Reduced Profits.

If only the capitalists could be convinced that the pa t is past, and that the building up of immense fortunes in a few years is no longer possible, a great step would be made toward a revival of business. The moment they should make up their minds that, at the present stage of the wourld's progress, two per cent is a very fair remuneration for securely invisted money the whole basis of business transactions would be changed. If capitalists would be satisfied with two per cent. on government and other gilt-edged securities investors of a more speculative disposition would consider five per cext., a good interest on their more risky ventures, and the same standard would soon be accepted by the manufacturers, for the manufacturer, unless he works himself, is not entitled to any large interest than the mere out side stockholders of an indus trial concerp. On the countrary, his returns ought to be smaller, for he holds, himself, the control of the business, while the stockholder mu.t trust to other people and in consequence runs an extra risk. There seems to be a natural graduation in the rate of industrial profits. Less than fity years ago a 12 per cent. rate was barely considered a satisfactory average. Some thirty five years ago 10 per cent, began to satisfy the investor. Some fifteen years ago the 7 per cent. rate became prevalent and railroad company has actually been the hour of the 5 per cent. rate made." has evidently struck now. When this rate of remuneration for the use of their savings is firmly established in the masses all business will be conducted on a cheap basis and the much-looked. for revival will speedily establish itself. As long as this does not take place people will in vain look for the removal of the obstacles at present obstructing the progress of business relations all over the world .- Ex.

Condition of Crops.

WASHINGTON, July 10 .- The June re port of the Agricultural Department shows a slight improvement in winter wheat which advances the general average between two and three points, or from 62 to nearly 65. The winter wheat region, which does not include the territories, now promises about 215,000,000 bushels. The condition of spring wheat continues high though the average is slightly reduced, being nearly 96. Indications now point to a crop of about 148,000,000 bushels, making an aggregate of 363,000,000 bushels. The condition of corn is higher than in any year since 1830, except the last. The ares is 74,000,000 seres. Cotton has made a material improvement du :ing Jane: average cardi lo ancreased from 92 to 96.

The average of winter mye has increased from 43 to 87 since the 1st of June. The general average for cats is 97 in place of 93 last month. Oats has shared with all the c reals in the improvement of the month. The condition of barley averages 92.7: of tobac-

A Berlin Court Scandal.

LONDON, July 2 .- Tue Telegraph prints a Berlin letter giving the particulars of a Court scandal. A Prince 35 y- ars of age, a near relative of Emperor William, and a son of one of the hero's of the French war, after an entert inment with companions at the Emperor's chateau at Sans Souci, near Berlin, supped at Hiller's, in Berlin, and thence went lynch him. to a house frequented by the jouncese dorce. The joyous band sang and shouted and threw bottles through the windows. In the midst of the orgie the Prince quarreled with Lieutenant Prittwitz, of the First Regiment of Silest n Cuirassiers, and boxed his ears. Li utenant Prittwicz, feeling dishon fored before his comrades, and etiquette forlidding a duel with a Prince of the house of Hohenzollern, sh t himself tenving a letter of explanation. Em por William on being informed of the aff ir wrote a letter of condolence to the lieuten int sfither. The Prince is under military arres'.

Unrequited Love Causes Suicide.

ALLENTOWN, July 12. - Lizzie Bec vel. She was seen to approach the bank of the canal in an excited manner, and teen years of age.

Lost-A young dog, about threefourth gray-hound, white breast and front legs, answers to the name o" "Burchard." Was last seen on the Fair Ground on the day of the circus. A suitable reward will be paid on the return of the dog to Frank E. Pible, at the Recorder's office, Bellefonte, Pa.

Millions of Acres Released.

WASHINGTON, "July 13. - Land Commissioner Sparks has rendered an important decision in a case which recently came before him, affirming the right of entry under the public land laws and decisions of the Supreme Court of the United States of lands heretofore withdrawn by the voluntary ladies of our village, who contrived to action of the General Land Office for railroad indemnity purposes, where no requirements of law existed for making such withdrawals. This decision affects over 30,000,000 aures of public lands which have been kept out of the market for many years in the interest of railroad corporations. The Commissioner cites at length from many decisions of the Supreme Court and concludes as follows:

"Following these decisions by the authority of which I am governed, I must hold that a withdrawal of land by the Commissioner of the General Land Office when, as in the present instance, withdrawals from settlement, entry or other appropriation are not required by law, are effective only as information in defining the limits within which indemnity selections may be made in a proper time and manner, but are not operative as a prohibition of settlements and entries within such limits under the public land laws prior to the time when a lawful selection by the

A Flood in Illinois.

