And yet some people say it does not pay to advertise. —The campaign of '84 will perhaps be the hottest of any ever known. Everybody ought to read a paper, and that paper should be the CENTRE DEMOCRAT. Subscribe now and get the news from the beginning. —In due respect for the memory of the dead the workmen on the new cathedral might have discontinued their picking and hammering during the brief funeral rites over the late Ferdinand Beezer, which were held in the church near by. —Prof. Meyer, formerly of Aaronsburg, but now of Shamokin, seems to have gained friends in every direction. The fire occurred at about 11 o'clock and the entire stock and building was consumed. The fire originated through the bursting of a coal oil lamp. The loss was about \$4000, on which there was an insurance of \$4000. —Mr. Eugene Heverly can be seen almost any evening upon the pike near the Springs airing his beautiful new bicycle. Subscription for the 10 days, 25 cents, in advance. —A lady, who evidently is fond of a joke, telephoned to Lewis' store a few days since for "a pound of chipped beef," preferring it "without finger chippings." Ed. has declared vengeance if he ever finds out who it was. —Our friend Henry Vitalini writes to us from Florence Kansas, enclosing his subscription and says he would rather pay 25 cents for each copy of the DEMOCRAT than to miss getting it. —Mr. John Wagner shouldered his musket on Monday and started to the woods to bag a few woodcocks. He was observed returning through one of our back thoroughfares at nightfall, carrying his gun at half mast, which is a sure indication that John's trip was not at all successful. —Prof. T. C. Houtz, one of our successful teachers in this and other counties, will open a select school in Centre Hall on Monday, the 28th, inst. The Professor is an accomplished scholar, having graduated with honors from the Penn. State College several years ago. —Rev. Jas. P. Hughes, accompanied by his brother-in-law, Mr. Luther Roberts, of New York, and other gentlemen, returned on Friday from their fishing and hunting excursion to the head waters of Beech Creek. They report having had a very enjoyable time, besides succeeding in hooking several dozen of the "speckled beauties." —For several days past a rumor was afloat that Mr. Tressler, of Pleasant Gap, had been bitten by a mad dog, and that while in the harvest field on Saturday was attacked with hydrophobia. Upon inquiry it was found only a portion of the report was true. Mr. Tressler was bitten by a dog and was quite ill for several days afterwards, but did not attribute his spell of sickness because of the dog bite. We are glad to learn the worst part of this report was incorrect. —For some time past several colored men gained access to a vacant room in Humes' block and were in the habit of gambling in it. On Tuesday night officers Montgomery and Garres made a raid upon them, arresting one of the gang. The rest escaped by jumping out of a back window upon a small out-building, breaking several windows and tearing down several telephone wires in their flight. The balance were arrested on Wednesday morning, however, and held for trial. —A sad accident occurred near Hecla, this county on Monday evening last, which proved fatal to Mr. John White. It appears Mr. White had spread some grain rakes on the barn floor and placed several horses thereon for the purpose of "tramping" out the grain, and in urging one of them, a colt, by lightly touching it with a whip it kicked him on the breast, the force of the blow knocking him down. He was picked up and carried to the house, where he lingered until Tuesday evening, when he died. Deceased was about 60 years of age, and leaves a wife and several grown children besides a large number of friends to mourn his loss. —Again we are called upon to record the death of one of Bellefontes highly respected citizens in the person of Capt. W. W. Potter whose death occurred shortly after 7 o'clock on Tuesday evening at the residence of his son George, on Linn street. Mr. Potter has been ailing for several years past but attended to his duties until Saturday last. At about 12 o'clock Sunday night he took worse and lingered until Tuesday evening when death relieved him of his sufferings. Captain Potter has held the position of Agent for the Penn'a. R. R. Co. at this place for many years, and enjoyed the love and respect of every one who knew him. An obituary will appear next week. —Sunday was a little cool and "blustering," and reminds a person of the old legend, "When the winds doth over stables blow." We forget the rest, which wounds our feelings. We hadn't thought of giving you a rest just yet. —Mr. Joseph Garbrick, the inventor of Zion, was in town Saturday. He called to explain the modus operandi of his late invention. We espied him in time and escaped through the back door. We always steer clear of lightning rod men, sewing machine agents and inventors of patent rights. —P. S.—We beg a thousand pardons. Our "devil" just informed us his mission was merely to learn the name of the Zion correspondent. That's easily explained. Didn't you notice his name? It's Mr. "Anon."

