

Flashes.

The census for the District of Columbia shows the population to be nearly 206,000.

Francis Murphy, the temperance lecturer, is doing effective work at Pittsburgh and Allegheny.

The President has appointed James W. Whelpley, of New York, assistant treasurer of the United States.

Four workmen on a bridge were severely shocked by a stroke of lightning on last Friday. One will probably die.

The iron and steel works of Brown & Co., Pittsburgh, will now be continued without interruption, the firm having signed the Amalgamated association scales.

Prof. Odium's sister, Mrs. Charlotte Smith, visited the Brooklyn bridge on Saturday, and had a policeman point out to her the place where her brother took the fatal leap. Little satisfaction in this.

The Dolphin, a ship built for the U. S. Navy by John Roach, has made her last trial trip, and has been found all right. The requirements were that she steam 15 knots an hour for six consecutive hours.

New York labor organizations are petitioning the Attorney General at Washington to order that no more United States prisoners be sent to the Albany Penitentiary, on account of the contract labor system in force there.

John Motter, a wealthy farmer, living at Findley, Ohio, killed his 12 year old son on Friday last, by striking him in such a way as to break his neck. Findley became angered at the boy for not being able to find a bolt which had fallen through the floor.

Ex-Auditor of New York, Frederick A. Palmer, died one day last week in the State prison, at Trenton, where he was sent three years ago to serve a twenty-years' sentence for an embezzlement of \$125,000 of the city funds. Death was caused by apoplexy.

Charles Angell, who stole \$125,000 from the Pullman Palace Car Company, several years ago, and sentenced to a 10 years' term in prison, has just been released on account of good behavior. He has been offered remunerative employment by business firms in Chicago.

The troubles in the north-west have not yet ceased. Big Bear's band is on the war path and several bodies horribly mutilated have been found. People are massacred by the Indians whenever caught. The body of a woman with both legs and arms cut off, was found in a well.

A boy named Alfred Hibbard, living in Millwaukee, swallowed a three dollar bill the other day. The physicians say it will have to be cut out. Should the boy recover, his father will be able to make a nice thing out of him, as dime museum managers all over the country are telegraphing to make engagements with him.

Clearfield

Called from the Democrat

An effort is being made to have the encampment of the Districts Posts of the G. A. R. at Clearfield.

Walter Fleming has sold his interest in the Punxy Tribune to W. H. Tyson, and the paper is now published by Smith & Tyson.

His honor Judge Furst, of Centre county, is assisting Judge Krebs this week.

The Hungarians at work on the Clearfield branch of the Beech Creek, Clearfield & Southwestern railroad struck for higher wages last week, but finally returned to work at the old wages.

The large new school house at Penfield was struck by lightning Monday evening just a few minutes after the scholars had been dismissed. The building was considerably damaged.

Now that the Philadelphia legislature has got down to work probably it will have the good sense to pass the peddler's and hawkers bill and rid Clearfield and other counties of the state of the Polish cheap Johns who now humbug the people. Representative Norris is working like a beaver to get this bill passed.

The wheat crop will be not much more than an average crop in this county. In places where the wind of the past winter left the wheat exposed to the frost the grain was destroyed and many farmers are plowing such fields. Large crops of corn and grass are expected.

From the Curwensville Herald.

Merrill Bros. have commenced the building of a large dam, across Antietan creek, a short distance above Bridgeport.

A scientist has found that a woman's ear can perceive higher notes than a man's. This is the reason why they always wake up first when the baby cries at night.

The military company lately organized in this place, have commenced their weekly drill in Graff's Park. They expect to be inspected and mustered into their service on the 4th of June.

John P. Feath has been appointed

postmaster at New Washington to succeed Mr. Gallaher. Mr. Feath has been acting under Gallaher for several years. By "Nitro" he is out top at last. Work has commenced on the telephone line to be erected between this place and Dubois. With this facility, Curwensville will be made the central office of the county. We heartily congratulate our Dubois friends upon having secured this means of communication with this place and the county seat. The work will be pushed as rapidly as possible.

