on Thursday, reaching Gettysburg in the evening. Wednesday and Thursday will be devoted to visiting the battle-field. Wednesday night Mr. Hensel, of Lancaster, will deliver an address in the Court House, Eugene H. Monday, of Philadelphia reading a poem. Thursday night there will be a "hop" at the Springs Hotel.

Mr. Walter Agar of Lock Haven indulged in a few games of checkers to please the boys at the Garman House last Thursday afternoon, and while he "got away" with all of them, he did not have as perfect a walk over as on former occasions.

"Judge" Love scored four games besides a number of draws, and Prof. Keller also scored several games, and draws against this formidable foe. Al. Garman and Wm. Harper "never got a smell." The local only played two games and well, he might have scored one game but he didn't.

There was rather an unfortunate occurrence took place at the residence of Mr. Ezekiel Confair on last Saturday evening. It appears that he had a shot gun put away that was loaded some months ago. When Mr. Confair put it away he looked off the cap fearing that it might be used by the boys. One of his sons, ten or eleven years of age, got a cap from one of the neighbors and put it on the pivot, and thinking the gun not loaded, told an older brother he was going to shoot him. The brother told him to "bang away." The gun was discharged, landing the contents in the young man's wrist and hand. Dr. Grove was sent for, who responded promptly to the call and dressed the wound. The young man who was injured was about 17 or 18 years of age. Another case where he didn't know it was loaded.

The Republican Ring Leaders assembled at the Court House on Saturday evening to ratify the nomination of the "Plumed Knight," Jas. G. Blaine, for President of the United States. Speeches were indulged in by several of the big guns of the party, and Col. Dan poured oil over the troubled waters while the chairman of the Republican County Committee arose to explain why he favored the nomination of the dignified "Chet." (No punning). Of course it was like singing a requiem, but the love feast is over now and verily "the lion and (shorn) lamb shall lie down together." The Milesburg and Pleasant Gap bands played a few very appropriate airs, among them, "Thou hast learned to love another," "I'll forgive but can't forget," "We'll not go back on the boys" and "It will all come right in the end." At about twelve o'clock some twenty-five or thirty boys gathered a lot of empty oil barrels (Col. Dan used the oil) and a lot of old boxes and made a weak attempt to have a bon fire in front of the Court House. Of course this fuss is all for nothing and when we ratify the nomination of old Sammy in July the Republicans will feel ashamed of their small affair on Saturday night.

A special meeting of the Board of School Directors will be held Tuesday evening, June 17th, for the purpose of electing teachers for the public schools and also a teacher for the Colored school. The same wages are to be paid during the next term as were paid during the last.

We are the happy owner of a bicycle. We have only owned it for a few days. A bicycle is a meek looking concern before you attempt to manage it, but it contains more thumps, more cuss words, and more treachery to the square inch than any thing of its size in the world. A trick mule in a circus is no comparison, and it is only equaled by a Republican politician for tricks and pranks. We received quite a number of instructions by mail, and nearly everybody we met gave us "pointer" on how to ride it. By the time we arrived at our place of business our pockets were bulged out on every side and we resembled a battered up milk can. On our way several gentlemen volunteered to assist us in mounting, but we were too tired carrying all those papers and listening to so many different people (without taking into consideration the small boy), that we concluded to hire a cheap boy to take it home for us by way of one of the back streets. To save the boy's funeral expense we followed at a respectable distance behind. "Whose bicycle is that?" chorused the sonorous voices of Dr. Joe Brockerhoff and Cal. Brackbill. We forgot to caution the boy, and he "gave us dead away."

After listening to another short sermon, and finding all attempts to coax and bribe us to "try it" were useless, and "wasted on the desert air," Doc and Cal took the preliminary steps towards illustrating how 'twas done, while we took a seat on the curb and composed an audience of one to witness the marvelous—well, we scarcely know what we were to witness—it was too early in the campaign. The curtain rose inside of two seconds and so did Joe. He was about to make his mark, and he made it—full length in the dust. [Applause.] Cal thought Joe was rather "slow," so he took the contract to do the job himself. Now, Cal once worked in a factory where they turn out "bar!" hoops and wasn't so slow about riding the kind of bicycle (draw horse) you trim hoops on. But (this kind seemed to be a new thing to him and puzzled him somewhat. After placing his foot upon the stirrup and swinging to and fro for several seconds, [more applause]—a second seems a long time on a bicycle, and a fellow ought to have more of them than a prize fighter—he called Joe and the "audience" to "steady the thing." He knew he'd be all right after he once got on. The request was granted, and the word "let go," given.

By this time the audience had increased considerably, and out of every window, and every door on Bishop street from Spring to Alleghany, protruded the heads and forms of every occupant of the house. He knew nothing of the propensities of the hind wheel of a bicycle to interview the stars, and when it does we just wish to explain to the inexperienced that a fellow usually sees them also. After we "let go" Cal did not go very far. The large wheel struck a small stone and Cal's noble brow and proboscis plowed out a long furrow in the ground. [Screams of applause.] We laid him out, applied restoratives, and patched up the places where the bark was peeled off with a few yards of court plaster. He wasn't as ambitious [more applause] to ride it after that. But Joe wasn't to be scared as easy, and requested the furniture man and the audience (in the beginning) to "steady it." We steadied it, and then left Cal and Joe to themselves. We can't say how it happened; we were looking in another direction, but when we centered our gaze on the performers again we were astonished beheld an amusing aspect. All three were lying flat upon the street, Cal with one foot entangled in the small wheel and head pointing to the west, and Joe with one foot in the large wheel and head pointing to the east. [Screams and screams of applause.] Cal was taken home on a shutter, and Joe hobbled into the house [more applause but no bouquets] to apply court plaster and bathe the parts affected, the outside was not considered a very appropriate place to dress his wounds. Our cheap boy gathered up the tricky thing and wheeled it home without any further trouble.

P. S. The boy offered to return the money to us provided we allowed him to take it down another street the next evening. We declined. It was too much for us.

We were hurrying down street the other evening. We were interviewed by a charming dudine thusly: "Beg pardon for stopping you, but will you kindly inform why the letters 'D. D.' are placed after a name?" "Why certainly, certainly, with the greatest of pleasure. It means Doctor of Divinity, an expounder of the gospel, a preacher, a—" "Well," broke in the c. d., "what right has a preacher to write to me, and he says he works in a 'printin' shop,' too." "O, that sheds a different light upon the subject we explained. In that case it stands for dude devil, and hurried off."

Mr. Wm. Wilkinson was presented with a crate of luscious strawberries on Tuesday and we are informed through reliable authority that he accomplished the wonderful feat of crawling outside of four quarts of them (dry measure) one quart of cream, one hundred and fifty pounds of trout, four quails (at \$2. each) thirty-one loaves of bread and fourteen cups of coffee for dinner the same day. If any one can expel that feat we should be glad to hear from them.

NEWS BOY.

—When a carpet is taken up to be cleaned, the floor beneath is generally covered with dust. This dust has been in most cases a long time accumulating, and is very fine, very dry and very injurious. It often contains minute poisonous germs which rise rapidly in the air with the dust. If inhaled, the lungs suffer much from this fine dust. It is well before sweeping to sprinkle the floor with dilute carbolic acid by aid of a whitewash brush. This dilution kills any poisonous germs that may be in the dust, and also renders the floor sweet in other respects.

—Jim McClain, of Bellefonte, the dassed cuss that beat us for Register, was in town Friday. Well, he's a good fellow, and there's some consolation in being beaten by a fellow like Jim.