BLOOMINGTON, Ill., July 14 .- This region was visited by another tremendous rain yesterday, lasting over an hour, which deluged the grain fields. Reports continue to come in from Thurs' day's storm or water spout, showing it to be the most damaging ever known. Twenty five miles esst and north-east of this city several bridges on the Lake Erie and Western road were swept away. The damage done to railroads, crops, buildings and stock is estimated to be not less than \$250,000.

The Mackinaw valley within one hour was submerged and thousands of acres of promising corn and thousands of shocks of newly cut grain were floated and carried away. Several bridges on the Lake Erie and Western railroad were washed out together with half of the track at Saybrook. At Kapps, on the Illinois Central, the water rose ten feet within an hour, and at Selma a \$50,000 iron bridge across the Nickinnaw was swept away a school house was moved from its foundations and carried half a mile away. Herses and cattle were killed by lightning and drowned, and in several places people were stunned by lightning. Old settlers say it was the greatest sto:m in twenty years.

Beat His Wife's Brains Out-

upset the coffee pot over his wife and ties. then knocked her from her chair with the vessel, threatning to kill her. Mrs. Cogan said: "Kill me now if you want to." Cogan seized an axe and struck at her, severing her right arm. He then turned the axe and beat her brains out. The murder occured in presence of their young children. Cogan is in jail at Woodsfield. The neighbors threa en to

Giris Can Marry at the Age of Eleven Years in Maine.

Augusts, Me., July 15 .- George F. S edman, 40 years old, of Sebec, was married a few days ago to Grace Prebel, a girl of about 11 years, living in the same town. The town clerk at first sefused to issue a license, but the consent | Bend chilled ploughs and will sell them of the child's parents being given no during this mounth at cost for cash in legal ground for refusal remained, and the marriage ceremony was perforned at once

Only Fractions of Lives,

How many persons live only a fraction of average human life because the neglect to take the commonest precautions against sickness. The festival held at this place on Saturday last, under the auspicies of the M. E. Churc's, proved to be quite a success, the evening being very pleasant many persons from a distance were in attendance. The gentlemen especially were not attracted by the refreshmen's as much as by the handsome young to make it pleasant for all with whom they came in contract. One of, the most interesting features of the evening was the chancing off of a beautiful lamp and castor, J. A. Noll, of this place, holding the winning number for the lamp, and Mrs. Robert Miller, of Bellefonte for the castor. Our Methodist friends have reason to congratulate themselves, as the profits realized, mount to seventy dollars.

The Pleasant Gap Band was present and enlivened the occasion by rendering some of their choice selections in a very creditable manner.

Christian Haag, who has recently arrived from Germany, but now resides in Williamsport, paid a friendly visit to his uncle, Gotlieb, of this place, and says his visit was a pleasant one. He returned home on Monday morning.

W. H. Noll Jr. and brother, still continue to serve the people with everything kept in a first class store.

A mercantile firm under the manage ment of John Griffith has occupied the Eckenroth building.

Haag's mill is still doing a rushing business, this is due to the skill of Ed

McKinley, who is a first class miller. George Hudson of Philadelphia, is paying a visst to his wife's relatives in

this place, at the family of John Barnes. The steam saw mill which was the enterprise of Wm. Bigler has been absindened. They intended sawing blocks for paving purposes which has been deferred.

The 4th of July at the Gap passed off without any unusual occurrence: the majority of our young people having gone to Lewisburg to give vent to their patriotic feelings.

The railroad when once completed will be a great convenience to the people of this section, and is what they have been wanting for many years. Benny says the curves are very grace-

James C. Noll who has been a studept of Franklin and Marshal College, at Lancaster, Pa., for the past three or four years, will take charge of the Pine Grove Academy, for a term of ten weeks, commencing July 27.