It is quite amusing to note the vim with which some of our merchants have been fighting the peddler's of this county and at the same time encourage the very men whom they are making war against. We have been informed that one or two of our merchants, were victims of the Irish peddler who was selling pantalon goods from place to place in our town not long since. They made him an offer and the goods were placed at their disposal.

The latest and most approved game is the game of "Bows." It is played somewhat after this fashion: Two young ladies walk down street together for instance. The one to whom the most hats are raised is the winner and the other pays for the ice cream or soda water. When a hat is raised to both it is called a "scratch and counts for neither. Gallant young men should therefore, keep their eyes wide open for their lady acquaintances; the simple raising of a single hat may mean victory.

Murder at Warriors Mark.

A special dispatch to the Daily News from Vail, Pa. dated May 28, says: The quiet little town of Warriors Mark, Huntingdon Co. is this morning for the first time in its history, the scene of a terrible murder, which occurred last night. As we are informed, last night Jack Laport and John Irvin, with another man, came to town and after satisfying themselves with copious drinks of liquor, they left the town.

Laport, Irvin and the stranger again came to town and soon after Laport and Irvin departed, and the third man refusing to go with them. Nothing more was thought or seen of them until about 11 o'clock when some person passing that way found the body of Irvin along the road with his throat cut from ear to ear and his face and head battered up as if done with a stone. Suspicion rests upon Laport as the murderer, as he could not be found. When last seen they were together. They had a drunken brawl which ended in a murder. Irvin is a single man, heavy set and lived with his widowed mother near Dry Hollow. Laport was a former clerk in the clothing house of A. J. Fiegle, Tyrone, and addicted to drink. He is a son of Associate Judge Laport, of Huntingdon County. At this time he has not been arrested. Great excitement prevails in the community.

To Head Off the Cholera.

The state board of public charities has issued a circular to the president judges, directors of the poor and county commissioners, calling attention to the necessity of isolated buildings for the treatment of contagious diseases in hospitals and almshouses. The circular says: It is the opinion of the board that such buildings should be provided for use at all times, for cases of small pox, scarlet fever, and diseases of like nature. But in view of the possible advent of Asiatic cholera this summer we deem it especially important at the present time and strongly recommend the erection or procurement of temporary structures for this purpose, where it is not the intention to provide those of more permanent character.

What Boston Thinks of Us.

They are at their wits' end in New York to know how to raise money for the pedestal for "Liberty Enlightening the World." New York has little civic pride. Had such a gift been offered to Boston the money would have been raised within two weeks. As a gift to the people of the United States, the French people made a mistake in designating New York as the place where it should stand. New York is simply the largest city and the business center of the country, with no political rank. A similar gift to France might as appropriately be placed in Havre. The statue should have been placed at Washington, the capital of the Nation. The Federal Government would then have made suitable provision for its location, and the people of the United States would not have been placed in a false light by the piousness of New York.—Boston Post.

A Lady's Perfect Companion.

PAINLESS CHILD BIRTH, our new book. Tells how any woman may become a mother without suffering any pain whatever. Also how to treat and overcome morning sickness, swelled limbs and other evils attending pregnancy. It is reliable and highly endorsed by physicians as the wife's true private companion. Send two cent stamp for descriptive circular and confidential letter sent in sealed envelope. Address FRANK THOMAS & Co., Publishers, Baltimore, Md.

—Go to Corman's for your flags for decoration. A large lot just received. —Buy all of your groceries at Harry Teat's grocery store. The hillside for a quarter of a mile along the Fort Wayne Railroad at Agnew, ten miles from Pittsburgh, is sliding at the rate of four feet an hour and ten or twelve houses and the railroad track itself is in danger of being pushed into the river.

Miss Mary Bright, of this place, who had taken a trip east, last week, returned on Saturday night at 12:30 and she reports having had a very nice time with her friends and acquaintances; we presume she had—judging from her appearance on Sunday. We are informed that S. T. Frain and Henry Miller, of this place, had been out a few days last week for trout and brought home over 200 of the speckled beauties, but we are not certain whether they bought them from other parties or not.

