BALD EAGLE VALLEY R. R.

Thousands of Germans Now Wearing Woolen Clothing Only. [London Times.]

The doctrine starts with the fundamental principle that, being animals, we should wear animal clothing. The ab-sorption by vegetable life of poisonous emanation from animal life is a process not limited, it would appear, to living plants, b.t continued by vegetable fiber such as cotton, linen, etc., with the dif-ference that while the living plant assimdates these emanations, the dead fiber can not do so, but exhales them again when wotted or warmed. Thus our clothes in consequence of their vegetablechara, ter, attract and retain those noxious pr n iples which should, on the contrary, be thrown off with the greatest po silie promptitude. On the other hand, an inat material, such as wool, i-made by nature to protect animal life, and will not prevent, but assist the evaporation of the emanations comin-Arrive at Tyrone...... 7 05 6 85 from he body. This can readily be proved by the sense of smell. It sugh es to wear clothes of pure wool throughout, and there is at once an ento the unpleasantness noticed in th. Hace underesothing, the cotton liningof the coat, etc. Наплав..... 7 57 8 40