James reports a "Cleveland addition" and says the family are all well. —Mr. Moran Hibler is now located at Meridian Miss., to which place he went for the benefit of his health. Mr. Hibler is employed in the Meridian National bank, at that place. —Mr. Linn Harris returned home from St. Louis last week and expects to remain for some time. He has just recovered from a very serious attack of sickness and contemplates recuperating among the hills of old Centre for sometime before returning. —Mr. Wm. H. Jones a former resident of Spring Mills but now of Altoona returned to the latter place on Saturday from a visit to his late home. Mrs. Jones who accompanied him contemplates visiting among friends and acquaintances in Penn's Valley before returning. —Mr. Robert Hunter, son of Hon. Benj. F. Hunter, of Buffalo Run, has just completed painting a fine portrait of Capt. Hunter of Stormstown. Mr. Hunter has been attending the Academy of Fine Arts in Philadelphia for some time, and expects to return to the city in October to continue his studies. His ability as an artist is recognized by a number of "Art loving" people, and his instructors predict for him an exceptionally bright and successful future. —Edgar Green, who has charge of the wiring department of the Electric Light Co., is the inventor of several remarkable improvements in the distribution and control of the electric current. One is a "switch," by which all the lights in a house may be turned on or off at pleasure, or one light in each room, or in any room may be turned on. Another is an ingenious contrivance that gives entire control of the amount of light to be furnished to the consumer. By this little piece of mechanism the light can be turned on from one-half candle power to its full capacity, running from one-half up, one candle power at each move of the key. These inventions of Mr. Green makes the electric light the most perfect of lights, and he has removed the objections of persons who burn light all night in their rooms, "that it cannot be turned down." We saw the invention tested, and each "candle power" as it was turned on successively increased the brilliancy of the light, until the full power of the lamp was reached. We hope Ed. may make a fortune out of his invention. He has "caught on" to the electric current, and controls the course and volume. He will yet be a millionaire. —A very distressing accident occurred to Mr. Ed. Foster at Lewis' store on Saturday morning. While in the act of chipping beef his hand in some unaccountable way slipped under the knife, cutting off about a half inch of one of his fingers. The blood began to spurt quite freely, and the delivery clerk, who happened to be in the store, ran to his assistance and while in the act of raising the knife fainted, and in falling to the floor his wrist which came in contact with the knife was severely cut. Dr. Hayes who was then administering to the wants of Mr. Foster was compelled to leave him and attend to the young man. Ed. now carries his wounded member in a sling, and will of course take a short vacation. The other party's wound was not serious enough to prevent him from resuming his duties. —The citizens of Bellefonte are tardy in considering the advantages our town will derive from the G. A. R. Encampment in August. A meeting was called for Thursday evening at the Court House for the purpose of taking steps to secure a sufficient fund to carry out the arrangements successfully. The attendance was not as large as it should have been, nevertheless a sufficient number were present to take some practical measures to accomplish the purpose of the meeting, and the following committee was appointed to solicit subscriptions: North Ward—Col. D. H. Hastings, A. O. Furst, Esq., and Mr. J. L. Kurtz; West Ward—Messrs. Valentine Smith, L. L. Brown and John Anderson; South Ward—J. L. Spangler, Esq., D. F. Fortney, Esq., and Mr. Jas. A. McClain. —The funeral on Tuesday afternoon of Mr. Ferdinand Beezer, who died at his residence along Spring creek on Sunday evening, was one of the largest that ever took place in this community, there being over fifty vehicles in the funeral cortege. Mr. Beezer's age was about 37 years, and leaves a wife and several children to mourn his sad loss. The interment took place in the Catholic cemetery.

Tailors vs. Lawyers. —The above notice in large letters was posted in different portions of town on Monday morning, and upon closer examination it was learned the lawyers and tailors of Bellefonte were to play a match game of base ball in the afternoon of the same day. It takes nine tailors to make a man and one good lawyer as a rule can get away with a dozen of them. Base ball however, appears to be the exception to the rule, and the tailors gave them "fits" and "pressed" them hard on account of the lawyers not being able to cook their goose. Blackstone usually makes a hot fire but went out most too soon. Not until their own goose had been cooked, however, the tailors won the choice and sent their opponents to the bat. Failing to score enough runs at the ending of the first half of the ninth inning to beat or even tie the score, the lawyers took exception and appealed for a new trial. On what grounds we have not learned. We suppose they were non-suited, though. The score stood 22-19. Col. Keller umpired the game in a very satisfactory manner. —SELECT EXCURSION TO THE SEASHORE. —The Pennsylvania railroad announces a Select Excursion to the Seashore on Thursday, July 31st, 1884, leaving Pittsburg by special train at 8:35 a. m., Eastern Standard time, arriving at Philadelphia at 7:25 p. m., where passengers will remain over night and proceed to the Shore the next morning, leaving Market street wharf as follows: For Atlantic City 8:50 a. m., Cape May 9 a. m. JOHNSON, Corresponding Sec'y., Cumberland, Md. —PENN HALL HULLS.—Our farmers are about all through with their harvest, and were greatly favored with good weather. W. Bartges has sold his fine house for the nice sum of \$250. —There has been some trouble of late in this and adjoining towns with some of the neighbors. Such as would digest more fully and be more healthy for the soul. —Harvey Smith returned home from the lumber job on Saturday evening, having been so unfortunate as to cut an ugly gash in his leg. —Miss Rose Wendle and sisters, from Lewisburg, are visiting at this place with their brother, S. MOUNTAIN BOY. —The number of cattle killed on the Vanderbilt road in the vicinity of the head waters of Beech Creek is immense. We were informed by Mr. Hughes that nineteen head were killed by the cars during the few days his party were in that locality. These cattle belong mostly to people who are in moderate circumstances, and drive their cattle to graze upon the mountains during the summer months.