While at the rink on Saturday night, our constable came in and took one of the boys, while skating and left with him for Bellefonte soon after, and he will, no doubt, skate at Sheriff Walker's for a while. M. G. H.

Wedding Anniversaries.

- First Wedding, Paper. Second Wedding, Straw. Third Wedding, Candy. Fourth Wedding, Leather. Fifth Wedding, Wooden. Tenth Wedding, Tin. Twelfth Wedding, Linen. Fifteenth Wedding, Crystal. Twentieth Wedding, Floral. Twenty-fifth Wedding, Silver. Thirtieth Wedding, Pearl. Thirty-fifth Wedding, China. Fortieth Wedding, Coral. Fiftieth Wedding, Gold. Seventy-fifth Wedding, Diamond. The above interesting facts were sent us by a friend. As we have never reached the first, the same will not apply to us. The third should come first, we think, and the tenth, second, as this would bring the tin whistle where it would most likely be used.

Adam and Eve and That Apple.

How many Apples did Adam and Eve eat? Some say Eve 8 and Adam 2—a total of 10 only. Now we figure the thing out far differently. Eve 8 and Adam 8 also—total 16. And yet the above figures are entirely wrong. If Eve 8 and Adam 82, certainly the total will be 90. Scientific men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this: Eve 81 and Adam 82—total 163. Wrong again; what could be clearer than, if Eve 81 and Adam 812, the total was 893? If Eve 811 and Adam 812, would not the total be 1623? I believe the following to be a fair solution: Eve 814 Adam, Adam 8124 Eve—total 8,938. Still another calculation is as follows: If Eve 814 Adam, Adam 81242 oblige Eve—total 82,056. We think this however, not a sufficient quantity. For though we admit that Eve 814 Adam, Adam if he 8081242 keep Eve's company—total 8,082,055. All wrong. Eve when she 81812 many and probably she felt sorry for it, but her companion, in order to relieve her grief, 812. Therefore, when Adam 81814240f Eve's depressed spirits. Hence both at—81,896 894 apples.—Ex.

Pens and Ink Worth Recommending. We have been favored with samples of the celebrated Spencerian Double Elastic Steel Pens, and after trying them feel justified in highly commending them to our readers. They are made of the best steel, and by the most expert workmen, and have a national reputation for certain desirable qualities which no other pens seem to possess in so great perfection. Among these are uniform evenness of point, durability, flexibility and quill action. So popular have they become, that of the "Number One" alone, as many as fourteen millions are sold annually. Complaints are constantly made of the difficulty in getting good ink. Probably, in some cases, the durability of the ink is of little consequence—the writing has done its work in an hour or two; but, it should be remembered, occasions constantly arise which give great importance to writings, or perhaps to the mere signature of a name. The usual inkstand is, of course, resorted to, and if an inferior ink is commonly used the result possibly may be disastrous. The Spencerian Writing Fluid combines, in a high degree, three essential qualities, fluidity, color, and durability, and is absolutely reliable for all business purposes.

The proprietors of these well-known Pens and Inks, Messrs. IYVISON, BLAKEMAN, TAYLOR, & Co., 753 & 755 Broadway, New York, Educational Publishers, will send free, on application, a Sales-book of their Spencerian Specialties which gives a full descriptive list of these and many other standard articles of interest to stationers and booksellers.

Woman's Province.

