CANCER CURED.
No disease has so thoroughly baffled the skill of the medical profession as cancerous affections and as they have always been considered incurable, it has been thought disreputable to adopt their treatment as a specialty and hence physicians have neglected their proper study. But of late years new and important discoveries have brought forth a course that now proves successful in any of its forms, with certainty without the use of the knife or caustic plasters. We have a treatment that is comparatively mild. It is not poisonous, does not interfere with the healthy flesh, can be applied to any part of the body, even the tongue. We take nothing for our services until the cancer is cured. Address