He graduated at Miami college in 1848, located in Benner township in 1850, and in 1855 removed to Patton township where he practiced his profession until his death. [Considerable attention is being given to the different offices to be filled, and as we are in constant receipt of letters favoring one or the other candidates, we have determined to throw our columns open to all, believing that a full and fair discussion will result favorable to the party. We will reject all communications that are scurrilous or personal in their character and will not be responsible for the writers. All communication must reach us not later than Monday morning to insure publication the same week.] EDITORS. —Assembly. —Editors of Centre Democrat.—As you permit other correspondents to occupy space in your columns in advocacy of particular nominations, I ask the same privilege, in favor of the Legislative ticket, which I believe ought to be nominated. The making of laws for a great State like Pennsylvania, is a trust or duty which ought not to be committed to ignorant or incompetent persons. Interests too vast are injuriously effected by unwise and immature legislation. During the last decade, our great county has, at times, been respected in the legislation by men, not only without experience or training, but without any knowledge upon the various subjects brought before our legislation at Harrisburg—men who could not draft a simple statute upon any subject, and who, if shown one properly drafted, could not tell the legal effect of it. This is all wrong. Men should know what the laws now are, and what they mean, in order to know whether they should be repealed amended or supplied. —Hon. C. T. ALEXANDER of Bellefonte, has all the qualifications for a good representative. A sound and accomplished lawyer of twenty five years' experience—a legislator who has had two years service in the House and four in the Senate—an educated and enlightened gentleman, well acquainted with all the varied business interests of the State, he would at once take a great rank among the leading Democrats of the House. Give us Mr. Alexander from the north and Hon. FREDRICK KURTZ, from the south side of the mountain, and we will have representatives of whom we will not be ashamed. PORTER. —Assembly. —Editors Centre Democrat: There are many very, very funny things in politics. One of the most funny things we have read for a long time is a letter in last week's Watchman signed C. T. Alexander. The letter was written to favor the re-nomination of B. F. Hunter for Assembly, and in case that can not be done then the nomination of the writer, Mr. Alexander. The reason given why one or the other of these two men should be nominated is, "that next winter there are to be Congressional Senatorial and Representative apportionments, and that our county should be represented by men of experience in legislation." —Sec. 18, Art 2 of the Constitution of Pennsylvania provides, "The General Assembly, at its first session after the adoption of this Constitution, and immediately after each United States decennial census shall apportion the State into Senatorial and representative districts," &c. —The last "United States decennial census" was in 1880. Immediately after that, to wit, in 1881, the General Assembly met. Hon C. T. Alexander was Senator from the 34th District, he did not obey the constitution and apportion the state into Senatorial and Representative districts—He was at Harrisburg for nearly five months, but although experienced, the records do not show that he ever said one word about apportioning the state into Senatorial and Representative districts. Did he forget the command of the Constitution, or did he quietly and timidly acquiesce in Tom Coopers policy of disregarding it? —The next year B. F. Hunter was sent to the House. He was there the first four months, and did not apportion the state. Then when called back by the Governor to this neglected work, he staid six months longer and then adjourned with out doing it. —What apportionment bill did Mr. Hunter prepare and submit to the House? What mode of compromising the difference between the two parties did he propose? What conciliatory speeches did he make? What plan of reconciling the difference between the Senate and House did he devise? Send Alexander or Hunter to Harrisburg to make apportionments, as a proposition coming from one of themselves is funny, very, very, funny. —There is another question involved in the legislative nomination. Hunter and Meyers both voted to pass the appropriation bill over the Governor's veto. By this bill they paid themselves out of the pockets of the tax-payers, ten dollars per day including all recesses, whether they were there attending to their duties or not. Was this patriotic? Was it honest? Our party is going into a campaign this fall, against all kinds of crookedness and speculation in public office. Will it be consistent for us to nominate double pay representatives? What a battle cry it would make for the campaign—"Cleveland, Hendrick's Hunter and Reform!" How it would stir the blood of the young and enthusiastic Democrats! —Let our party perpetrate no such nonsense as this, but take some clean man fresh from the people. COMMON SENSE.