THE DUTIES OF THE GENTLER SEX—HOW BEST FULFILLED. What a great task is assigned to woman. Its dignity cannot be elevated. It is not her province to make laws, to lead armies, nor to be at the head of great enterprises, but to her is given the power to form those by whom the laws are made, to teach the leaders of mighty armies and the governors of vast empires. She is required to guard against having the slightest taint of bodily infirmity touch the frail creature whose moral, intellectual and physical being is derived from her. She must instill correct principles, inculcate right doctrines, and breathe into the soul of her offspring those pure sentiments which in time to come will be a part of themselves, and bless generations yet unborn. Yes, to woman is given the blessed privilege of aiding the sufferer in all the various stages of his existence. She smiles serenely at the christening, and weeps at the burial, while she soothes the bereaved heart. This is her province and duty. Yet how can she fulfill her mission unless possessed of a strong and healthy body? The preparation of Dr. S. B. Hartman, and known as PERUNA, is just the thing for persons suffering from a majority of the complaints incident to this climate. It is invaluable to women, and Mrs. J. W. Reynolds, of New Lisbon, Columbiana county, Ohio, is a noted example of what the medicine can do. She says she has suffered for years with congestion of the lungs, catarrh in the head, and was troubled with a bad cough. She had tried a number of physicians, but they all failed to cure her. She was induced to try PERUNA, and immediately a marked change took place. After using one bottle her cough ceased and in a short time her other ailments were cured. She is now completely restored to health, and gives all the credit to PERUNA. Mr. J. W. Reynolds, her husband, was a confirmed invalid. He could not sleep well, neither could he work. He used PERUNA, and as a result, was completely restored to his former vigor and strength. He says he now feels like a new man. Mr. Bernhard Seuss, St. Clair, St. Clair county, Mich., says: "I have thoroughly tried your PERUNA in the various diseases to which parents and a large family of children are ever liable, and I find it in every case to be just the thing needed. No family can honestly be without it." Nancy Peterman, Cookport, Indiana County, Pa., says: "Gentlemen: Your valuable PERUNA is the best medicine I ever used."

A large, new, and elegant stock of goods of every description, just received at Corman's novelty store. —JAMES VICK STRAWBERRIES.—This new and valuable berry originated with Samuel Miller of Bluffton, Montgomery county, Missouri. As a seedling it attracted attention by the unusual glossiness and vigor of its foliage, before it fruited, and this vigor and strength of growth has to a still greater degree appeared in its enormous bearing qualities. The berries are nearly round, of uniformly large size, deep scarlet and of excellent flavor. In respect to its keeping qualities, it is among strawberries what the Hansell and Souhegan are among raspberries. Its fruits have been known to stand on the vines a week after becoming ripe, without softening or rotting. It is not only a standby for family use but for a market berry it stands pre-eminently at the head. The originator of this berry is well known as a horticulturist, having originated the Martha Grape and other fruits of great value. He has never sent out a new variety which has not taken its place in the front rank and held it, and the fact that he has allowed the James Vick to come before the public as one of his seedlings is of itself evidence of its excellence.

The valuable qualities of this new strawberry may be summed up as follows: 1st, Fine quality of fruit, great vigor and hermaphrodite (or perfect) blossoms; 2d, Color, form and firmness of berry; 3rd, Ability to remain on the vines a long time without injury; 4th, Ability to stand drought; 5th, Uniformity of size of fruit, which averages large; 6th, The rapidity with which it forms new sets; 7th, The glossy and beautiful appearance of the foliage, retaining its verdure until very late in the fall, making it one of the finest border plants for flower beds that can be obtained; 8th, enormous productiveness; all these qualities uniting to make it the most valuable market berry which has ever been produced. Grown and For Sale by THE C. L. VAN DUZEN NURSERY CO., Geneva, N. Y. Agents wanted! Permanent positions on salary, and expenses paid.

The Reputation of A Standard Article is seldom injured by surreptitious rivalry. Imitators of Hostetter's Stomach Bitters have not only lost money by attempting underhand competition with it, but have actually contributed to enhance the estimation in which the genuine medicine is held. The public at large has for many years been acquainted with the ear marks that distinguish the real from the spurious, and cannot be persuaded that other articles sold in somewhat similar guise are equally good. Fever and ague, constipation, dyspepsia and liver complaint are not curable by cheap local bitters, eye openers and tonics, but the fact is too well proven and too generally known to admit of conscientious dispute that for these and other maladies the great household medicine is a safe and thorough remedy. Not only in the United States, but in Mexico, South America and the West Indies, its merits are widely recognized and its reputation too firmly established to be shaken. 7-22-1y.