The U. S. Store-keeper and Guager. of Hagg's distillery has been busy during the past week making preparations for his successor who we trust will be an honest Democrat.

-The members of the Citizen's Cornot Band, of M lesburg, desire to re. turn their thanks to all those who so I berally patronized them at their festit WHEELING, W. Va., July I3 .- At val, and especially to those who assisted Richfork, near Woodsfield, Ohio on in the labor of gesting up and making Sunday evening, David Cogan and wife it a success. They fully appreciate the quarreled at the supper table. Cogan assistance received from outside par

Only Temperance Bitters Known.

No other medicine known so effectually Millions bear testimony to its won-

It is a purely Vegetable Preparation, made from the native herbs and roots of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. It removes the cause of disease, and the

It removes the cause of disease, and patient recovers his health.

It is the great Blood Purifier and Life-giving Principle; a Gentle Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the power of Vincoan Bitters in healing the sick of every disease man is helr to.

The Alterative, Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Sedailve, Counterminative, Sedailve, Coun

The Alterative, Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Sedative, Counter-Irritant, Sudorific, Anti-Billious, Solvent, Diuretic and Tonic properties of Vinegar Bitters exceed those of any other medicine in the world.

No person can take the Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Billous, Hemittent, Intermittent and Malarial Fevers are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autumn, especially during seasons of unusual heat and dryness.

These Fevers are invariably accompanied by extensive derangements of the stomach, liver and bowels. In their treatment, a purgative, exerting a powerful infinence upon these organs, is absolutely necessary.

There is no cathartic for the purpose qual to Dr. J. Walken's Vinegar Bitters, as will speedily remove the dark-colored viscid same time stimulating the secretions of the liver, and generally restoring the healthy functions of the directive organs.

e digestive organs,
Fortify the body against disease by puri-Fortify the body against disease by puri-ying all its fluids with Vincean Bittens. No opidemic can take hold of a system thus forearmed. It invigorates the Stomach and stim-plates the torpid Liver and Bowels, cleansing the blood of all impurities, imparting life and rigor to the frame, and carrying off without the sid of Calomel, or other minerals, all poisonous matter from the system. It is easy of adminis-ration, prompt in action, and certain in its results.

Dyspepsia or Indigestion, Headache, rain in the Shoulders, Coughs, Tightness of the best, Pneumonia, Dizziness, Bad Taste in the fouth, Bilious Attacks, Palpitation of the leart, and a hundred other painful symptoms, re at once relieved by Vinegar Bitters.

For Inflammatory and Chronic Rheum-

-JAMES VICK STRAWBERRIES.-This new and valuable berry originated with Samuel Miller of Bluffton, Montgomery county, Missouri. As a seedling it attracted attention by the unusual glossiness and vigor of its foliage, before it fruite I, and this vigor and strength of growth has to a still greater degree appeared in its enormous bearing qualities.

The berries are nearly round, of uniformly large size, deep scarlet and of excellent flavor. In respect to its keeping qualities, it is among strawberries what the Hansell and Soubegan are among raspberries. Its fruits has been known to stand on the vines a week FORE. after becoming ripe, without softening or rottening. It is not only a stand-by for family use but for a market berry it stands pre-eminently at the head. The originator of this 'berry is well-known as a horticulturist, having originated tte Martha Grape and other fruits of great value. He has never sent out a new variety which has not taken its place in the front rank and held it, and the fact that he has allowed the James Vick to come before the public a. on . of his seedlings is of itself evi- FOR ALL KINDS OF GRAIN. dence of its excellence.

The valuable qualities of this new strawberry may be summed up as follows. 1st Fine quality of fruit, great vigor and hermaphrodite (or preject) blossoms; 2d, Color, form and firmness of berry; 3rd, Ability to remain on the vines a long time without injury; 4th, Ability to stand drought; 5th Uniformity of size of fruit, which aver ages large; 6th The rapidity with which it forms newsets; 7th, The glossy and beautiful appearance of the foliage, retaining its verdure until very late in the fall, making it one of the finest border plants for flower beds that can be obtained; 8th, enormous prod: c tiveness; all these qualities uniting to make it the most valuable market berty which has ever been produced.
